

## How to Enable Internet Kill Switch in PureVPN Windows App

The Internet Kill Switch functionality ensures your original IP address is never revealed in the event of a VPN connection drop. Just follow these simple steps to activate Internet Kill Switch on PureVPN's Windows client.

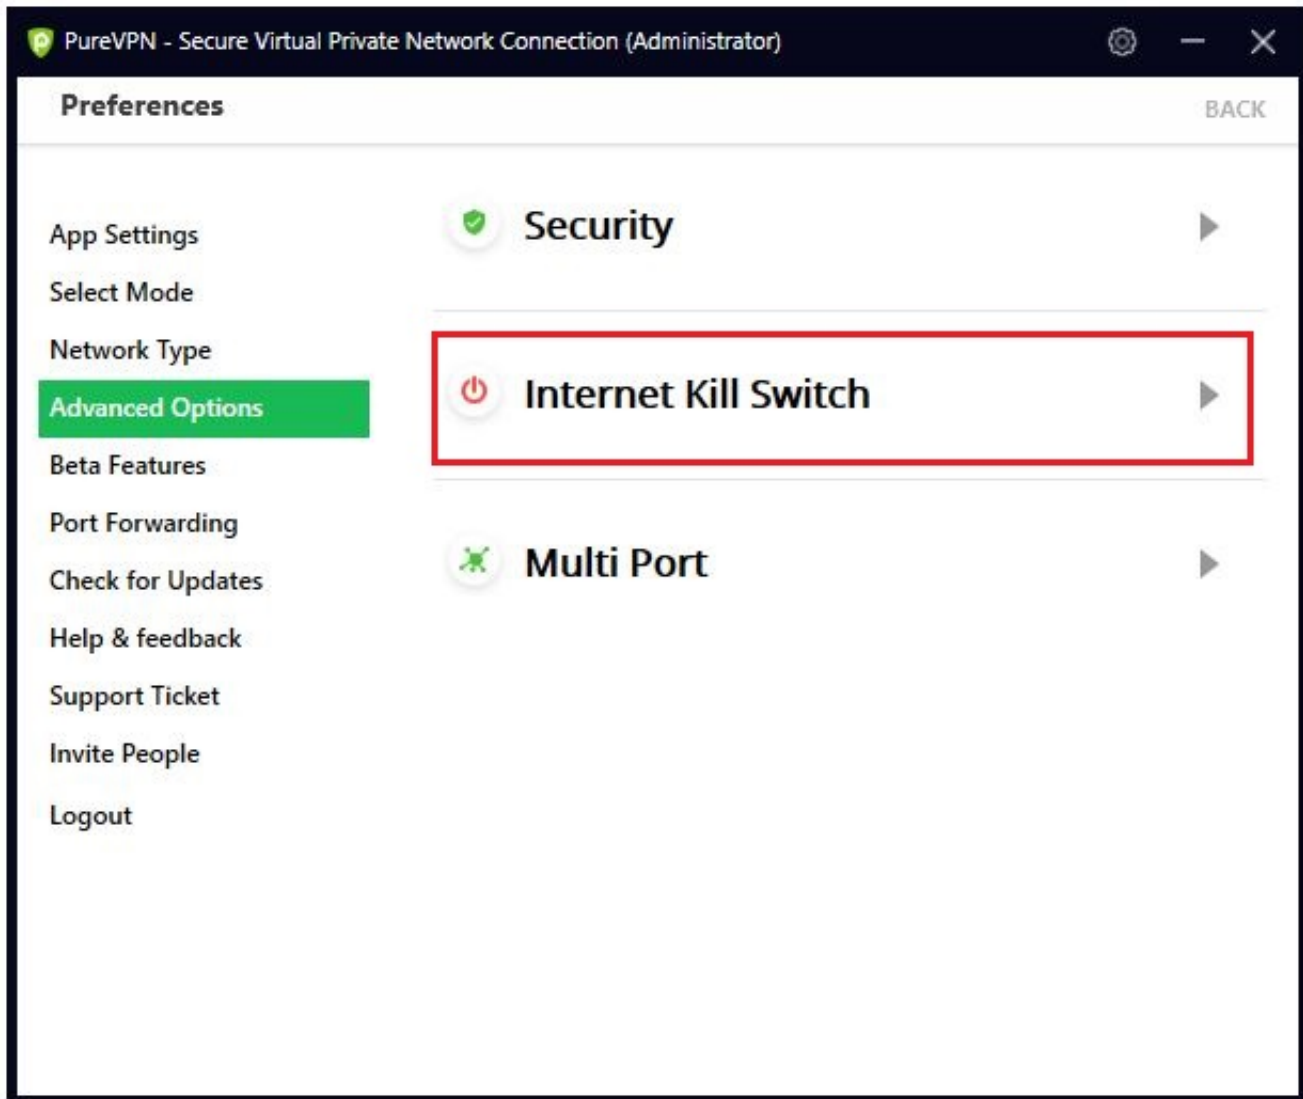

1 Click the **Settings** icon in the top right corner.

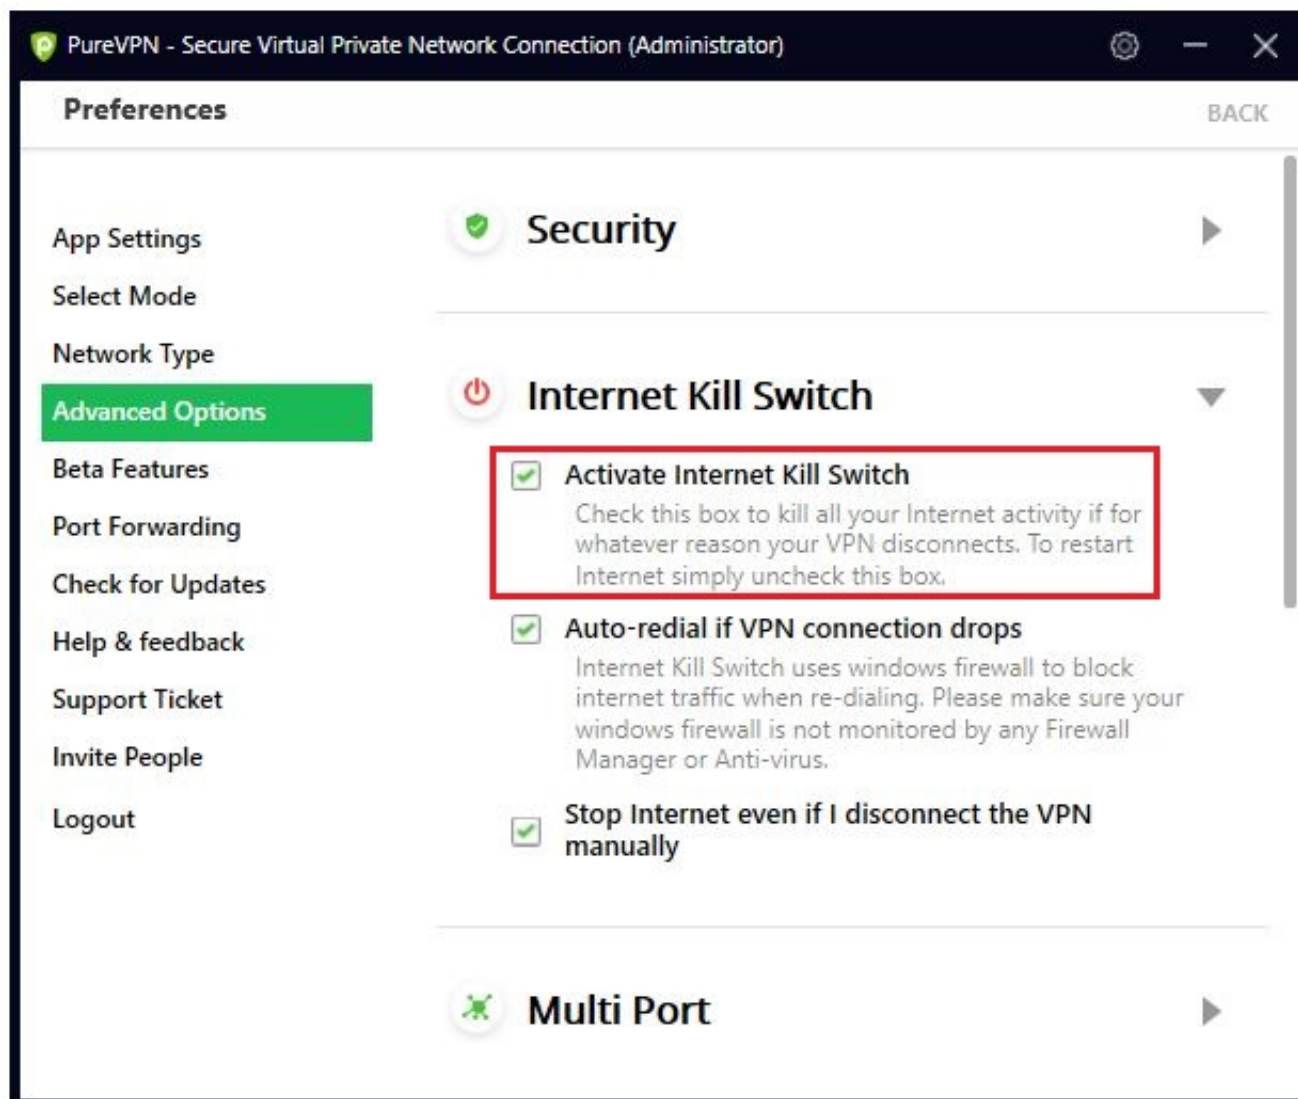

2 Click **Advanced Options**

3 Click **Internet Kill Switch**

4 Check the **Activate Internet Kill Switch** box.

4 All your traffic will automatically be terminated in case the VPN connection drops due to any unforeseen reason!
