

How to manually setup SSTP protocol on Mac

NOTE

Note: Starting June 15th, 2021, PureVPN will discontinue offering support for PPTP, L2TP, and SSTP protocols on the majority of VPN locations.

However, at the popular request of our users, we will continue to support the following locations for users to connect using PPTP, L2TP, and SSTP protocols:

Germany: de1.pointtoserver.com

Netherlands: nl1.pointtoserver.com

United Kingdom: ukl1.pointtoserver.com

United States: usil1.pointtoserver.com

United States: ustx1.pointtoserver.com

United States: usca1.pointtoserver.com

United States: usfl1.pointtoserver.com

United States: usny1.pointtoserver.com

United States: uswdc1.pointtoserver.com

Australia: au-sd1.pointtoserver.com

Here's how to configure PureVPN on your Mac device with the SSTP protocol.

Note: You would require Mac version El Capitan or above to proceed with this setup.

Things to Consider:

Before you begin, please make sure that:

- You have a working internet connection
- Mac Supported Device.
- A Premium PureVPN account (If you haven't bought yet click [here](#) to buy)

Find your VPN credentials for manual configuration.

- Login to the PureVPN [member area](#)

PureVPN Support

Solution of Your Problems

• Once logged in go to Account & Billing section.
<https://support.purevpn.com>

- On Account and Billing section click on drop-down icon

- Click on Show/Update VPN password

- Note down your PureVPN username and click on Eye icon to make your password visible and use it in the manual configuration.

How to connect PureVPN manually on Mac.

- Run Easy SSTP from Applications.

PureVPN Support

Solution of Your Problems

<https://support.purevpn.com>

- Type your Mac password and click OK

- Click Easy SSTP icon from Menu bar and select Configure...

- Click New

- Once the new windows open, please enter the information mentioned below for the following fields:
 1. Connection Type: Password from the drop-down menu
 2. Insert Connection Name: PureVPN SFTP
 3. Insert the desired server: Please refer to the server address shared in the above note.
 4. Enter your PureVPN credentials. Here is how you can [find your VPN credentials](#).
 5. Click Save.

- Click Easy SFTP icon from Menu bar and select newly created PureVPN SFTP connection.

- You are connected now. Enjoy the FREEDOM!

- Click Easy SSTP icon from Menu bar and select Shows status... to verify connection.
