

How to Enable 256 bit Encryption in PureVPN Windows App

While PureVPN offers all levels of encryption, you would want to activate 256-bit encryption for the best online security. Just follow these simple steps to activate it on PureVPN's Windows client.

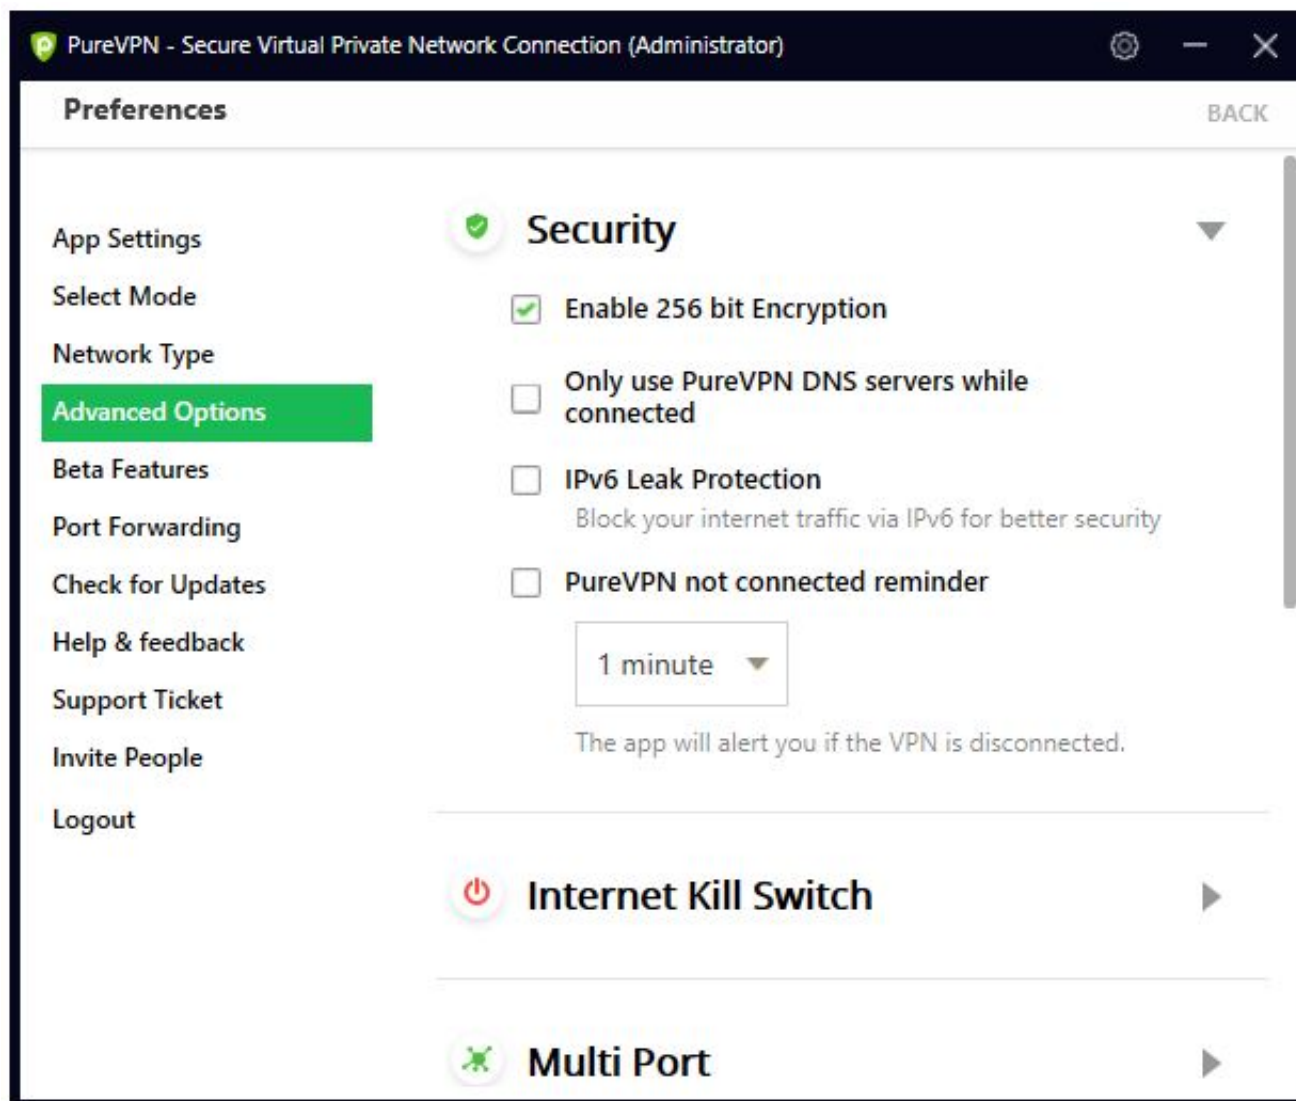

1 Click the Settings icon in the top right corner.

2 Click Advanced Options.

3 Check the Enable 256 bit Encryption box.

4 Your connection will now be safeguarded with military-grade encryption!
