

How to change protocol in PureVPN Windows app

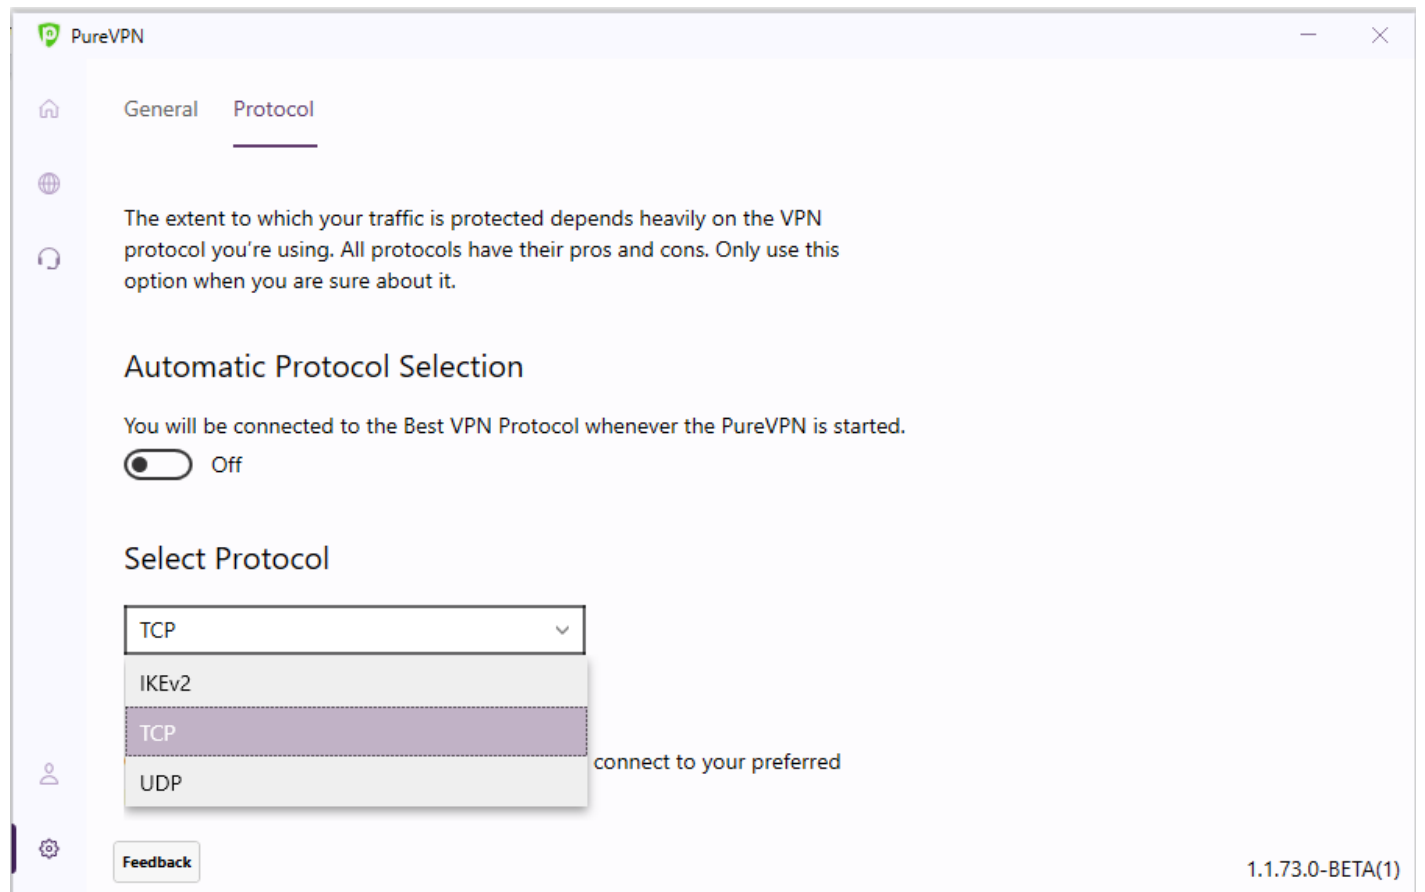

App Version 7.1.4 & Above App Version 7.1.2 & Below

Want to manually select a protocol for your needs? Just follow these simple steps to change the protocol on PureVPN's Windows client.

- In the bottom left panel, click on the 'Settings' icon.

- Select the 'Protocol' tab.

- Select the protocol of your choice from the drop down menu.

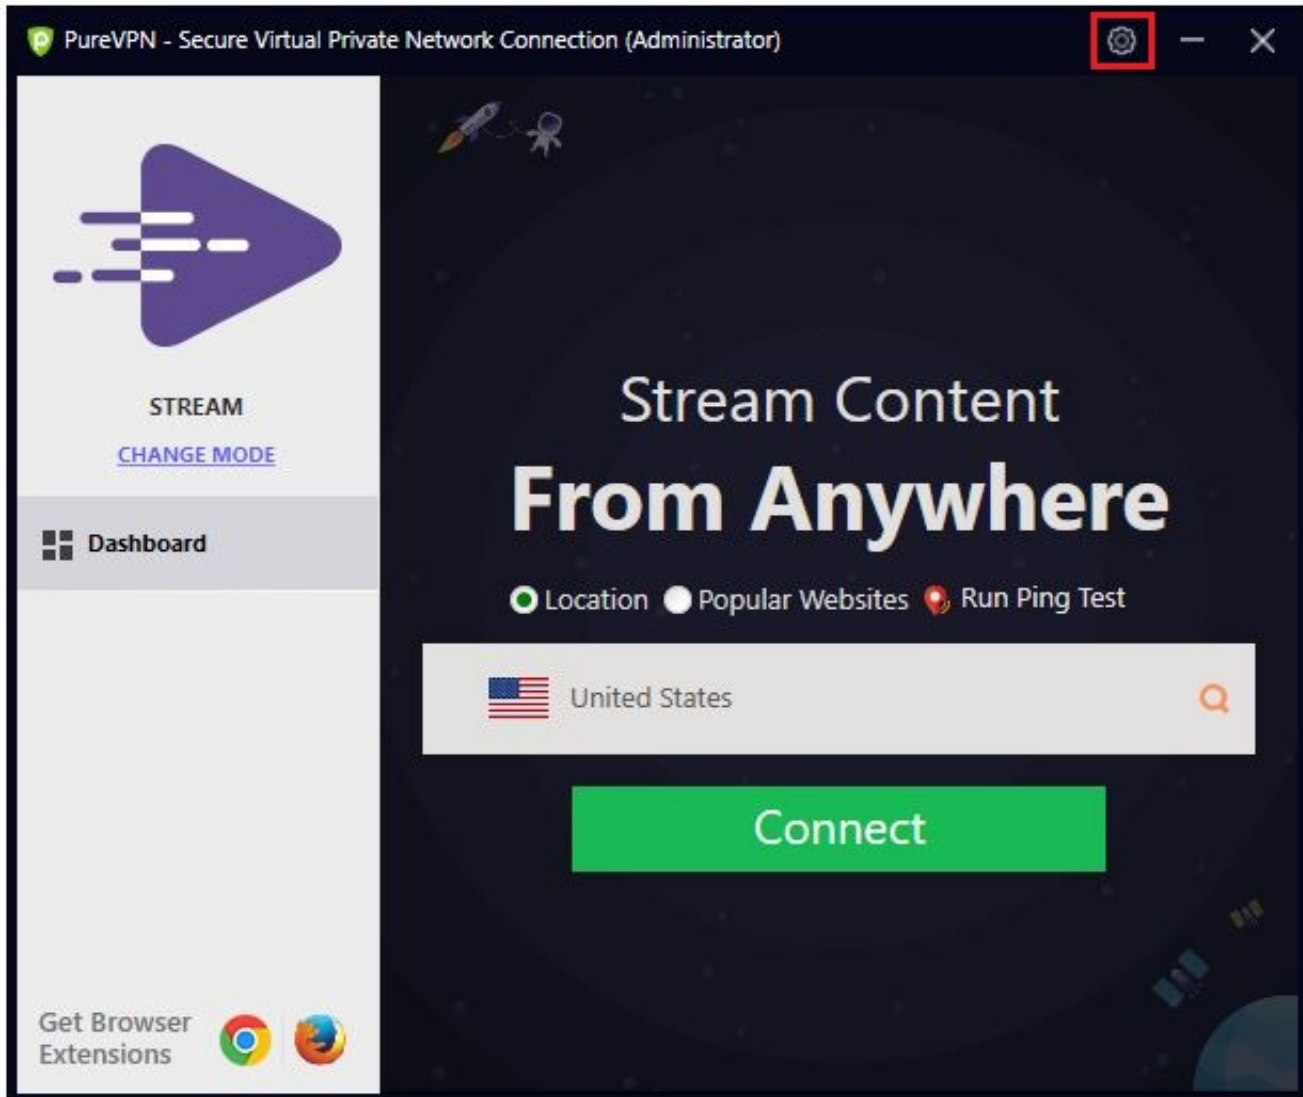

- Once you've made a selection, your protocol will be successfully changed.

- Now, click on the 'Home' button on the top left panel and connect to PureVPN.

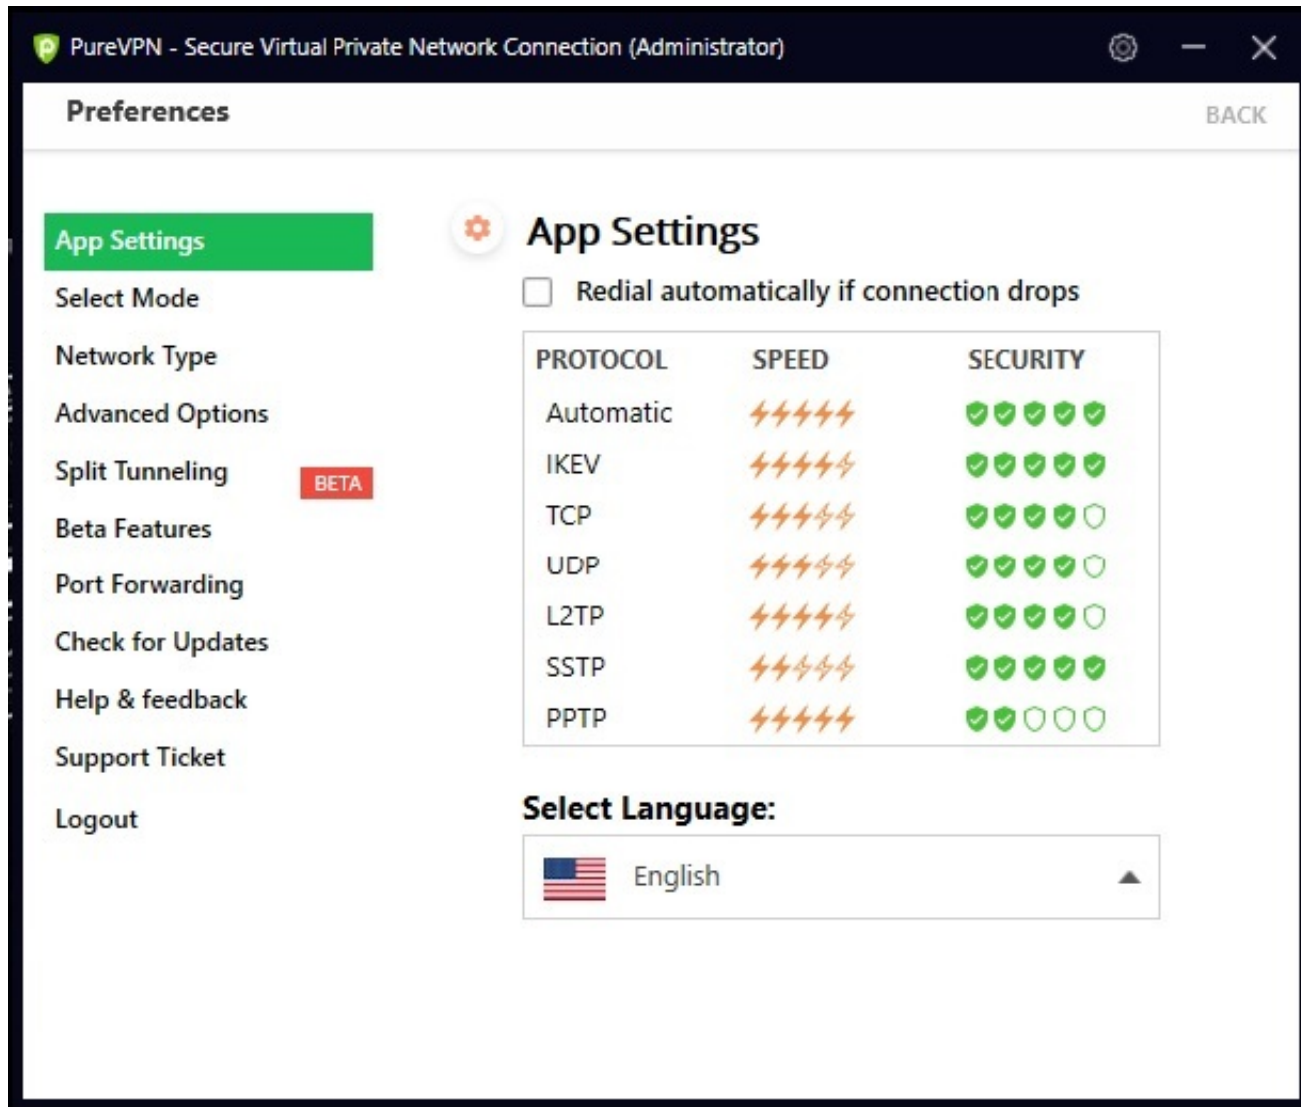

- You should now be successfully connected and you can check your selected protocol under 'Connection Details'.

Want to manually select a protocol for your needs? Just follow these simple steps to change protocol on PureVPN's Windows client.

- Click the Settings icon in the top right corner.

- Click App Settings and then select your desired protocol.

- You are good to go!
