

How to add Firefox Extension to IceCat Browser

To install PureVPN's Firefox extension on your IceCat browser, just follow these simple steps:

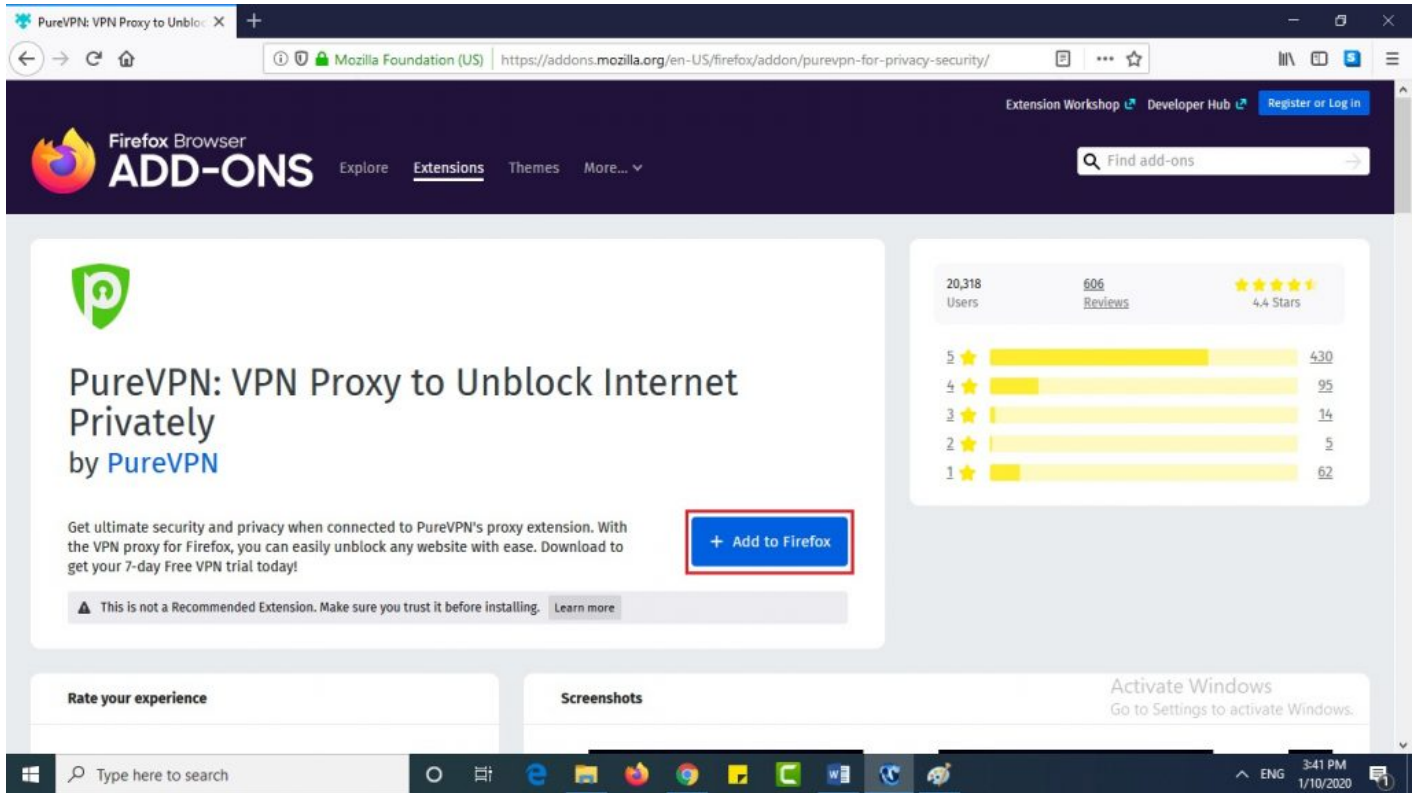

1 Open your IceCat Browser.

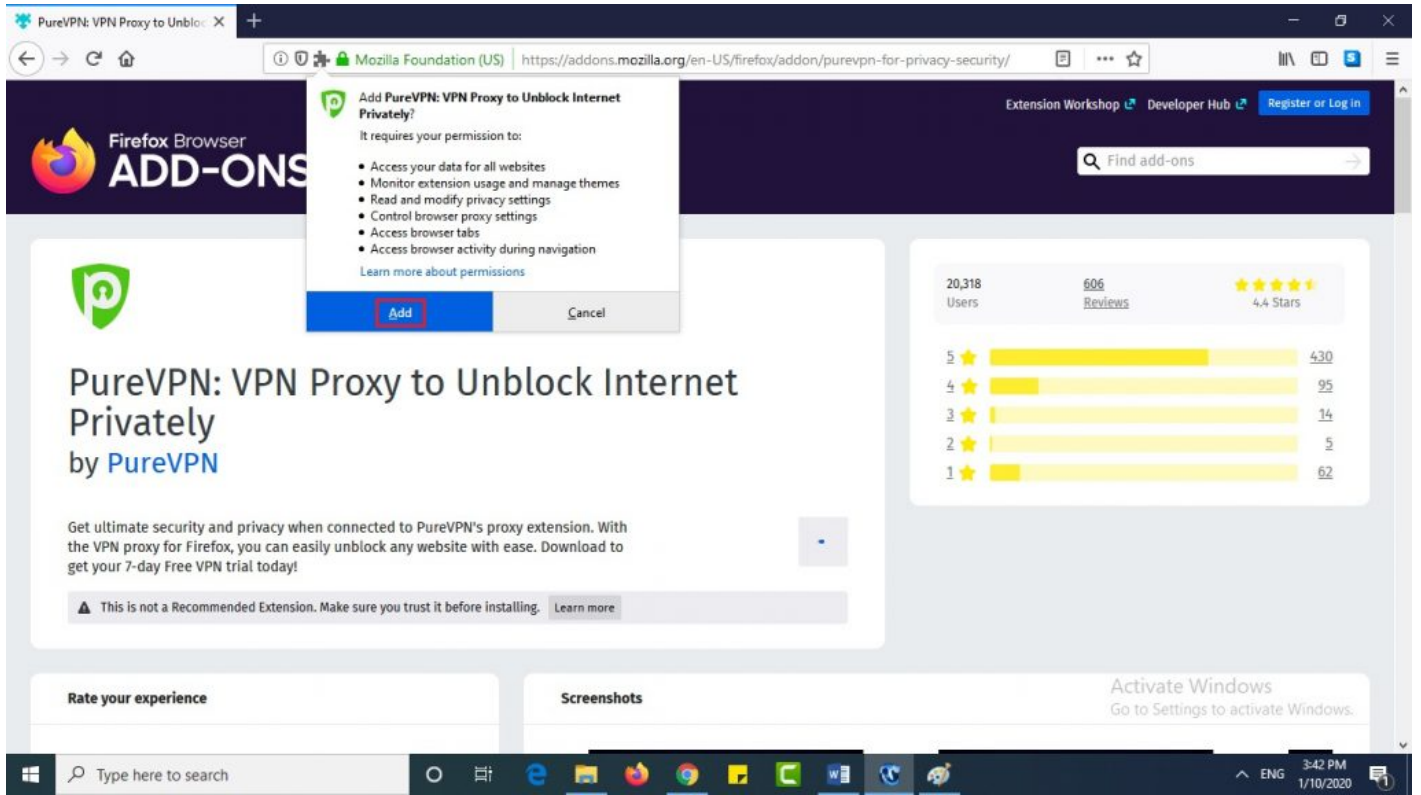

2 Visit this [link](#) to install the extension.

3 Click Add Extension.

4 A pop-up will appear. Click the Add button

5 You're all set! You can now use PureVPN's Firefox extension on your IceCat browser.

The screenshot shows a Firefox browser window with the following elements:

- Browser Tabs:** "PureVPN: VPN Proxy to Unblock Internet Privately" and "Welcome-Firefox".
- Address Bar:** https://www.purevpn.com/welcome-to-firefox-extension?utm_medium=extension&utm_source=firefox
- Page Header:** PureVPN logo and navigation links: "Anonymous Browsing", "Access Websites", "WebRTC Leak Protection".
- Notification:** A blue notification box in the top right corner states: "PureVPN: VPN Proxy to Unblock Internet Privately has been added to IceCat. Manage your add-ons by clicking [plus icon] in the [hamburger menu] menu." Below the notification is a blue button labeled "Okay, Got It".
- Main Content:** A dark-themed banner with the text: "Welcome to PureVPN's Extension For Firefox" and "Premium PureVPN users can stream Netflix, & 100s of other channels at ultra-fast speed." Below the banner are three feature cards: "Unlimited Content" (with a smartphone icon), "Seamless Streaming" (with a play button icon), and "Avoid ISP Speed Throttling" (with a rocket icon).
- Footer:** A Windows taskbar at the bottom showing the search bar, taskbar icons, and system tray with the date "1/10/2020" and time "3:42 PM".
