

Easy Guide on How to Setup VPN on Sitecom Gigabit Routers

Things to Consider:

Before you begin, please make sure that:

- You have a working internet connection
- VPN Supported Router.
- Own a premium PureVPN account (If you do not already own one, you can buy a subscription from [here](#))

Follow below steps to configure Sitecom router.

- 1 Access Router from a default gateway
- 2 Click on Wizard

The screenshot shows the web interface of a Sitecom wireless gigabit router 300N. The 'Status' page is active, indicated by a red checkmark. The interface includes a navigation bar with tabs for Status, Wizard, 2.4GHz WIFI, Firewall, Advanced Settings, and Toolbox. Below this, there are sub-tabs for System Status, DHCP Server, Device Status, Internet Status, DHCP Status, Log, and Statistics. A descriptive text block explains the purpose of the Status page. A 'System' section displays the following information:

Model :	Wireless Gigabit Broadband Router
Uptime :	37 sec
Hardware Version :	Rev. A
Serial Number :	123252698
Boot Code Version :	2.5
Runtime Code Version :	2.5

- 3 Now Press 'Next'

4 Select 'Others' in the drop-down menu titled 'Country'

5 Select 'Manual Configuration' in Service tab and hit 'Next'

- 6 In the login Method select 'PPTP'
- 7 Enter 'PureVPN' in "Hostname" field
- 8 [IP address](#), Subnet Mask and Default Gateway fields will remain unfilled
- 9 Enter your username and password assigned by PureVPN
- 10 Write your desired server address in PPTP gateway field. If you don't know this, contact PureVPN customer support.
- 11 Enter 1400 in MTU field
- 12 Hit Apply

wireless gigabit **router** 300N **SITECOM**

Choose your language ▾

Status **Wizard** 2.4GHz WiFi Firewall Advanced Settings Toolbox

Please, enter the data which is supplied by your ISP.

Login Method : PPTP ✓

Obtain an IP address automatically :

Hostname : PureVPN

MAC Address : 000000000000

Use the following IP address :

IP Address :

Subnet Mask :

Default Gateway :

Username : Purevpn Username

Password : Purevpn Password

PPTP Gateway : xxx.purevpn.net

Connection ID : 0 (Optional)

MTU : 1400 (512<=MTU Value<=1400)
