

## How to install PureVPN Firefox Extension on Waterfox Browser

Do you want to use a VPN on Waterfox? You'll be glad to know that PureVPN's Firefox extension is compatible with the open-source web browser. Just follow these simple steps to install it:

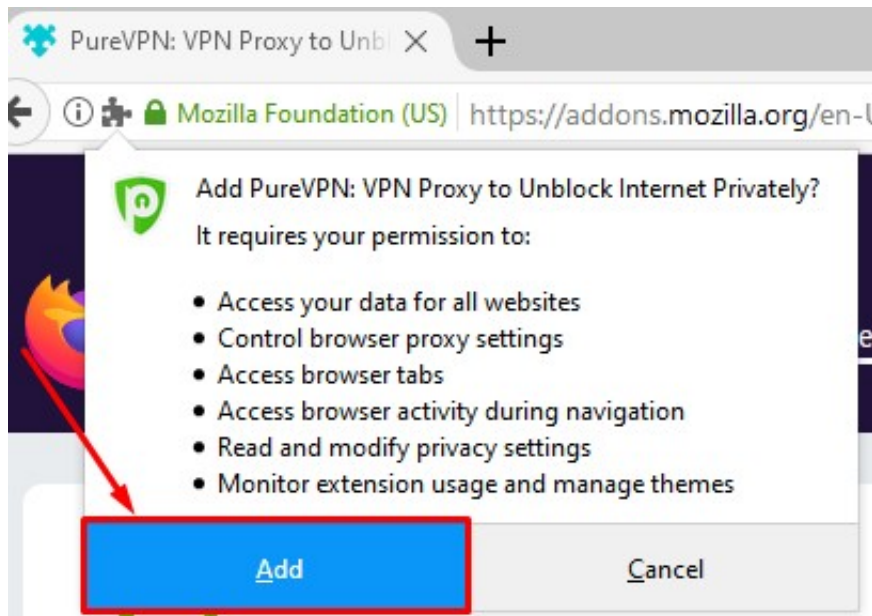

1 Open your Waterfox browser.

2 Open this [link](#) and then hit the **+ Add to Firefox** button to install the extension.

3 A pop-up box will appear. Click **Add**.

4 You're all set! You can now use PureVPN's Firefox extension on your Waterfox browser.
