

## How to Setup PureVPN Manually on Windows 7 OpenVPN ?

### Things to Consider:

Before you begin, please make sure that:

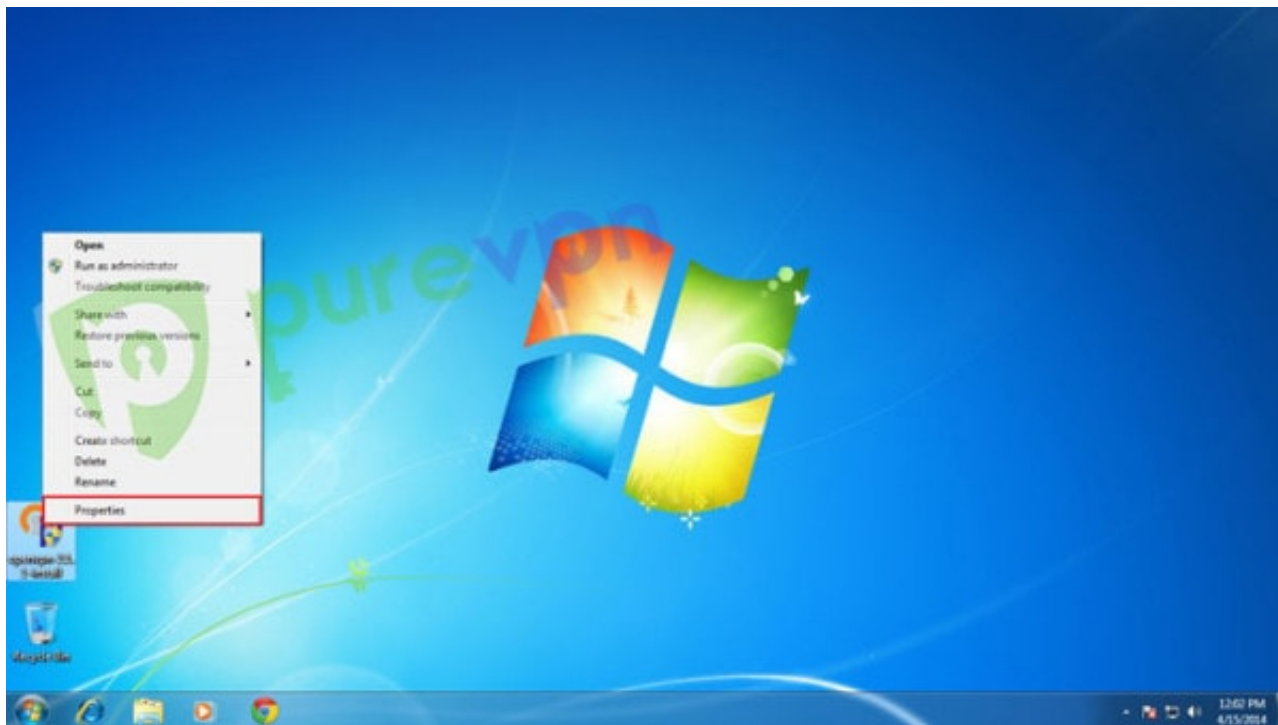

- You have a working internet connection
- Windows Supported Device.
- A Premium PureVPN account (If you haven't bought yet [click here](#) to buy)

If you want to **manually setup PureVPN on Windows 7 OpenVPN**, follow these steps:

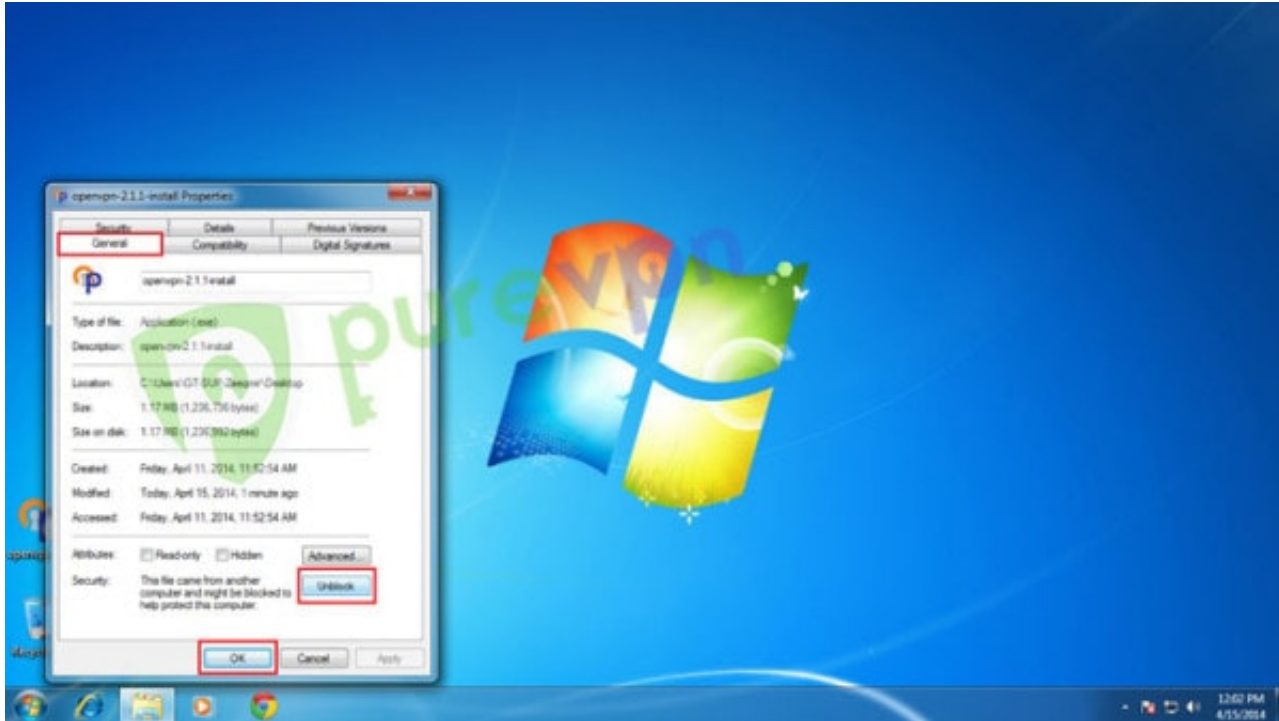

### Installing PureOVPN:

1 [Click here to download](#) PureVPN OpenVPN installer.

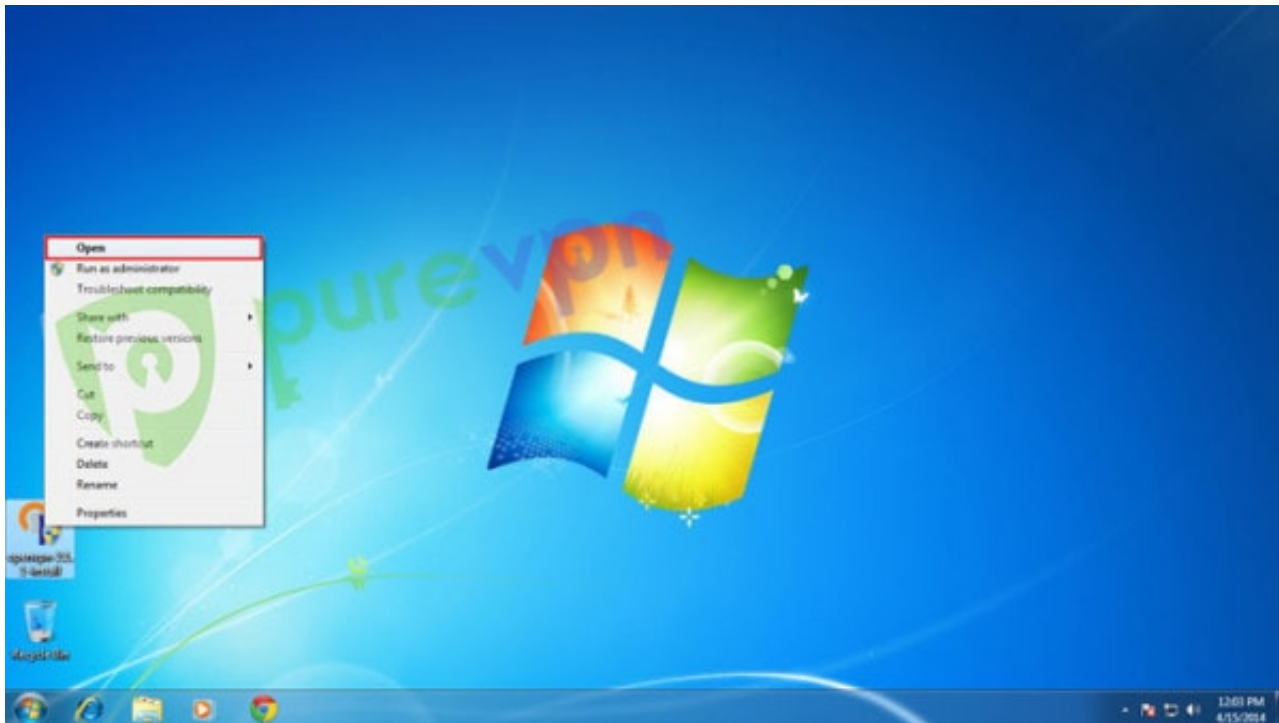

2 Right click on **OpenVPN installer** and select **properties**.

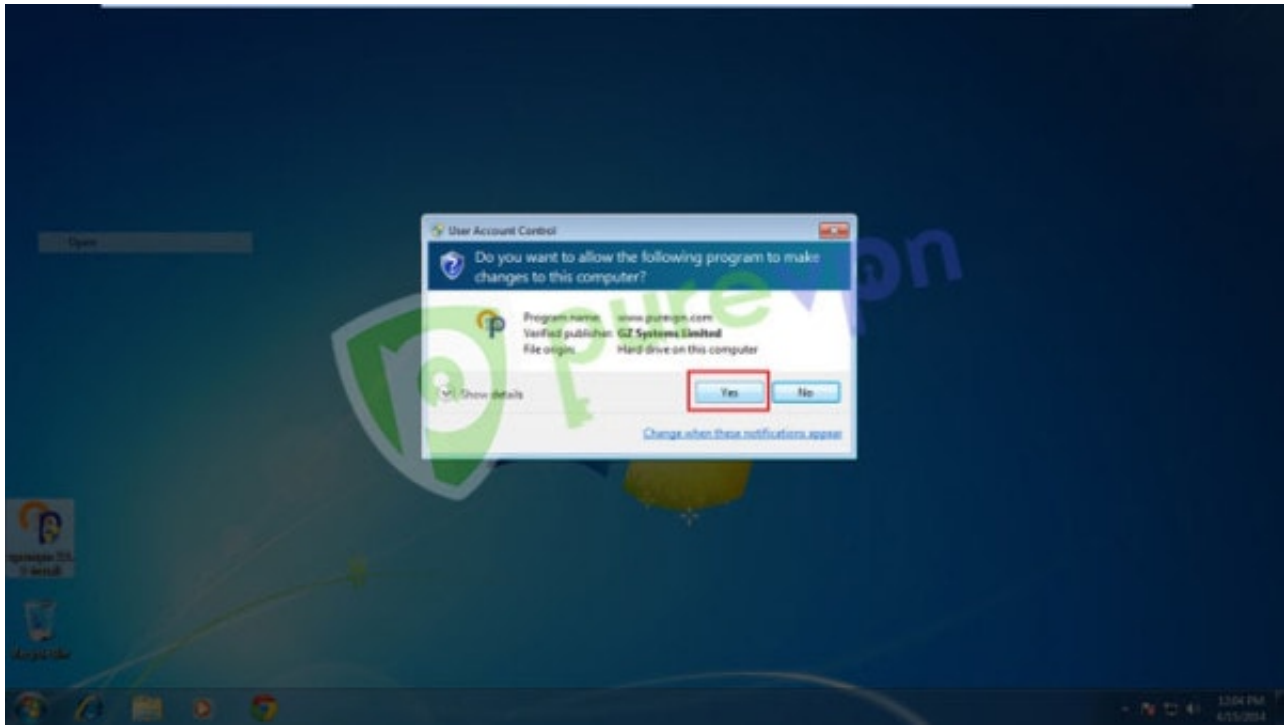

3 From General Tab, click on “**Unblock**”, “**Apply**” and “**OK**”

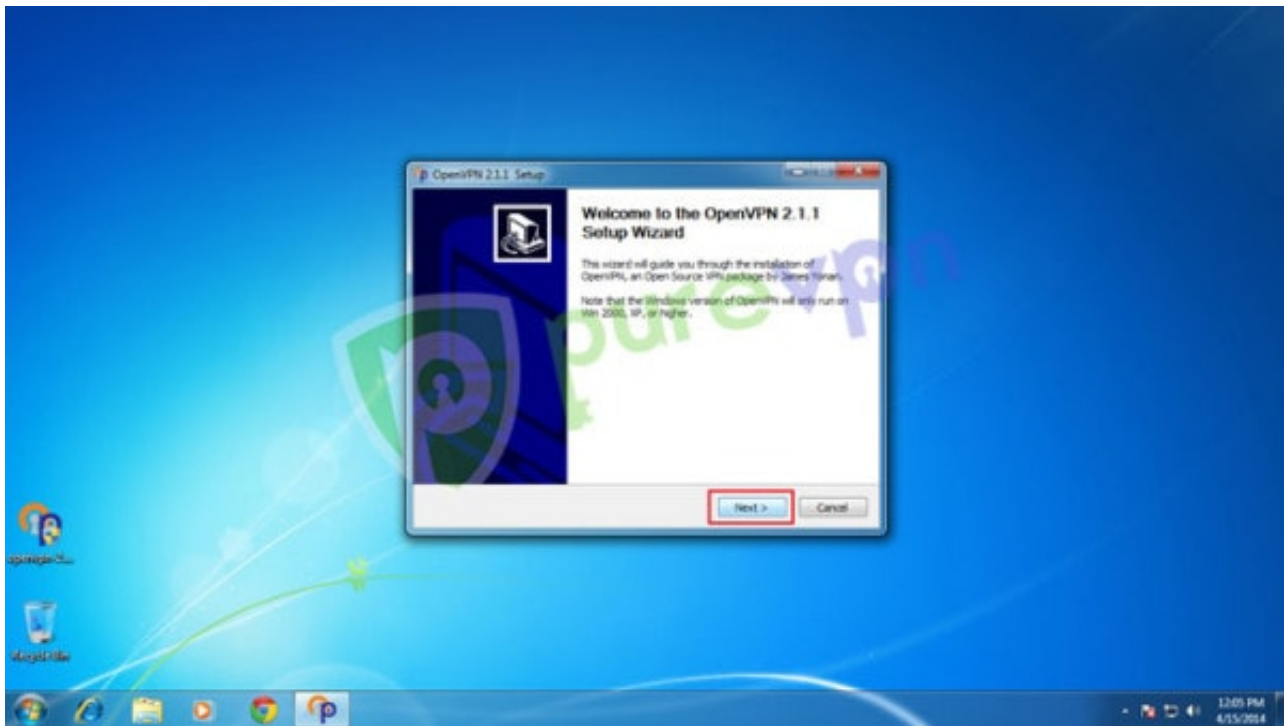

4 Right click on **OpenVPN installer** and select **“Open”** or **Double click to execute**

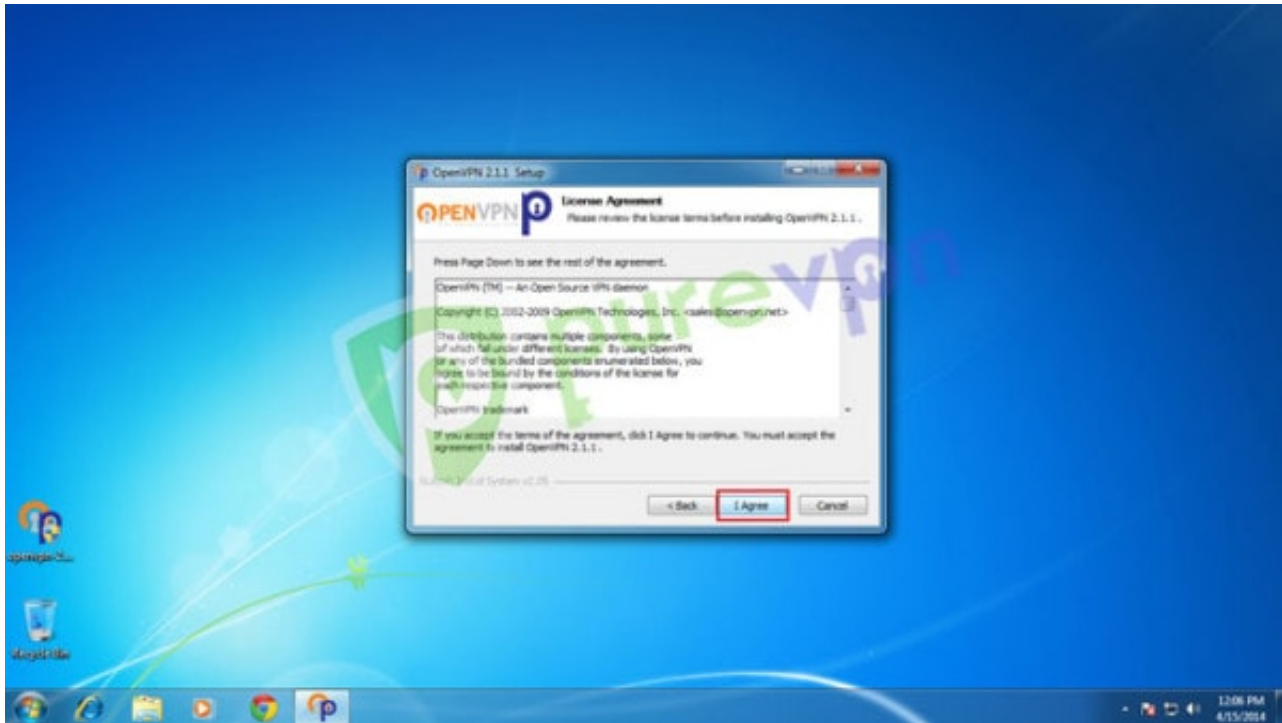

**5 Click “Yes” to allow installation**

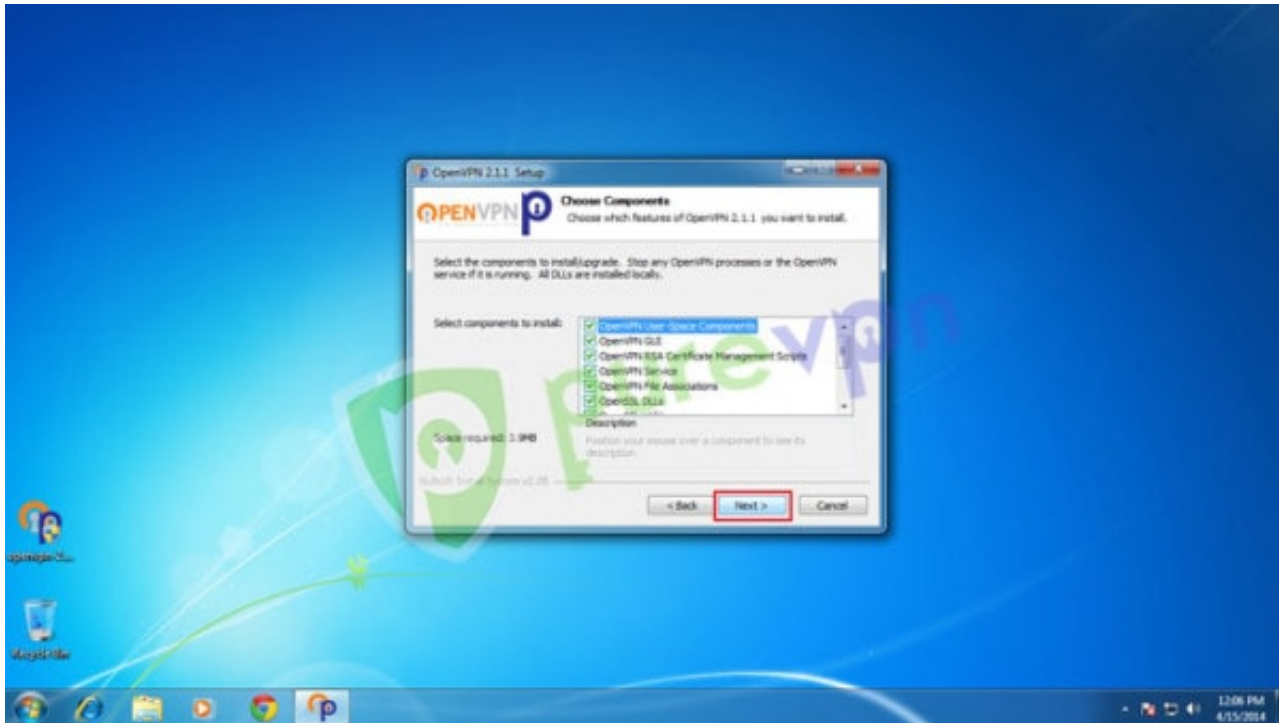

**6 Click “Next”**

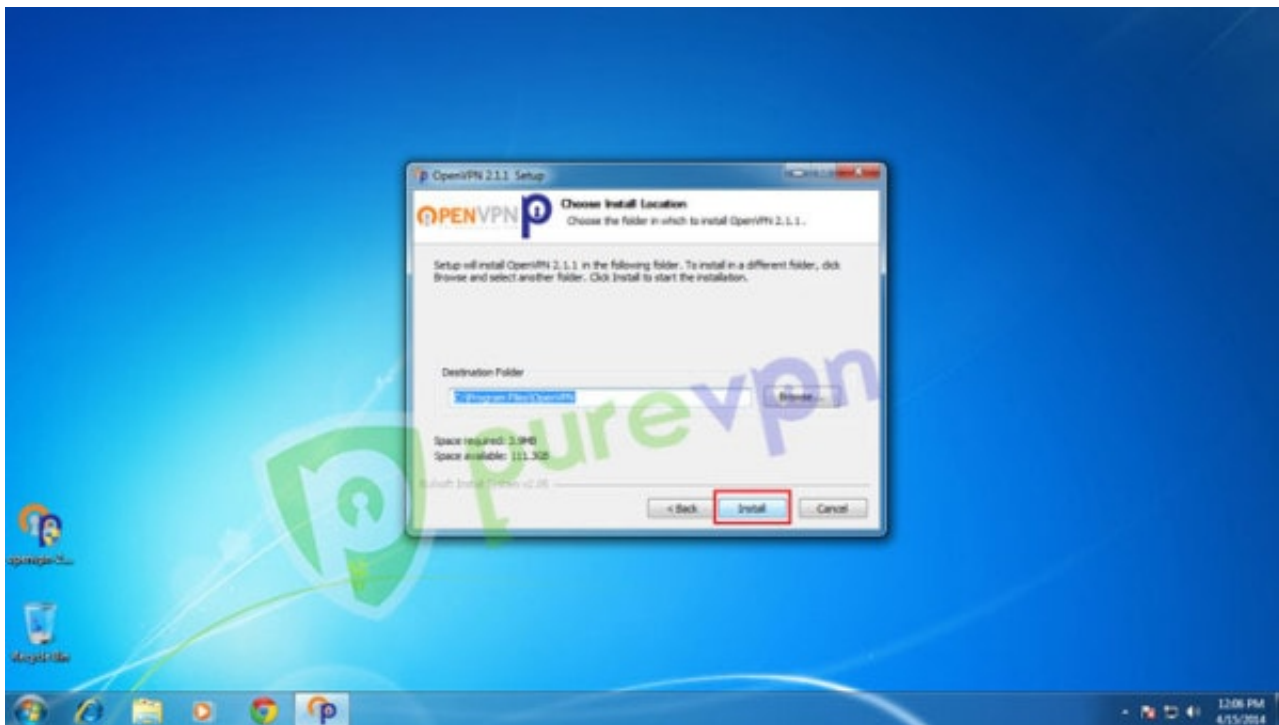

## 7 Click “I agree”

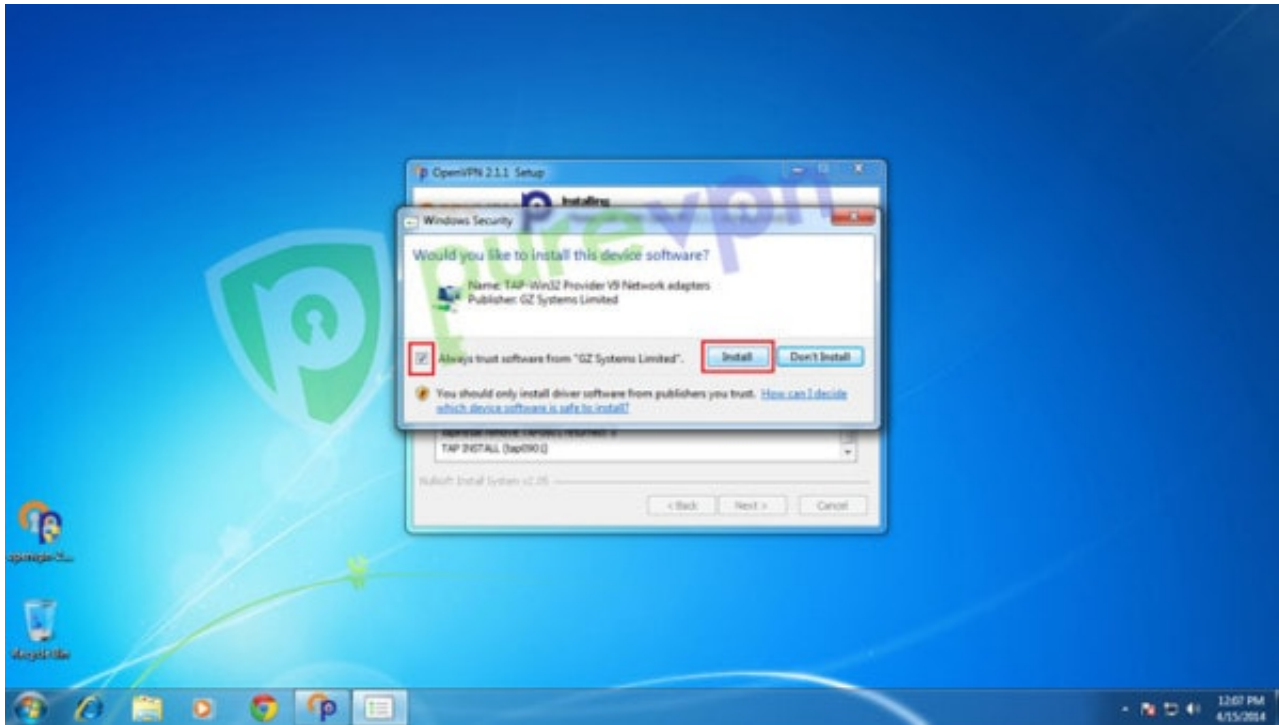

## 8 Click “Next”

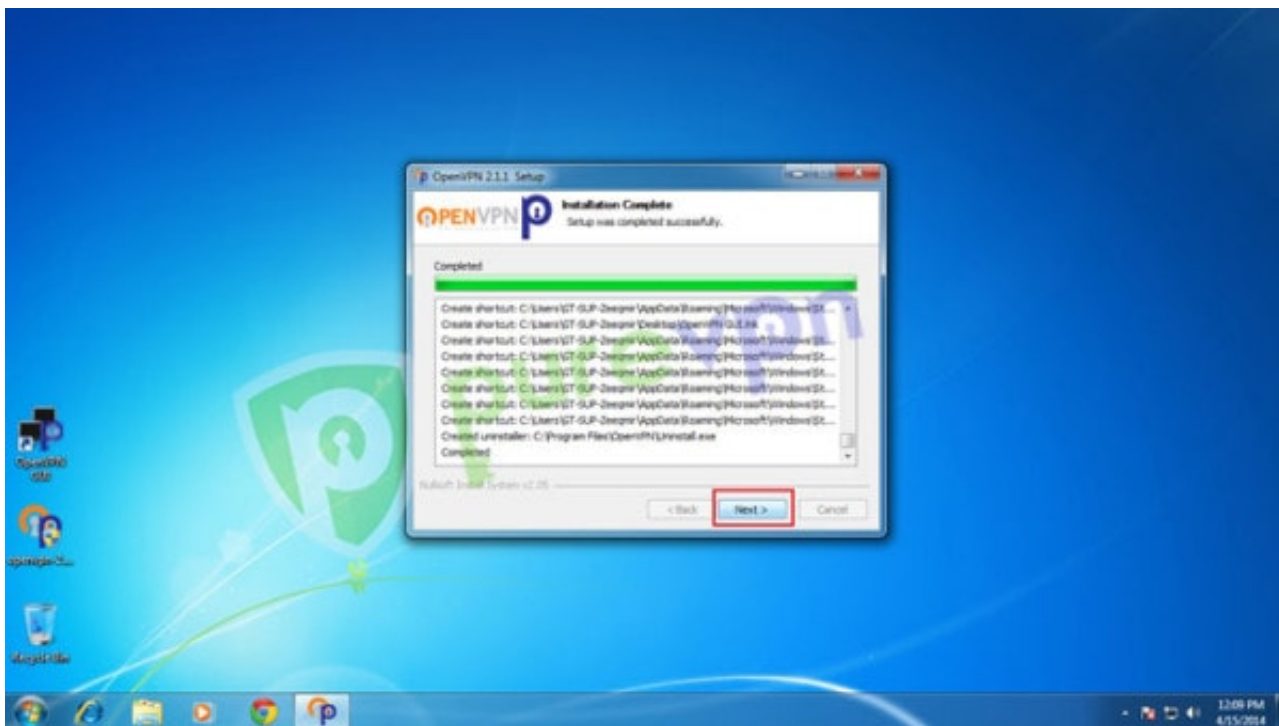

9 Click "Install" to begin installation

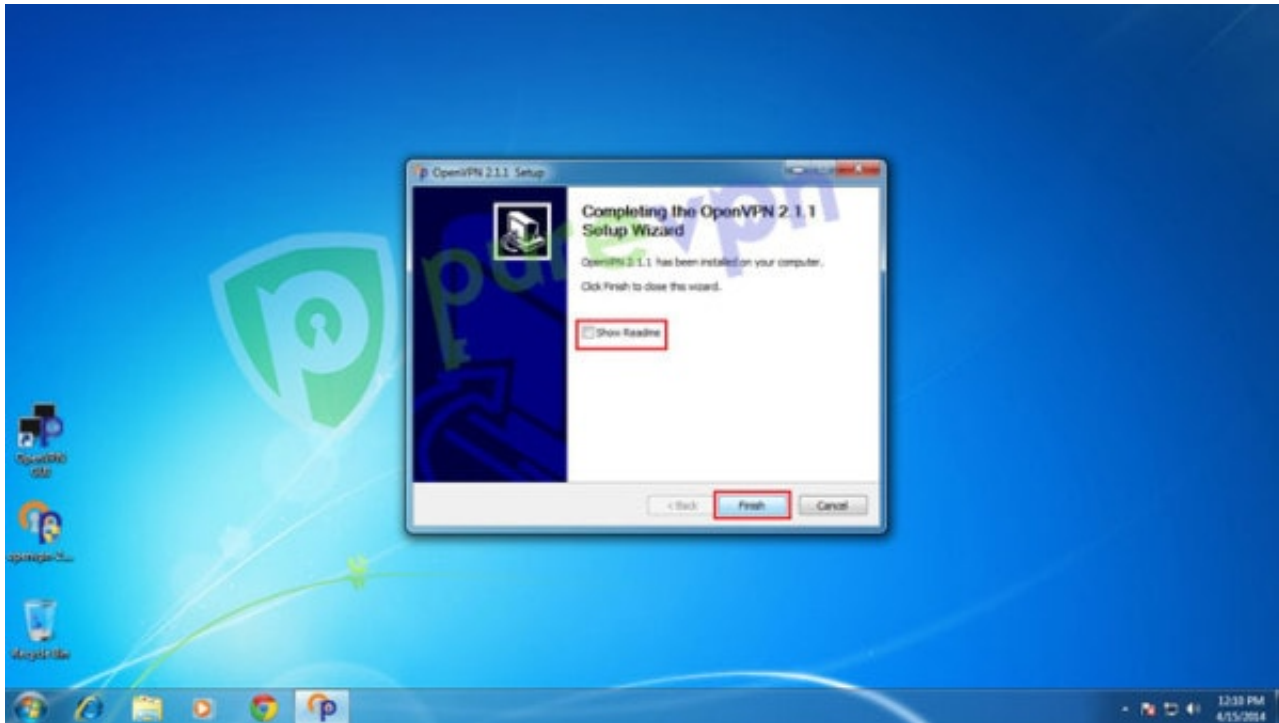

10 Check “Always trust software from “GZ Systems Limited” and click Install

11 Click “Next” once installation completes

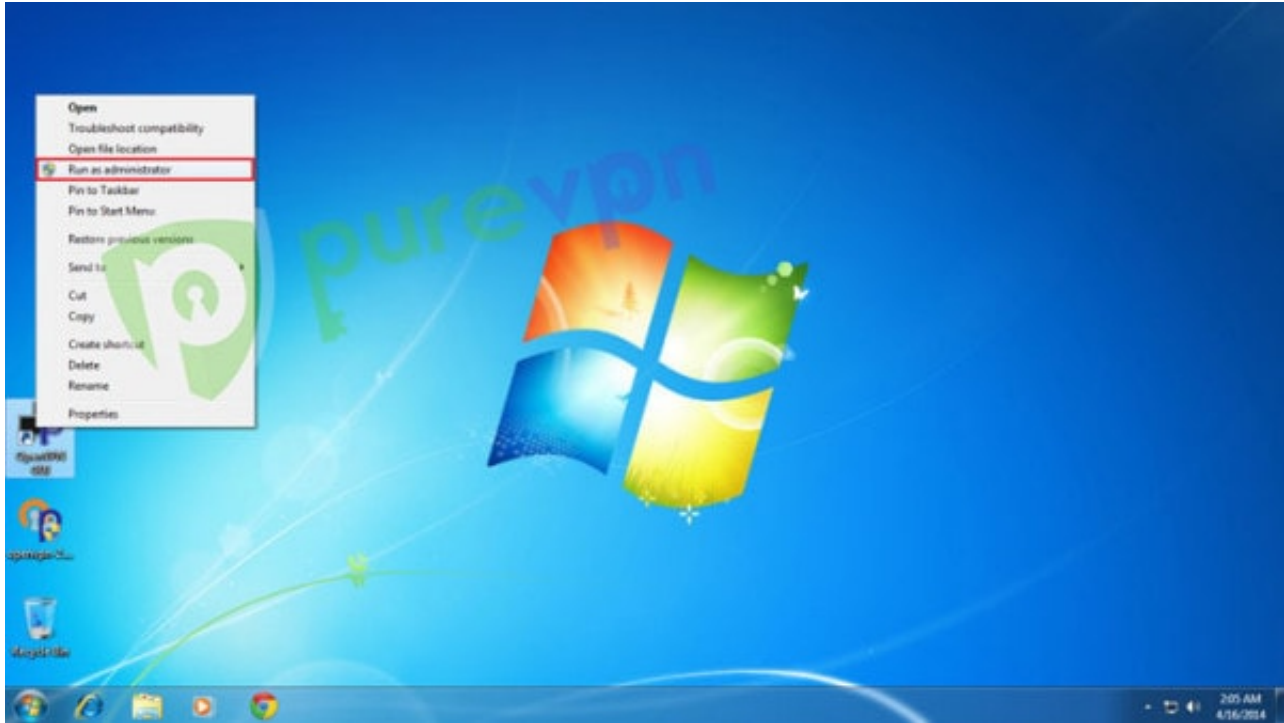

**12 Uncheck “Show Readme” and click on Finish**

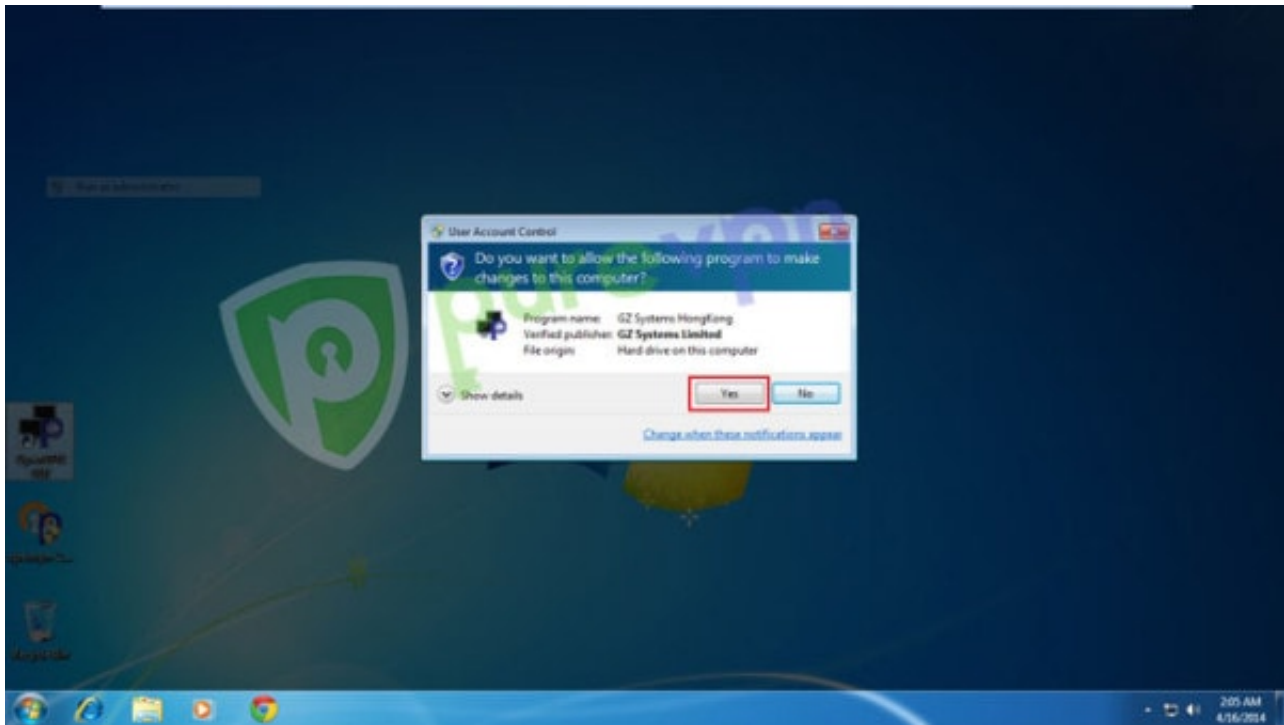

**Connecting PureOVPN:**

**13 Right click on OpenVPN GUI icon and “Run as Admin”**

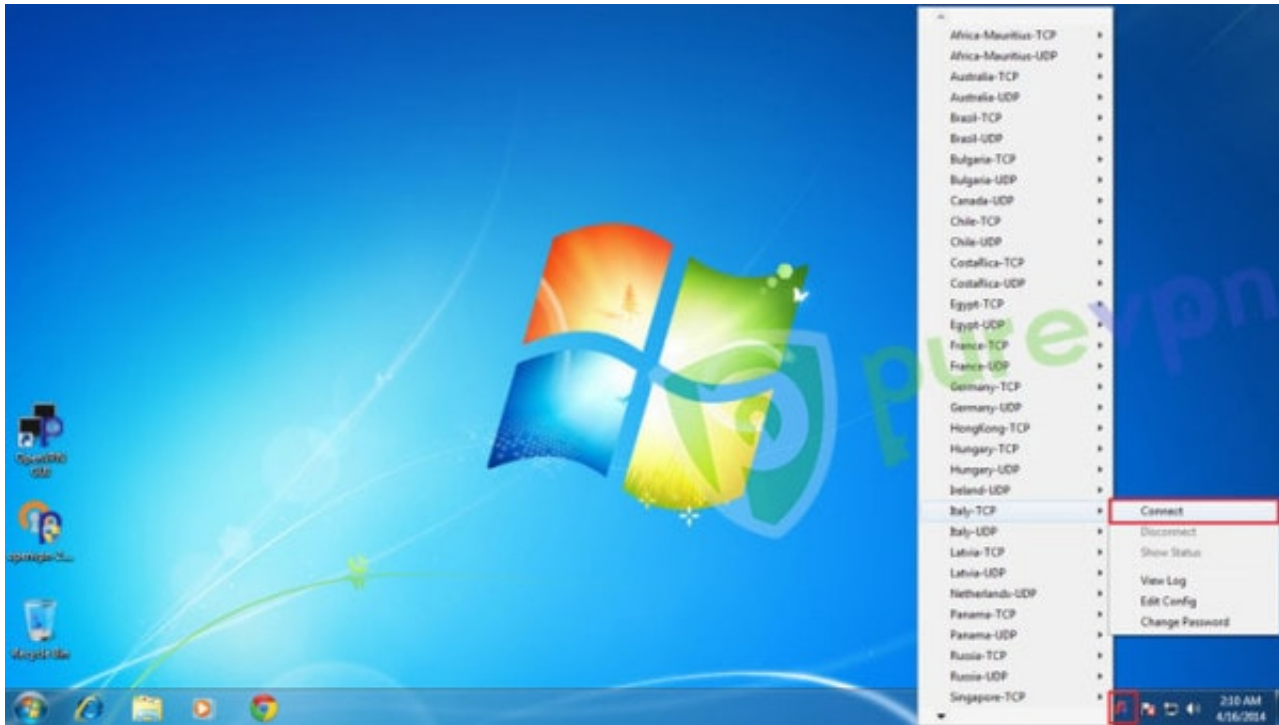

**14** Click **“Yes”** to allow application to run

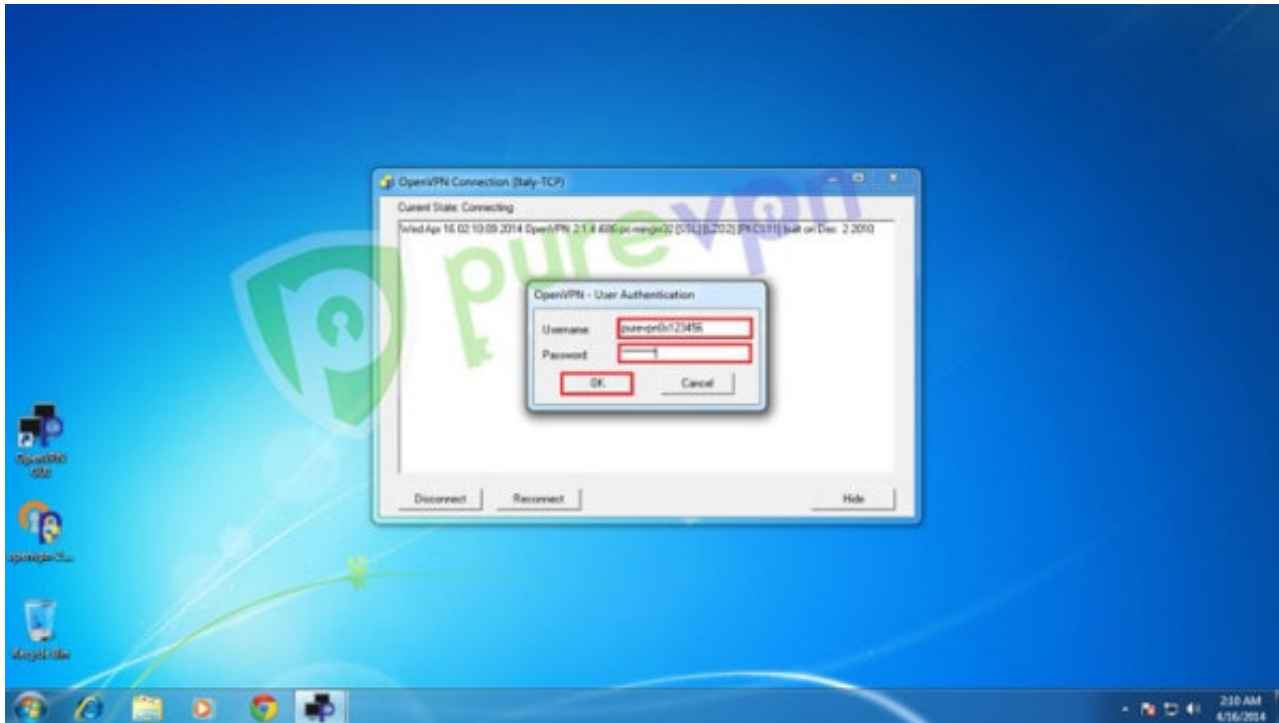

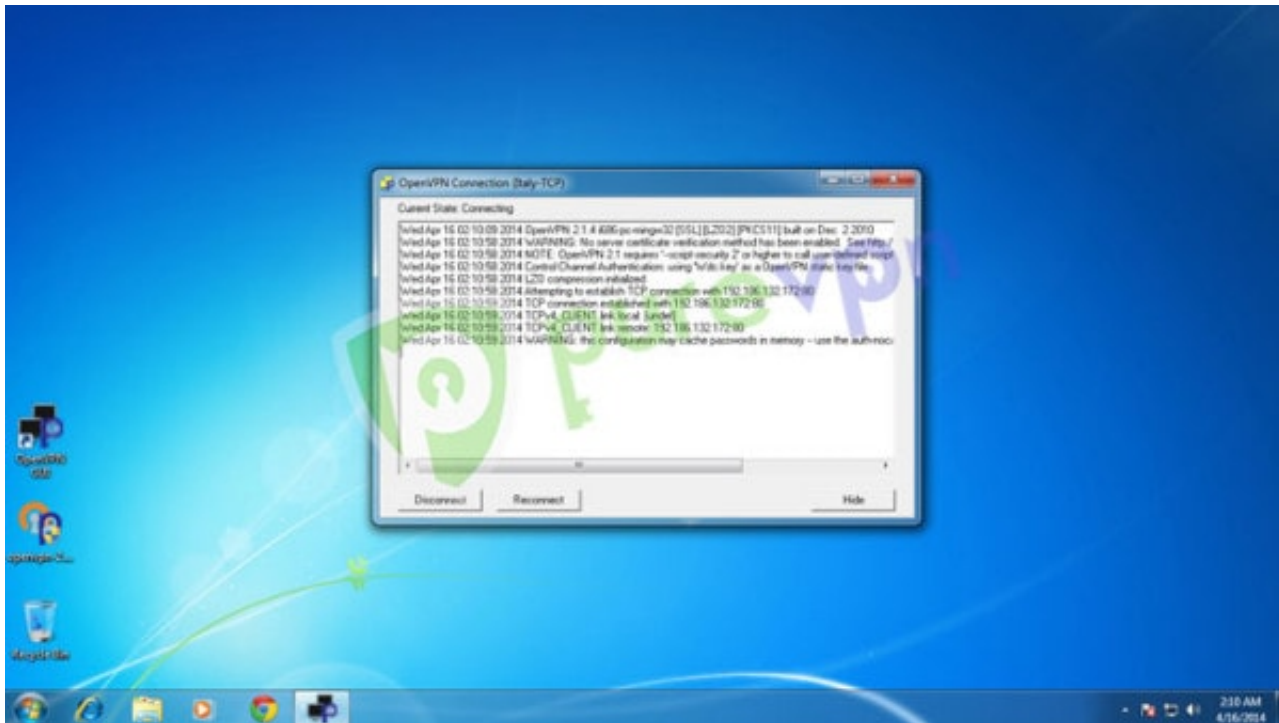

**15** Right click on **OpenVPN icon** from System tray, go to desired server and select “**Connect**”

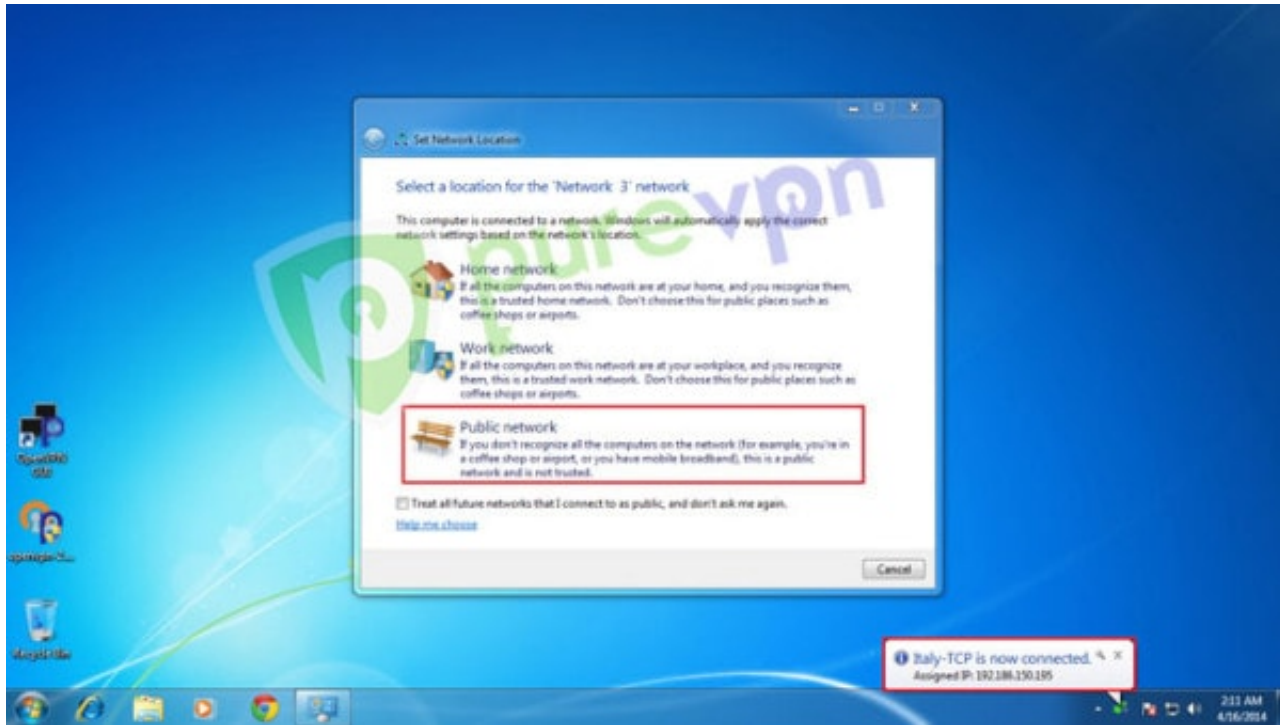

**16** Insert **Username and Password** provided by PureVPN.( **Important Note: Your email address is not your VPN login username.**  )

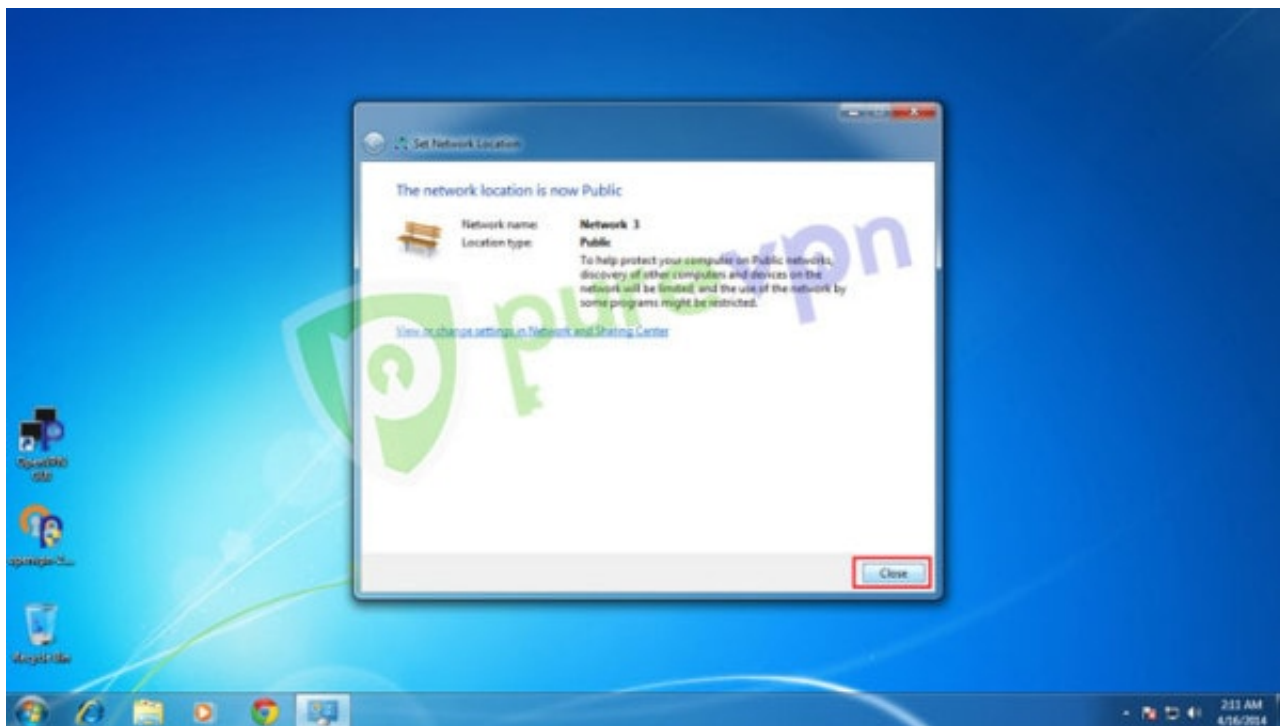

17 VPN will establish connection in few seconds

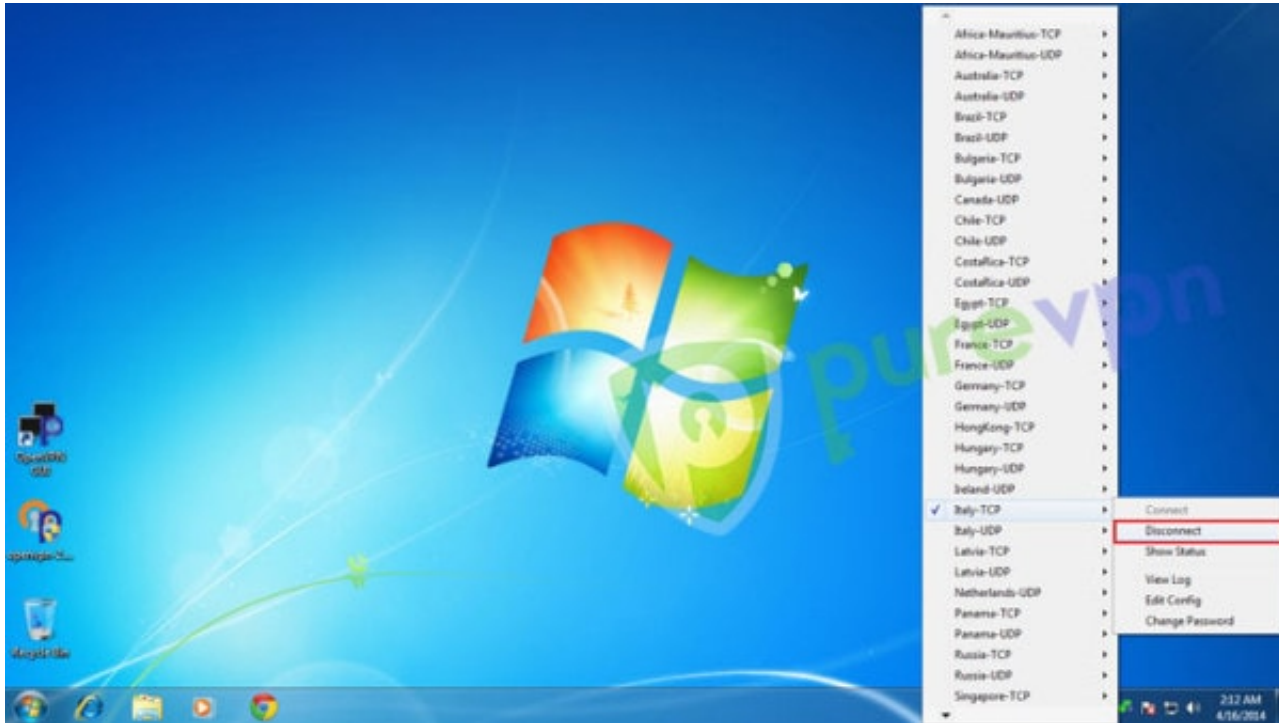

18 You are connected now. Select Network location as Public.

19 Click on "Close" and Enjoy the Freedom!!!!!!!!!!!!

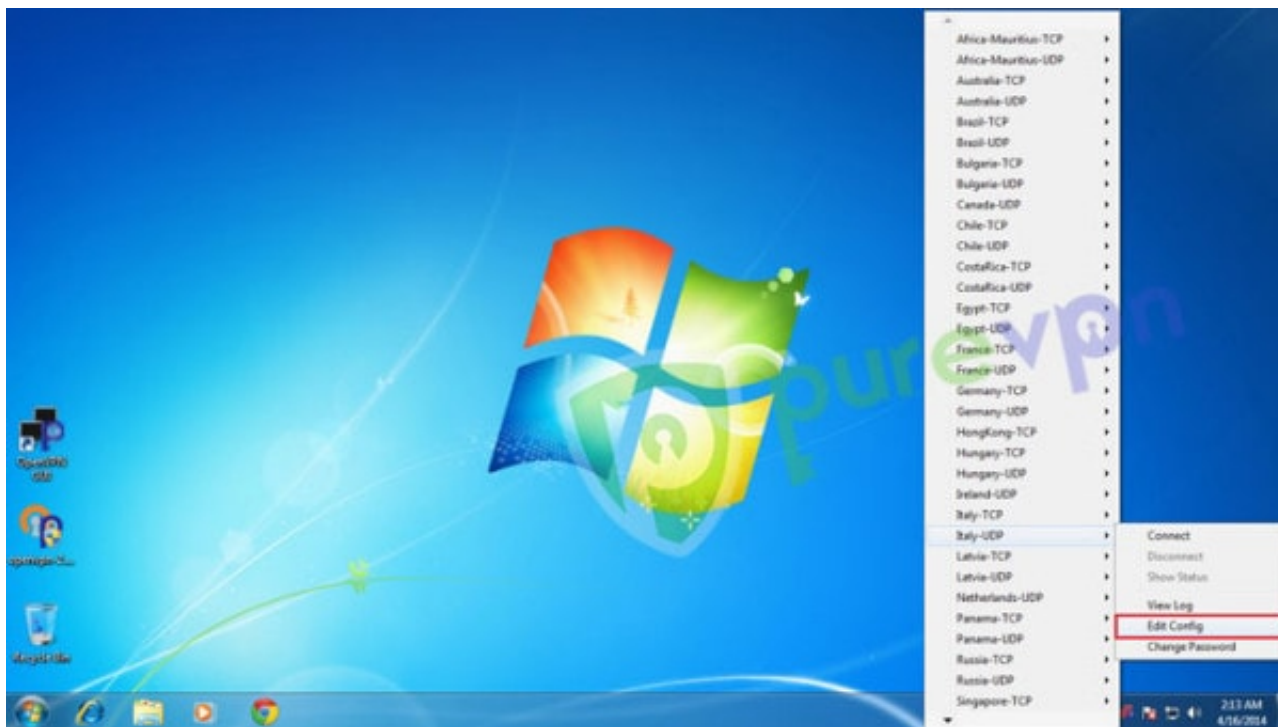

**20** To disconnect OpenVPN. Right click on **OpenVPN Icon** from System tray, go to connected server and select “**Disconnect**”

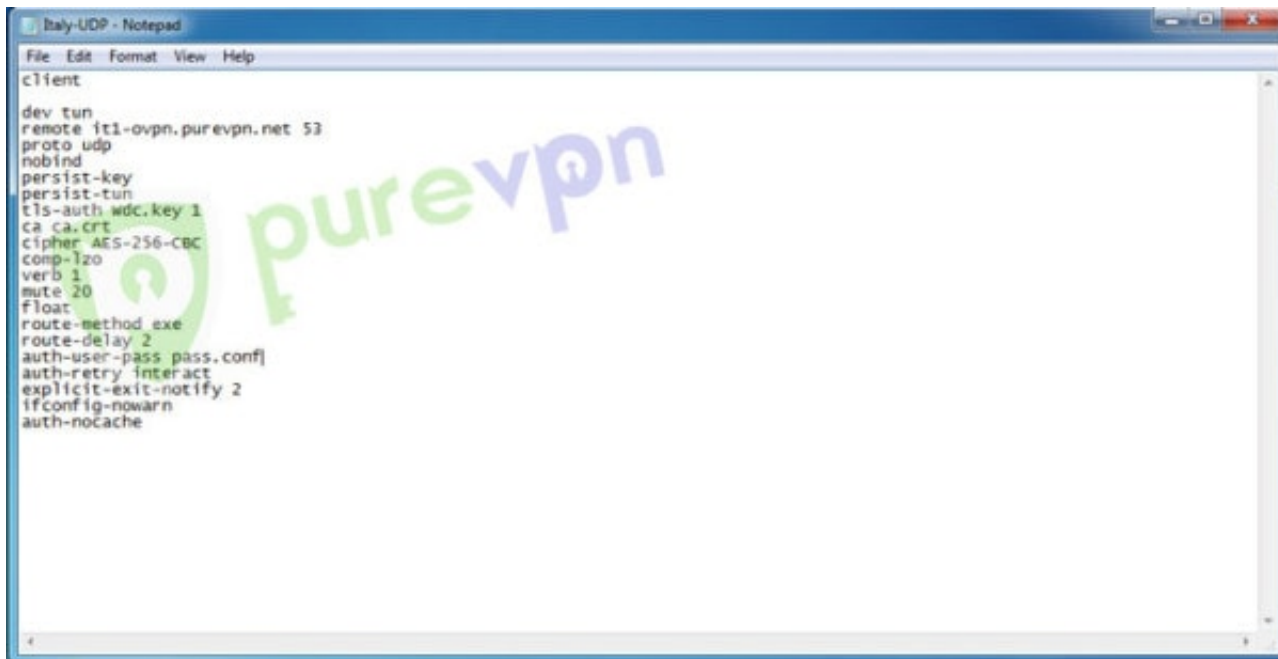

**Saving account details:**

**21** Right click on **OpenVPN Icon** from system tray, go to desired server and select **Edit Config**

**22** Add pass.conf after auth-user-pass parameter and save

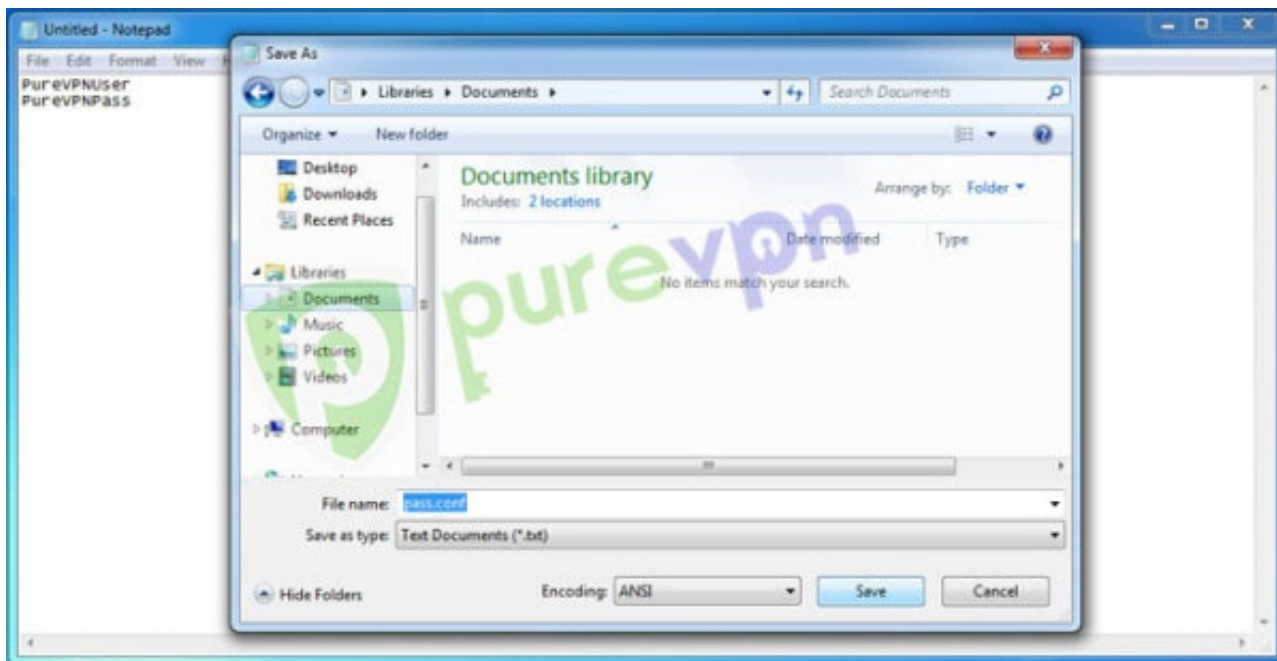

**23** Open notepad and insert Username in first line and password in second line then save it as pass.conf

## PureVPN Support

Solution of Your Problems

<https://support.purevpn.com>

---

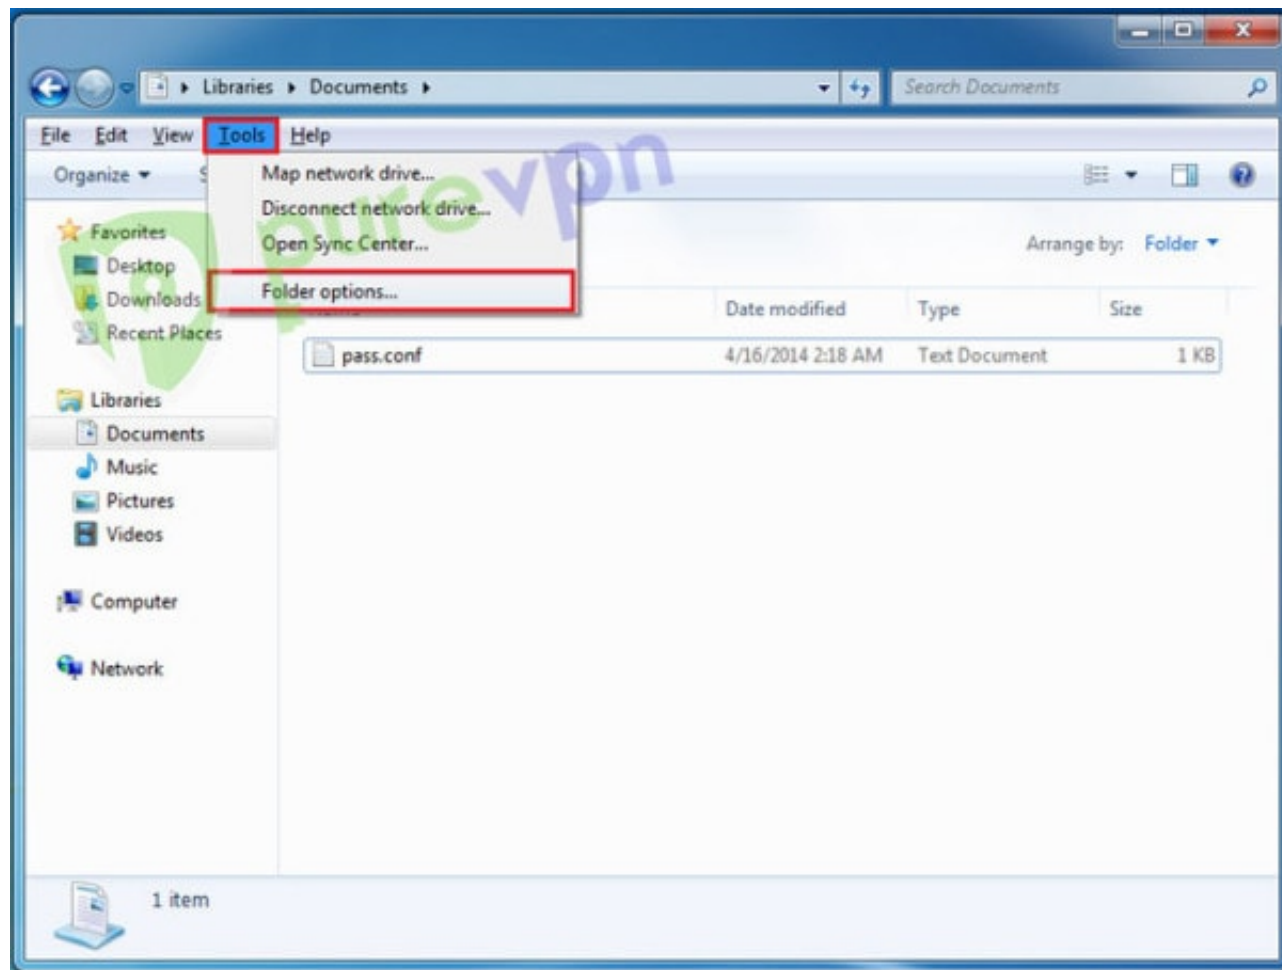

24 Open folder where you save the file, click on **Tools menu** and select **Folder options**

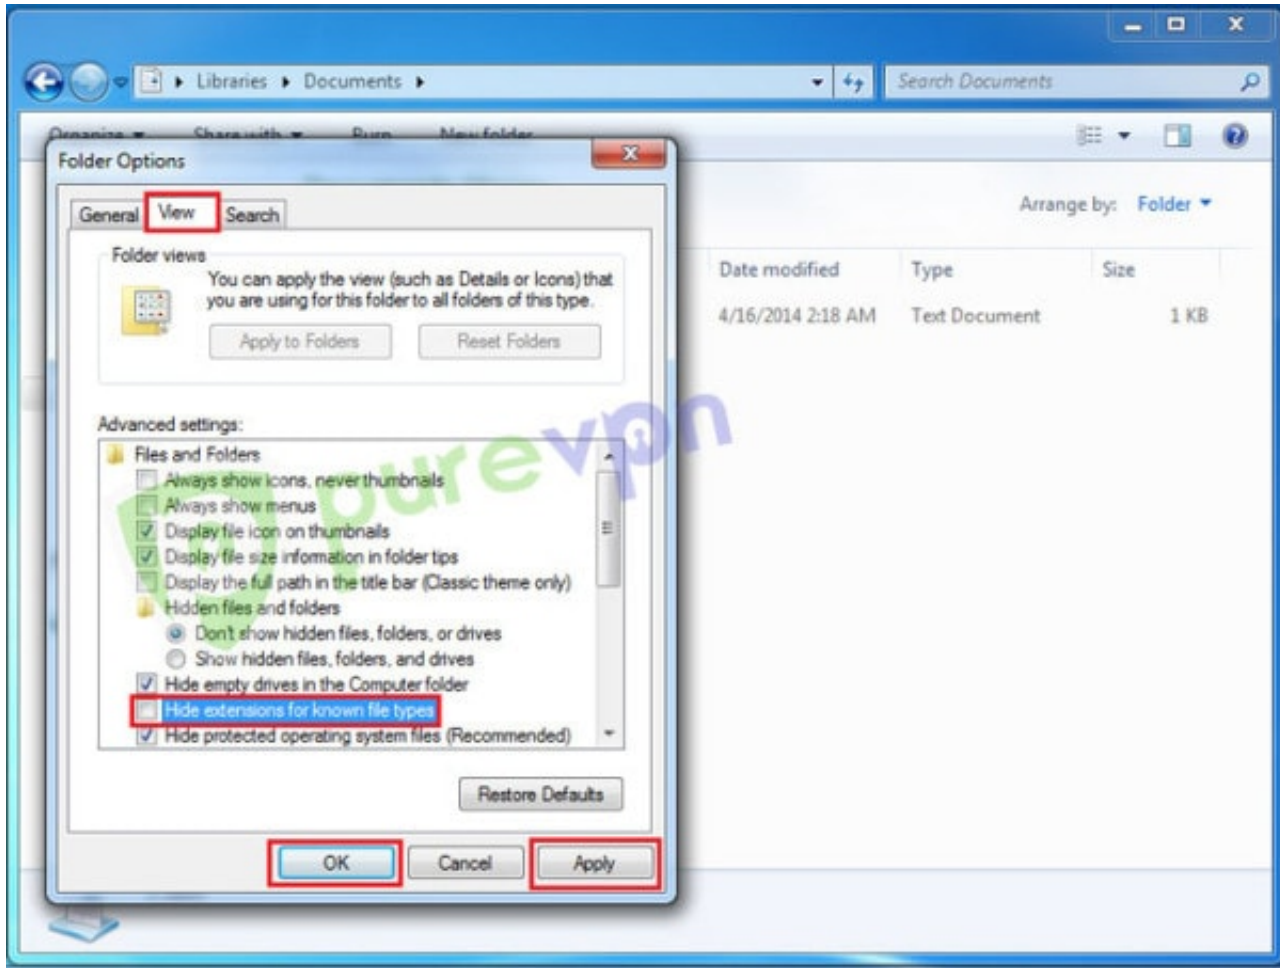

## PureVPN Support

Solution of Your Problems

<https://support.purevpn.com>
