

## How to Change Location in PureVPN Windows App

Just follow these simple steps to change your location on PureVPN's Windows client.

1 Click Location on the dashboard.

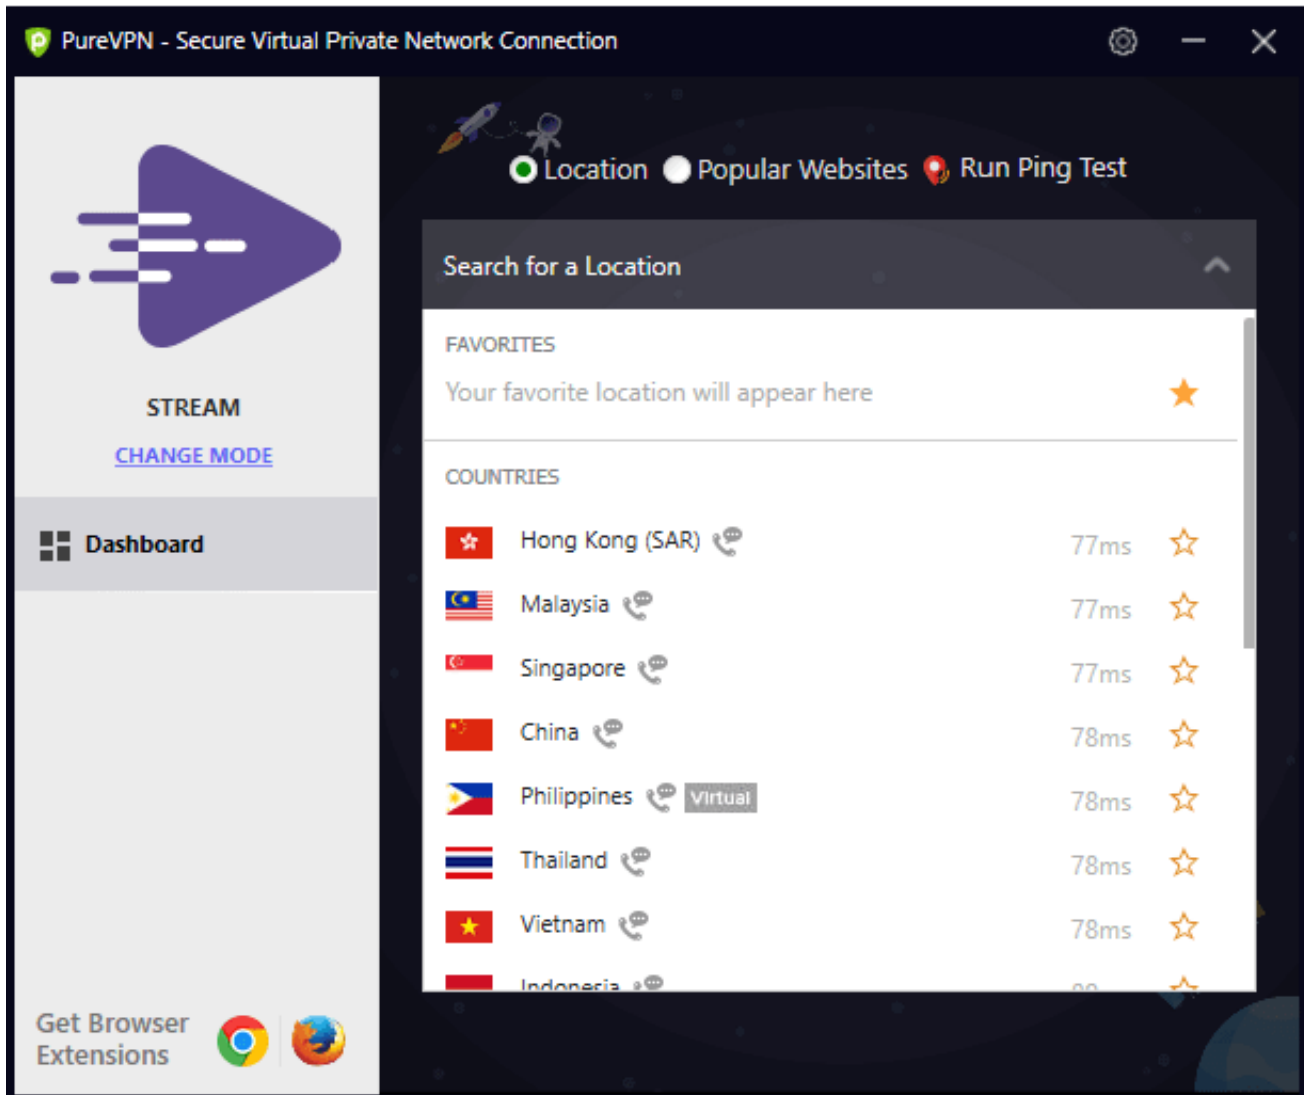

2 Click **Search for a Location**.

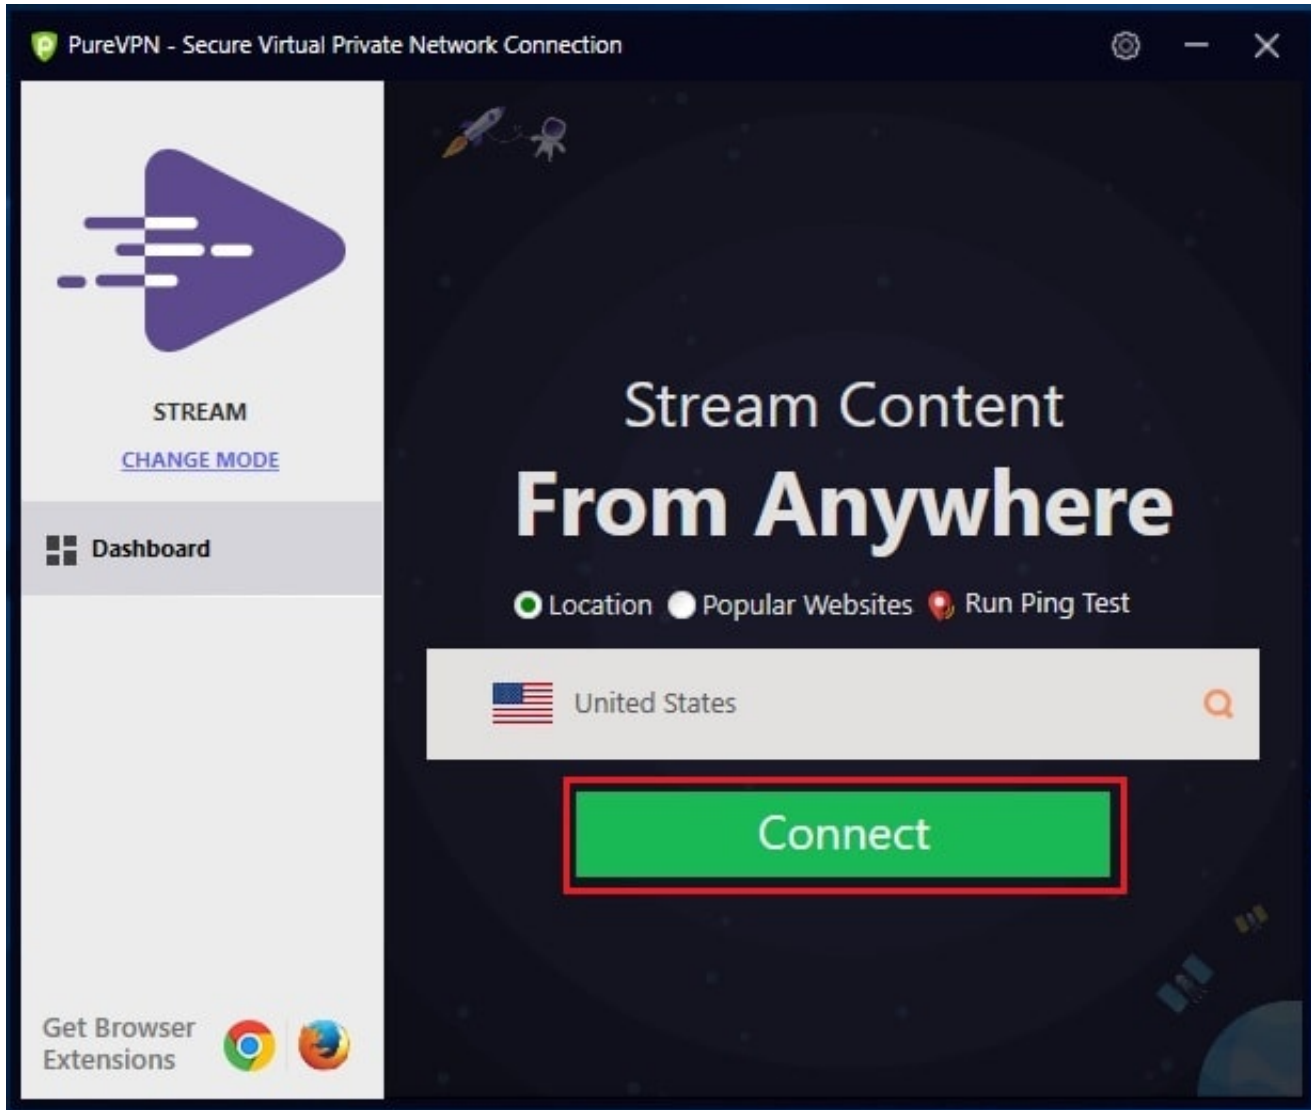

3 A drop-down list will appear. Choose your desired location.

**Note:** Click the star icon to mark the location as your favorite for future use.

4 Click the **Connect** button.

5 You are now connected!

The screenshot shows the PureVPN desktop application interface. At the top, the title bar reads "PureVPN - Secure Virtual Private Network Connection". The main content area is divided into several sections:

- Left Sidebar:** Features a large purple play button icon with the text "STREAM" and a link "CHANGE MODE". Below this is a "Dashboard" button with a grid icon.
- Top Right Banner:** A dark blue banner with the text "JOIN US ON FACEBOOK" and "We Have a 100% Response Rate!". It includes a "Like Us" button with a thumbs-up icon and a "SHOW GRAPH" link.
- Central Panel:** A white panel with the heading "YOUR REAL IP IS NOW HIDDEN". It contains a list of settings:

Restricted Websites	Unblocked
Fast Streaming	Enabled
ISP Speed Throttling	Disabled
Private Browsing	Enabled
Location	★ United States
- Bottom Section:** A large orange "Disconnect" button is centered. Below it, on the left, is a green clock icon and the text "Duration: 00:00:03". On the right is a link "Fetch my VPN IP".
- Bottom Left:** A section titled "Get Browser Extensions" with icons for Google Chrome and Mozilla Firefox.
