

How to access Netflix US on Mac via Dedicated IP mode

Enable the Dedicated IP mode on your Mac with this easy-to-follow guide and get instant access to the Netflix US from anywhere.

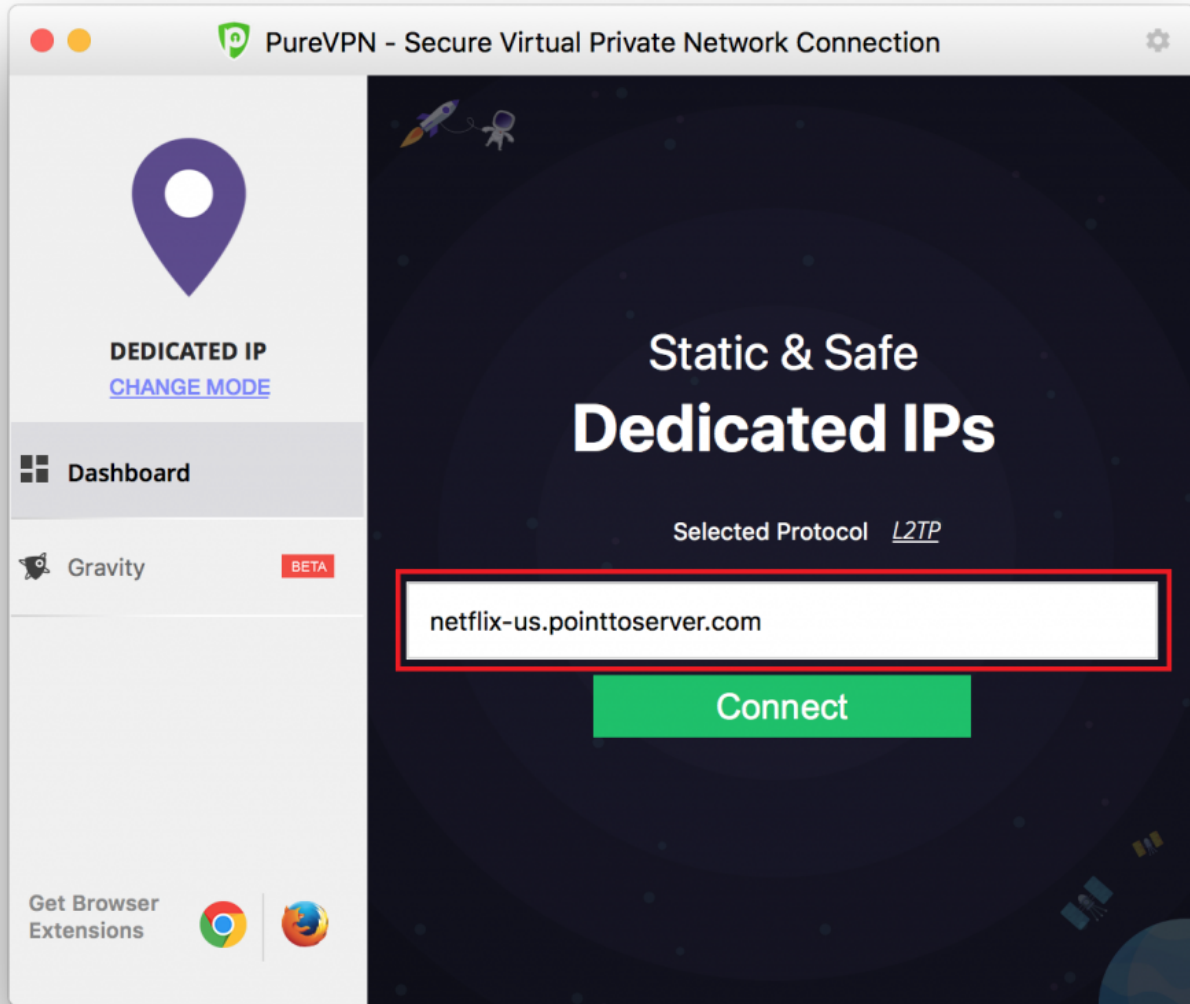

1 Go to Modes.

2 Select Dedicated IP mode.

3 Type in server address / hostname for Netflix Streaming & click connect.

4 You are now connected.

5 Once connected, open your browser and proceed to stream.

Make sure you connect to the VPN servers mentioned below to enjoy Netflix US.
