

How to Disable Windows Firewall?

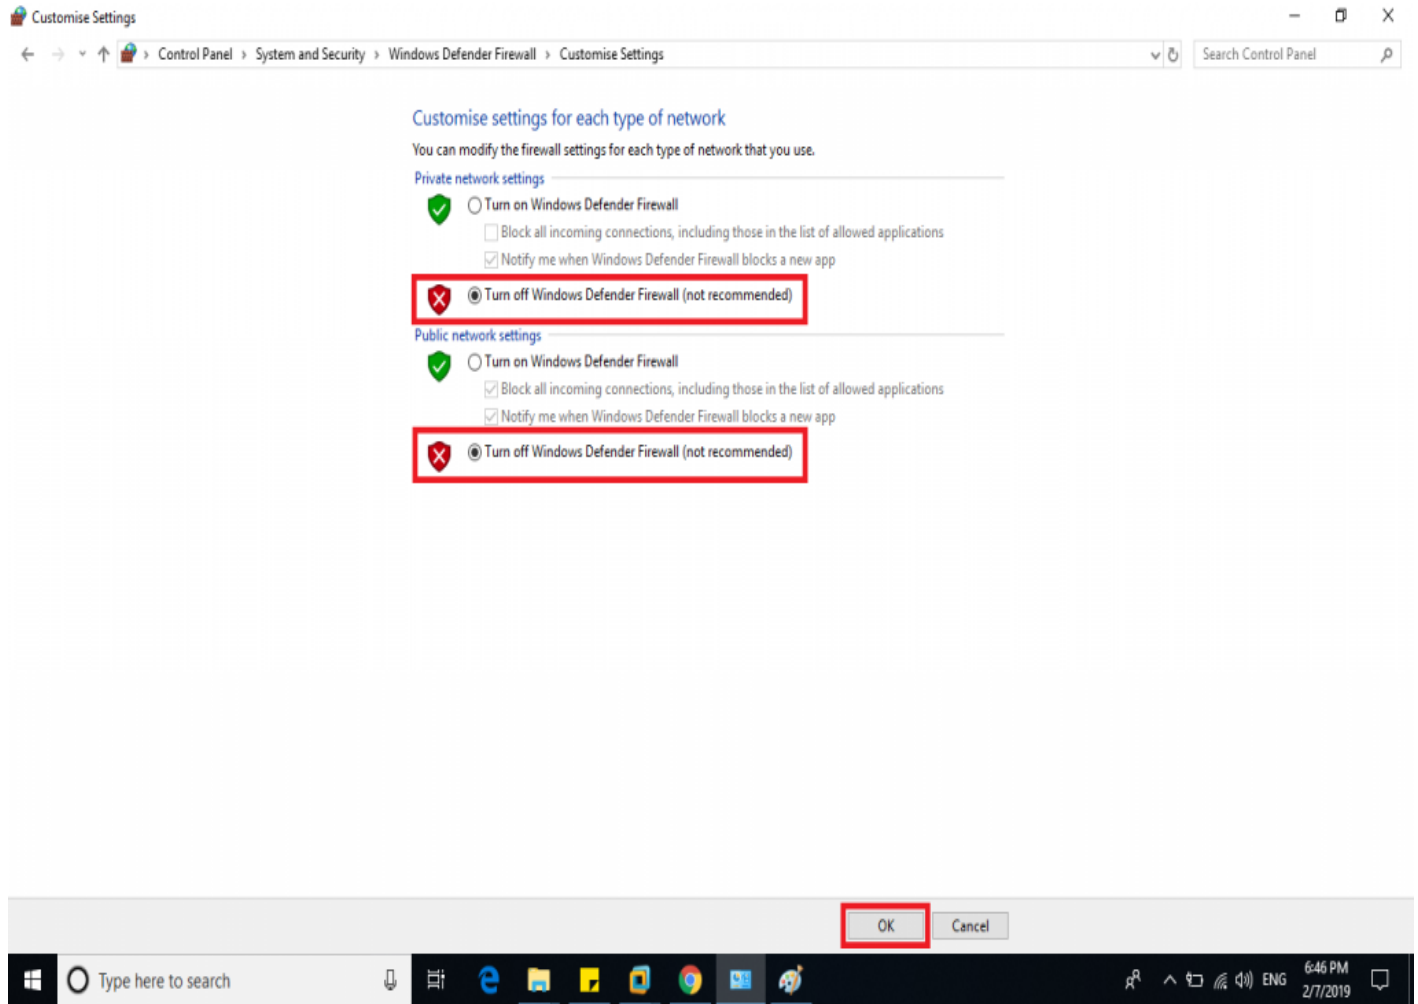

Disabling the Windows Firewall is usually quick and easy, taking less than 10 minutes in most cases. Want to know how? Follow the instructions below ?

- Click the **Start menu**, and type in Windows Firewall in the search box. Select **Windows Firewall's icon** when it appears.

- On the left hand side of the screen, locate and click **Turn Windows Firewall On or Off**.

- Click **Turn Off Windows Firewall** to disable the system app and click **OK** to continue.
