

Error Code: 0x800704D4

Error Description: 0x800704D4: The network connection was aborted by the local system

Possible Cause: This error comes when the hostname of the VPN server is not resolved by the forward proxy in-front of the VPN client.

Possible Solution:

Advanced Computer User Solution (manual update):

- 1) Start your computer and log on as an administrator.
- 2) Click the Start button then select All Programs, Accessories, System Tools, and then click System Restore.
- 3) In the new window, select “Restore my computer to an earlier time” option and then click Next.
- 4) Select the most recent system restore point from the “On this list, click a restore point” list, and then click Next.
- 5) Click Next on the confirmation window.
- 6) Restarts the computer when the restoration is finished.
