

## How to Enable Multi Port in PureVPN Windows App

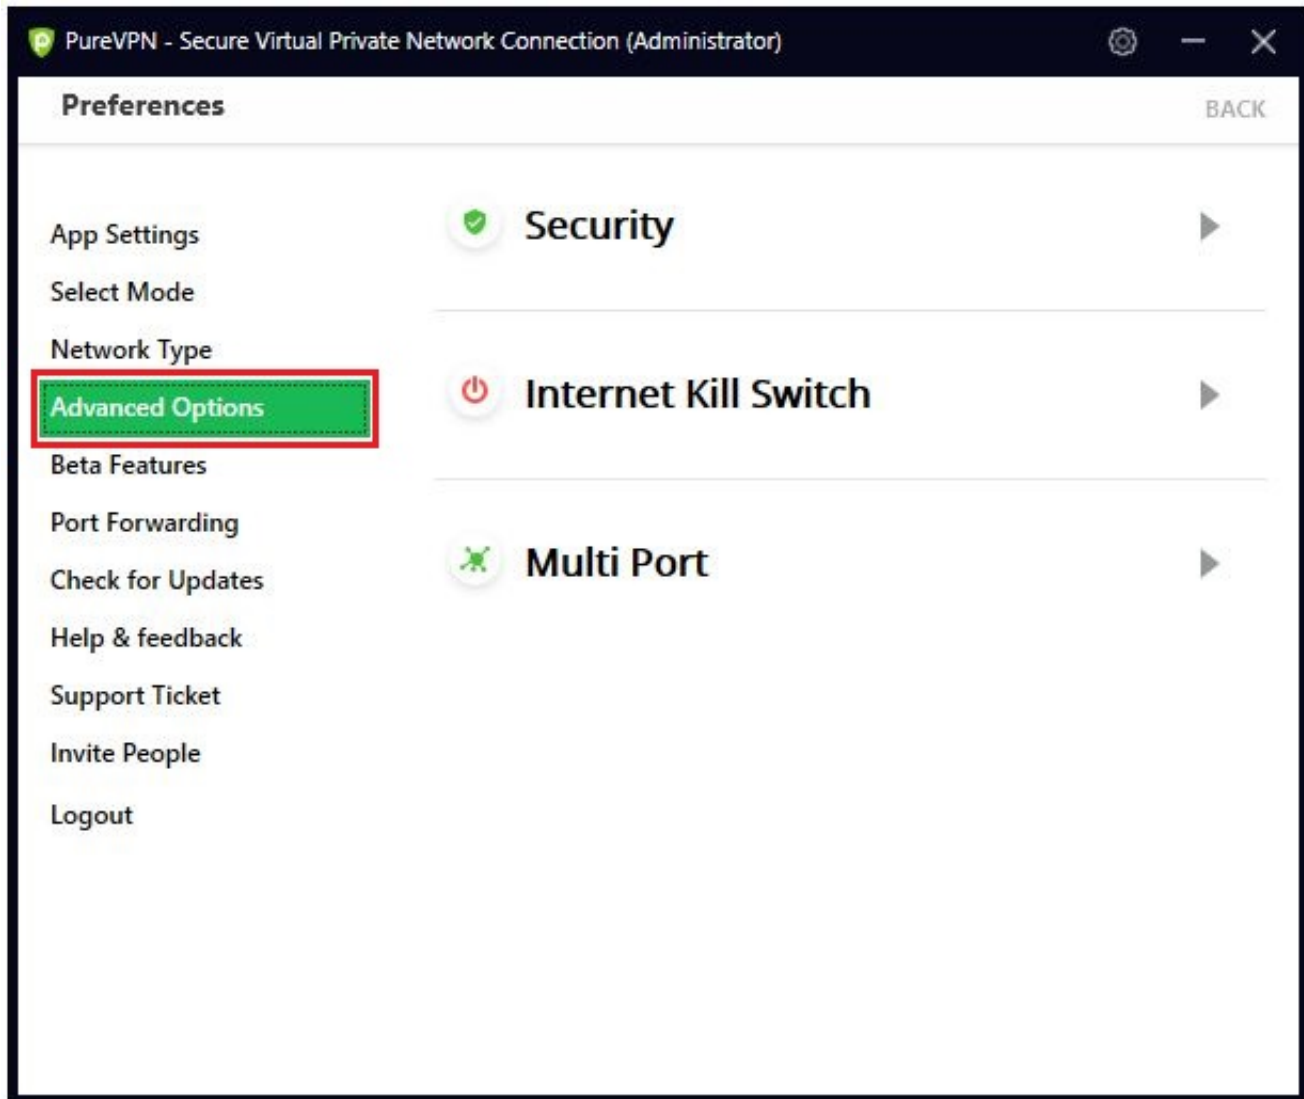

If you want to establish a connection with another open port, you will need to enable **Multi Port**. Just follow these simple steps to use it on PureVPN's Windows client.

**Note:** The Multi Port feature works with OpenVPN TCP and OpenVPN UDP protocols only.

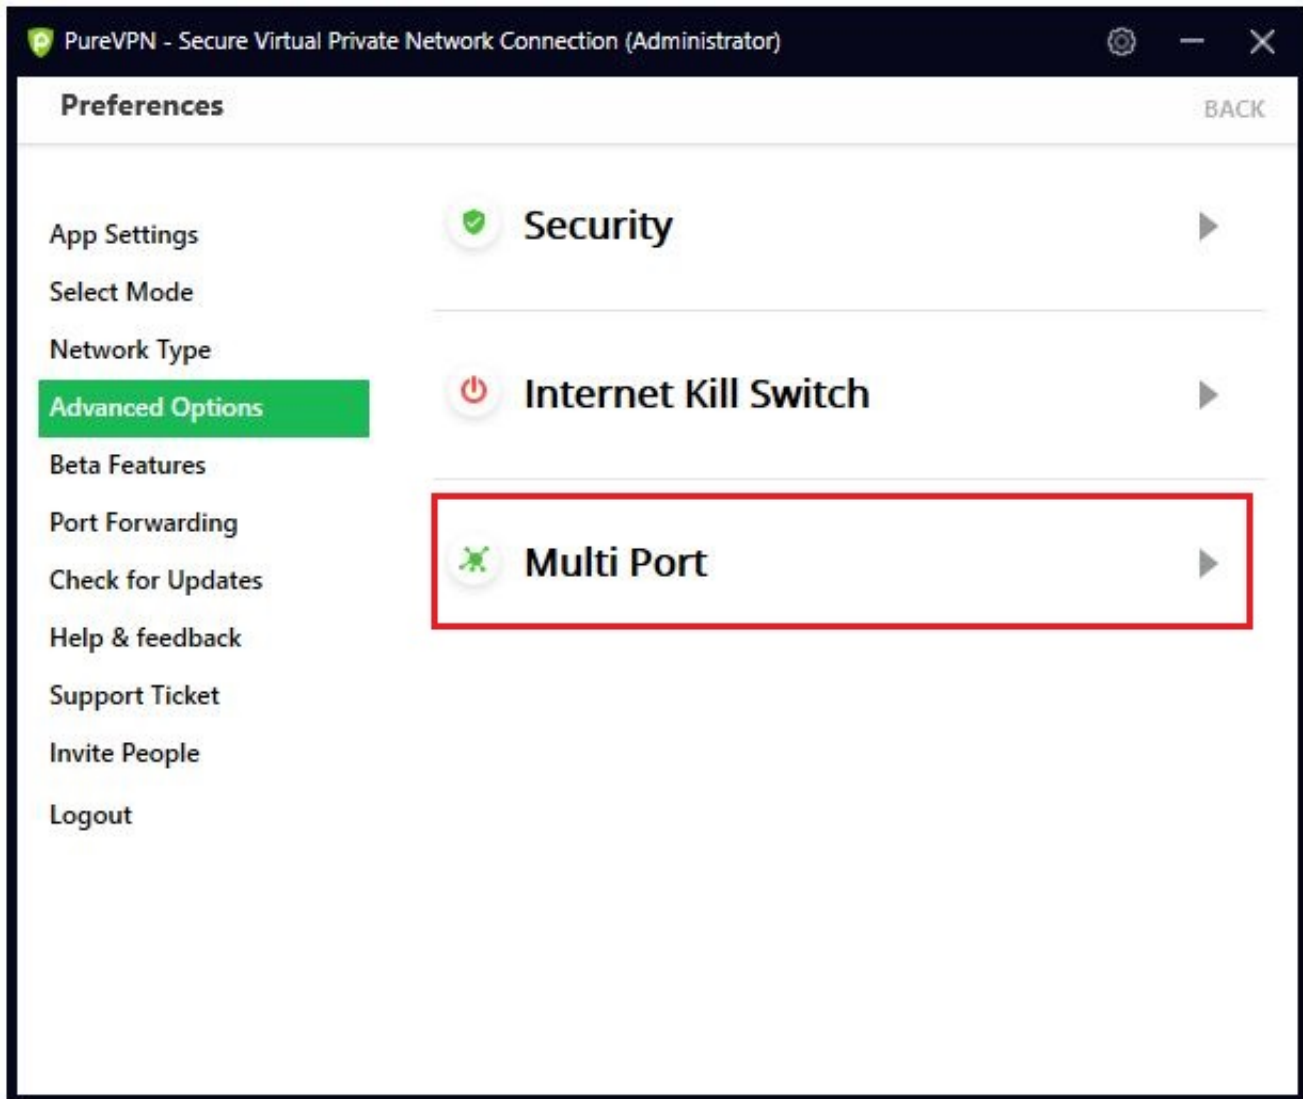

1 Click the Settings icon in the top right corner.

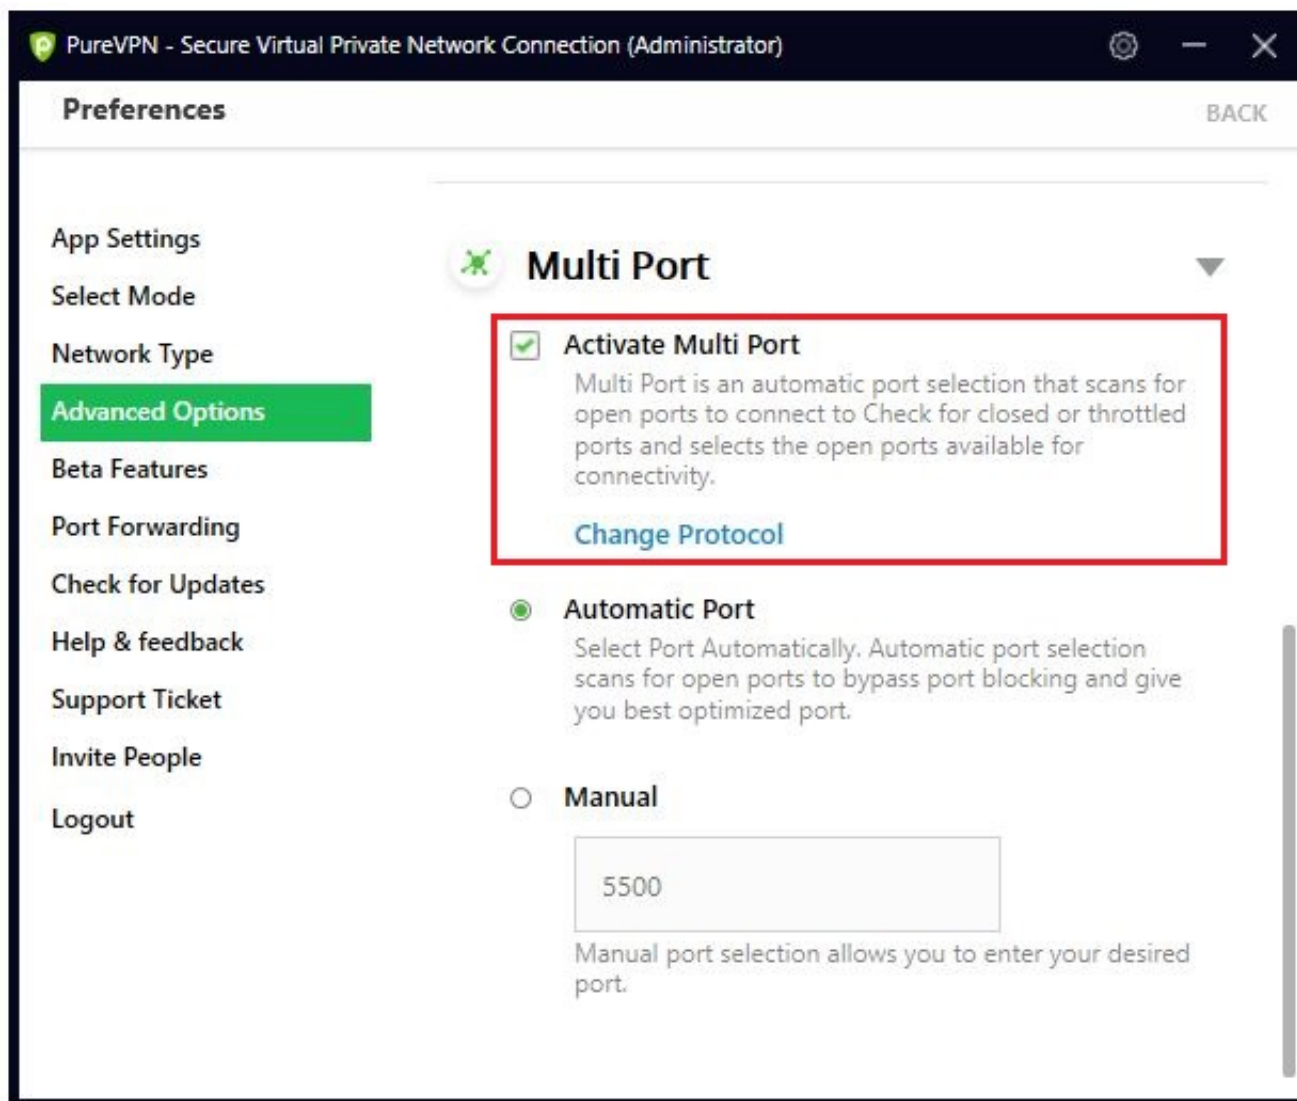

2 Click Advanced Options.

3 Click the Multi Port option.

4 Check the Activate Multi Port box.

5 You are good to go!
