

## How to Install PureVPN Chrome Extension on UC Browser

To install PureVPN's Chrome extension on your UC Browser, just follow these simple steps:

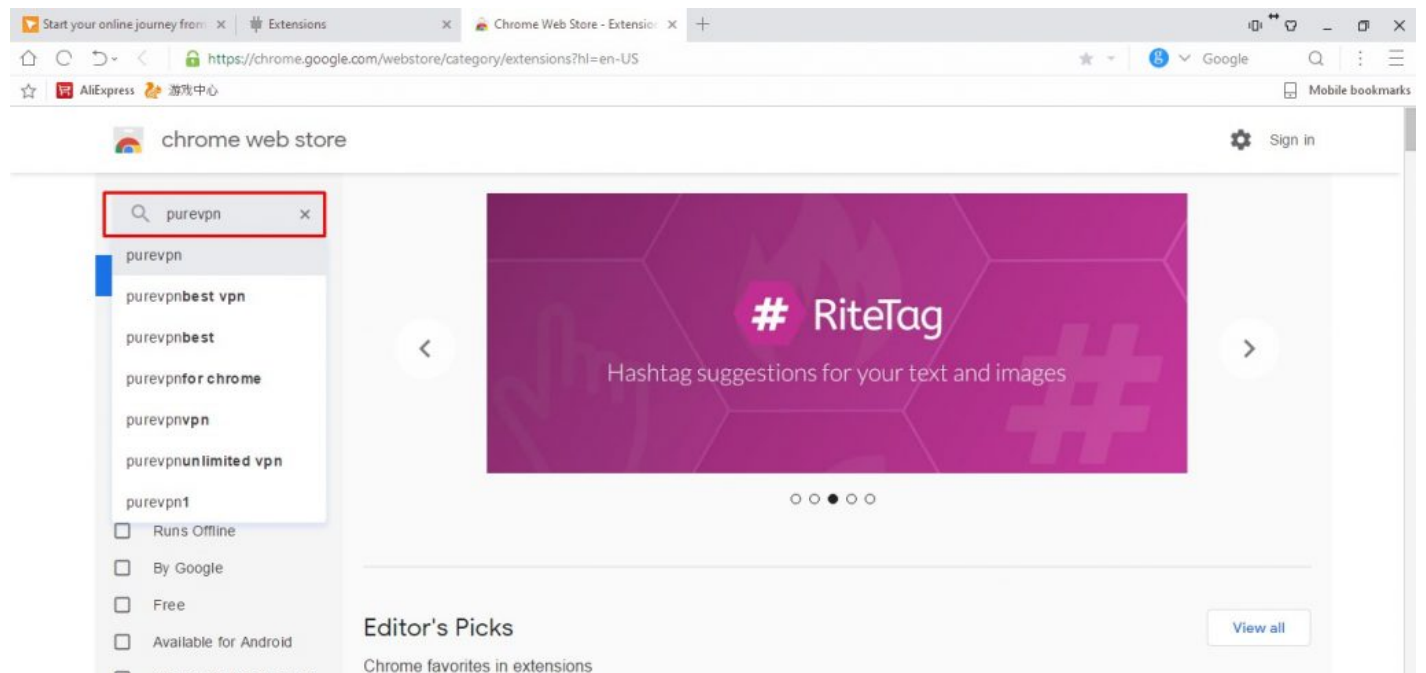

1 Open your UC Browser, go to **Settings**, and select **Extensions** from the drop-down menu.

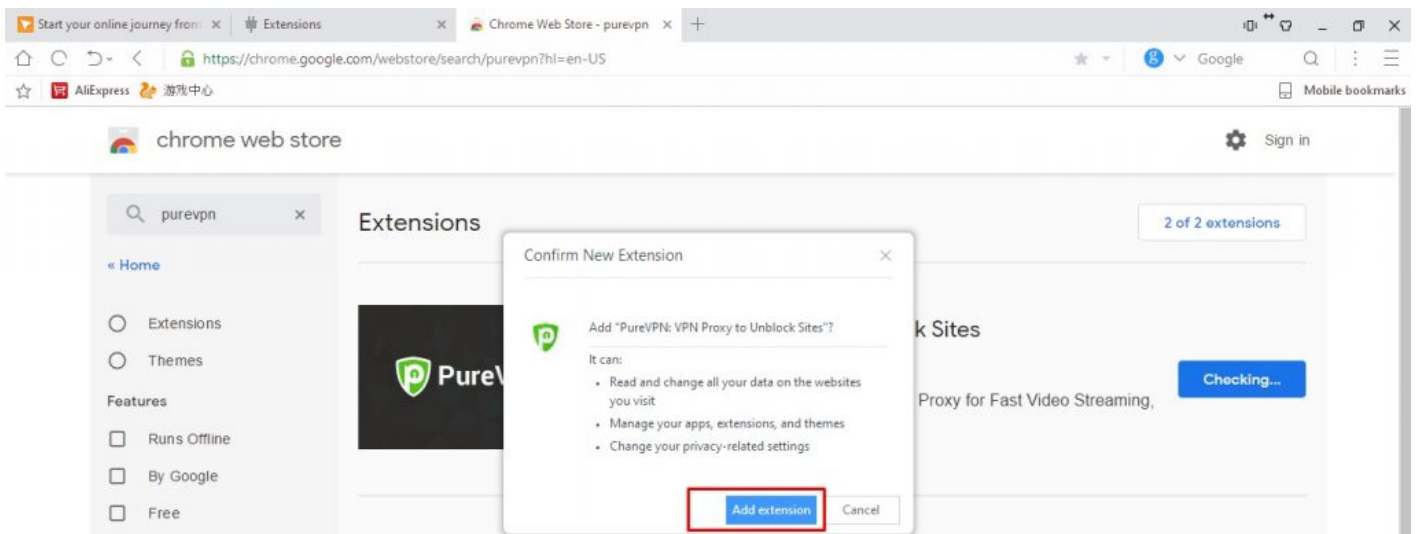

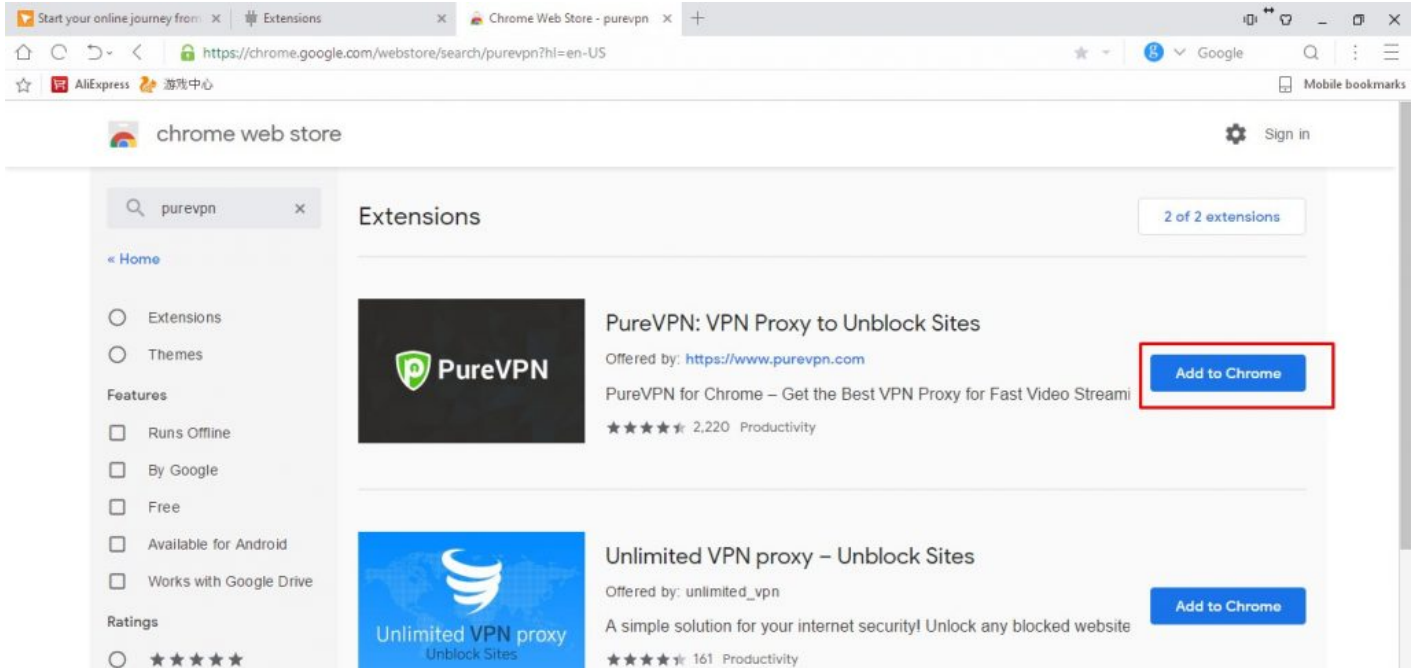

2 Then, select the **Get more extensions** option.

3 You will be redirected to the Chrome web store. Once there, type **PureVPN** in the search bar.

4 Click the **Add to Chrome** button to install the extension.

5 You're all set! You can now use PureVPN's Chrome extension on your UC Browser.
