

## How to Setup VPN Manually on Xiaomi Phone?

### NOTE

You are recommended to use the PureVPN Android app, which is compatible with Android 8.0 and above and can be downloaded from Google Play. Click ?[here](#) to download the app. If you are running an older operating system, you might experience an incompatibility error and will have to manually configure PPTP connection settings instead.

### Things to Consider:

1. You have a working internet connection
2. An android device (Smartphone, Tablet etc.)
3. Own a premium PureVPN account (If you do not already own one, you can buy a subscription from ? [here](#).)

To make effective use of PureVPN on Xiaomi phones, you always have the option to configure it manually. Once done correctly, the possibilities are limitless. To start configuring VPN on your Xiaomi phone you will need to follow the steps provided below ?

- On your Android device, tap **Settings** ??
- Under settings you'll find VPN option. Tap **VPN**

Add VPN

On the next screen you'll be asked to enter the necessary information in order to gain the VPN access on your device. You are advised to follow the below steps in the same sequence that it is mentioned.

- Insert Name: PureVPN PPTP
- Type: Select PPTP from the drop-down menu.
- Server Address: You can use one of the servers mentioned below ?

## PureVPN Support

Solution of Your Problems

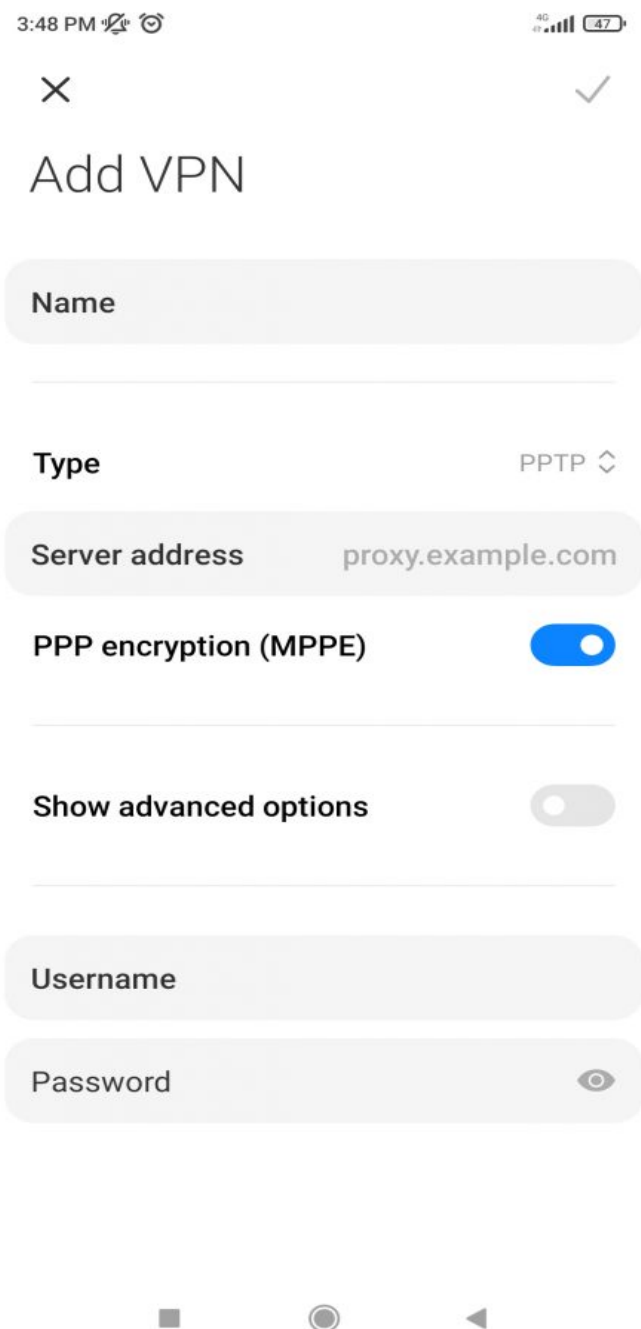

<https://support.purevpn.com>

---

1. Germany: de1.pointtoserver.com
2. Netherlands: nl1.pointtoserver.com
3. United Kingdom: uk1.pointtoserver.com
4. United States: usil1.pointtoserver.com
5. United States: ustx1.pointtoserver.com
6. United States: usca1.pointtoserver.com
7. United States: usfl1.pointtoserver.com
8. United States: usny1.pointtoserver.com
9. United States: uswdc1.pointtoserver.com

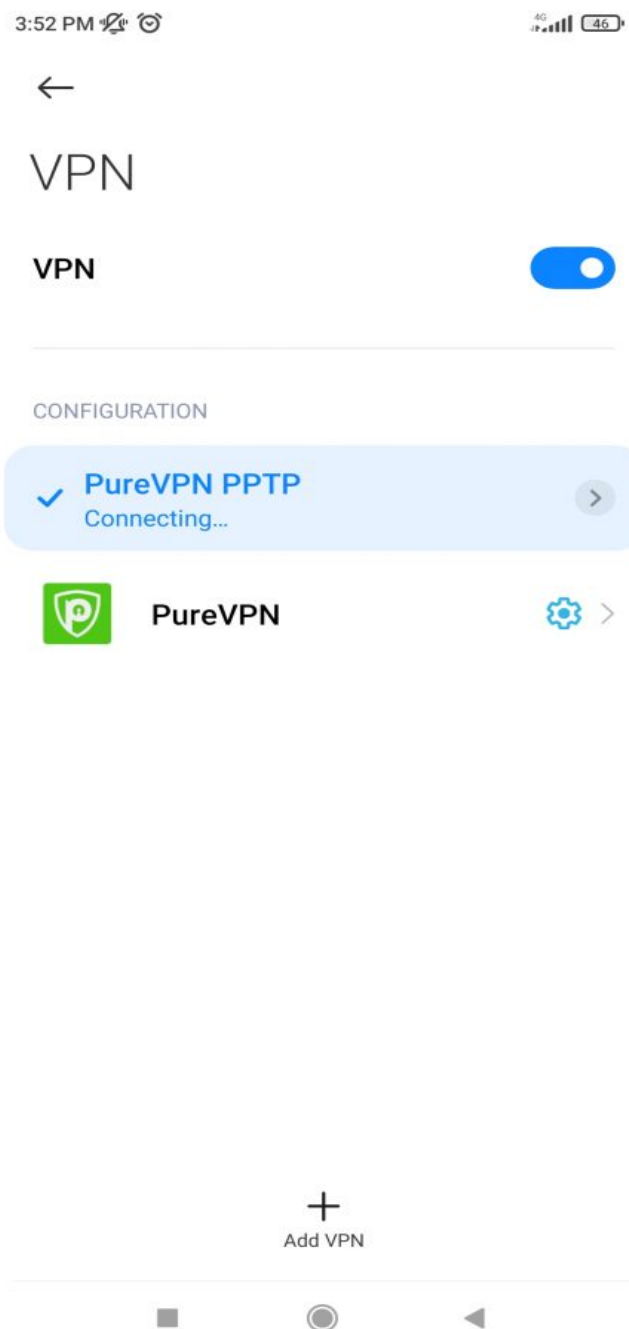

- Uncheck PPP encryption (MPPE)
- Enter your PureVPN credentials. Here is how you can? [find your VPN credentials](#).

After entering the above information, simply tap on ?? at the top right corner.

Once done, you will be able to see your newly created VPN profile.

- To start the connection you may simply tap on **PureVPN PPTP** and then toggle on the **VPN**.

- Congratulations! You are now **Connected**.

## NOTE

To verify the VPN connection you may visit [www.ip2location.com](http://www.ip2location.com) and check your IP address and if your IP address matches the location of your VPN server then you are connected to the VPN.
