

# How to add Dedicated IP team member

## 1 Click Team Members button.

## 2 Add user details, select Dedicated IP & then click Add Team Members(s)

The screenshot shows the 'Add Team Member(s)' dialog box in the PureVPN Admin Panel. The dialog has a title bar with a close button (X) in the top right corner. It contains a table with five rows for adding team members. Each row has three input fields: 'Team member name', 'Email Address', and 'Choose dedicated IP'. The first row is pre-filled with 'Oswald', 'oswald@outlook.com', and a dropdown menu. The dropdown menu is open, showing three options: 'Choose dedicated IP', '172.94.117.149', and '172.111.154.210'. The second option is highlighted in blue. Below the table, there are two buttons: 'Add Team Member(s)' (highlighted with a red border) and 'CANCEL'. The background shows the Admin Panel sidebar with options like 'Account Information', 'Team Members', 'My Invoices', 'Products', 'Downloads', 'Apps', 'Extensions', 'Other Devices', 'Server Location', and 'Help Desk'. The top right corner of the Admin Panel says 'Welcome! Test Logout'. The bottom right corner has a Windows activation watermark and a support chat icon.

Team member name	Email Address	Choose dedicated IP
Oswald	oswald@outlook.com	Choose dedicated IP
Team member name	Email Address	Choose dedicated IP
Team member name	Email Address	Choose dedicated IP
