

How to install PureVPN Chrome Extension on Yandex browser

To install PureVPN's Chrome extension on your Yandex browser, just follow these simple steps:

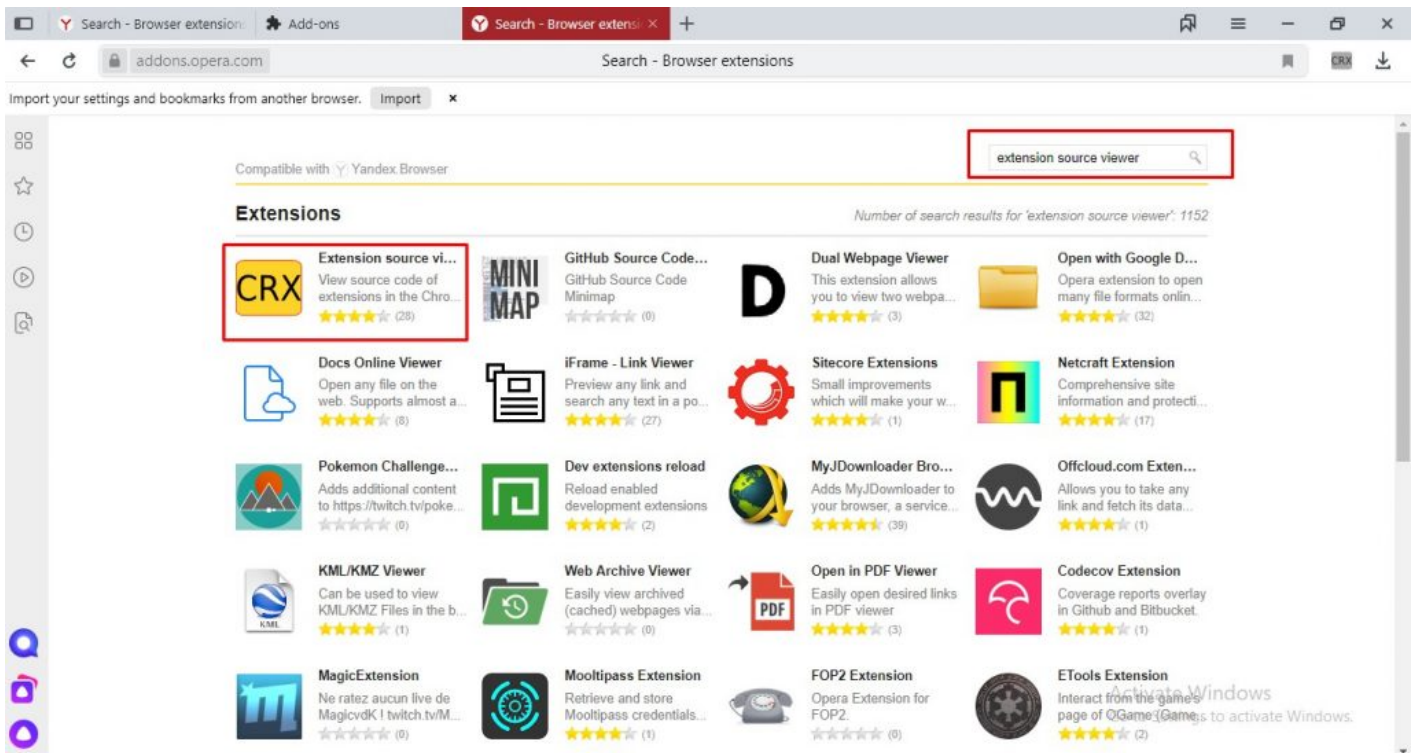

- 1 Open the Yandex browser, go to **Settings**, and select **Add-ons** from the drop-down menu.

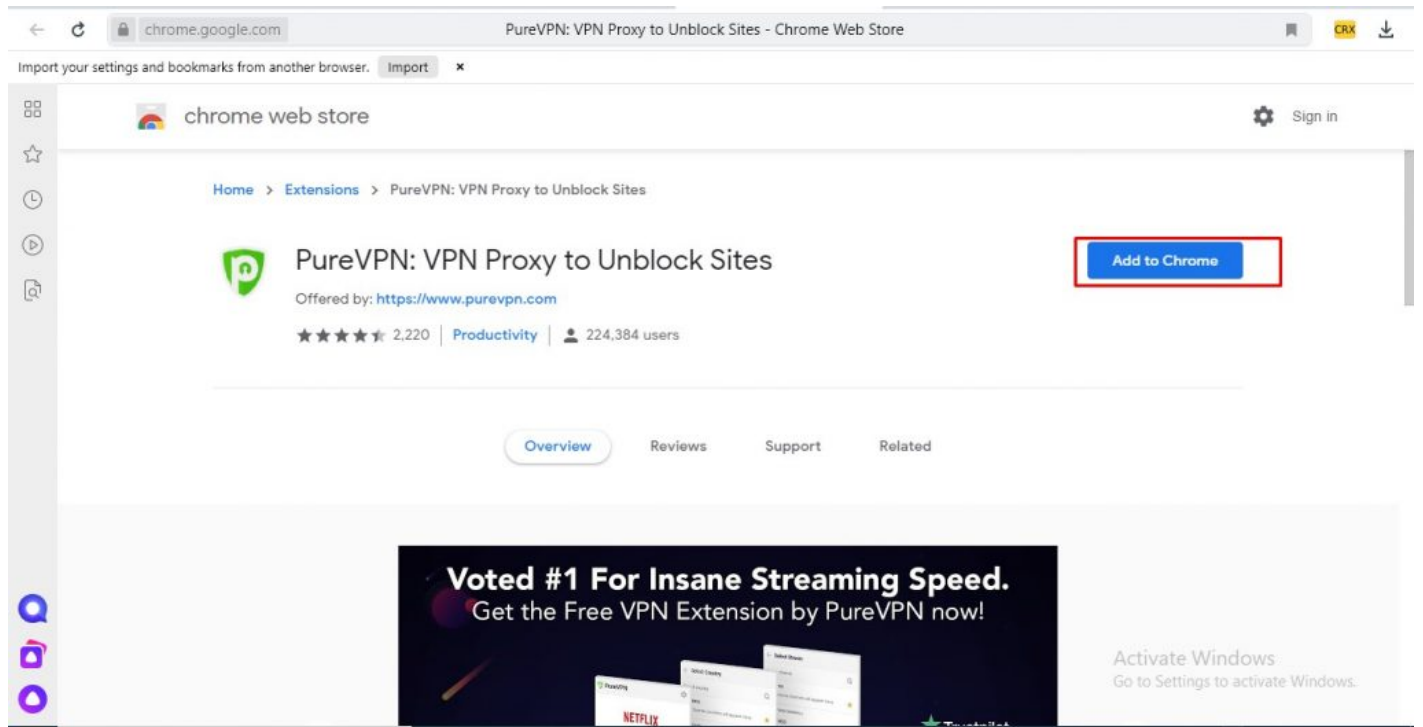

- 2 Scroll down to the bottom of the page and click the **Yandex Browser extension catalog** option.

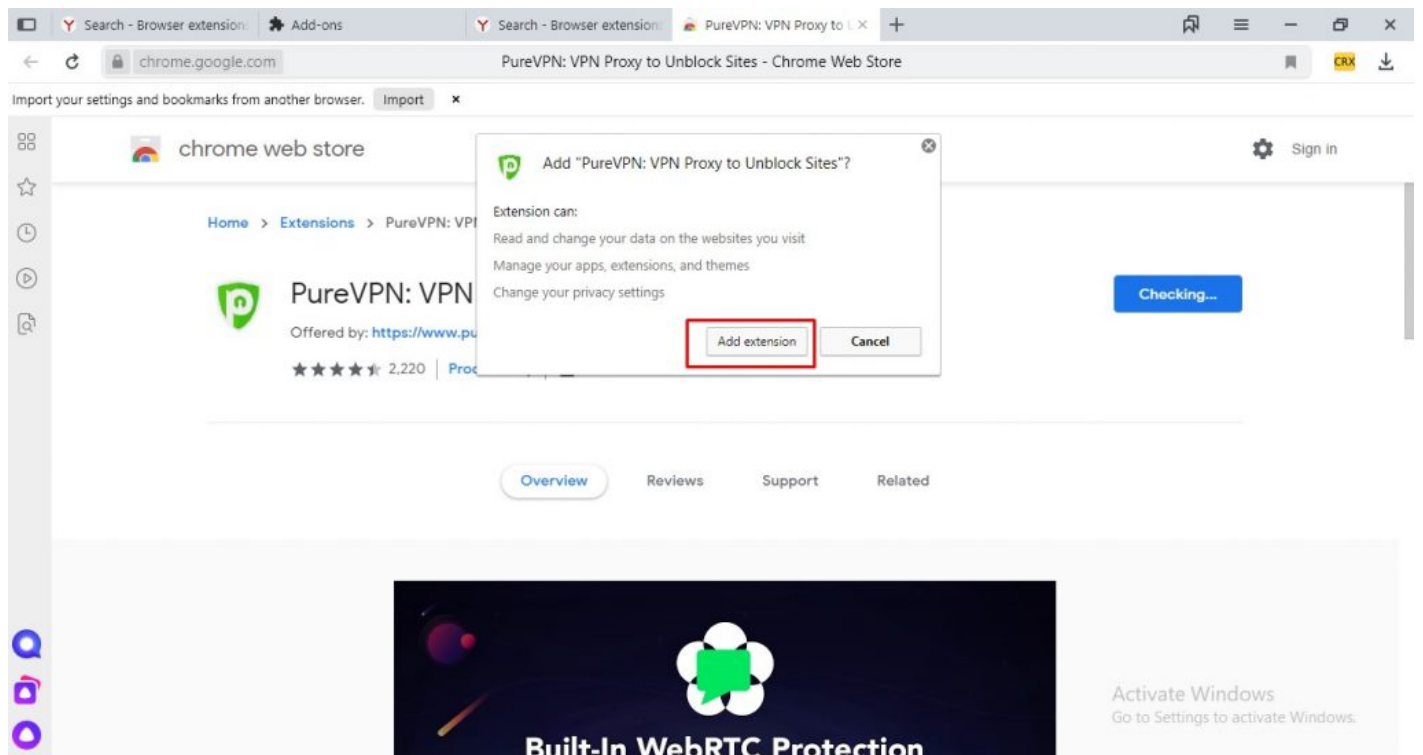

3 Search for the **Extension source viewer add-on** and install it.

4 Now, copy and paste this [link](#) in a new tab to install the PureVPN extension for Chrome.

5 A pop-up will appear. Click **Add to Chrome**.

6 You're all set! You can now use PureVPN's Chrome extension on your Yandex browser.
