

How to Upgrade your PureVPN Account

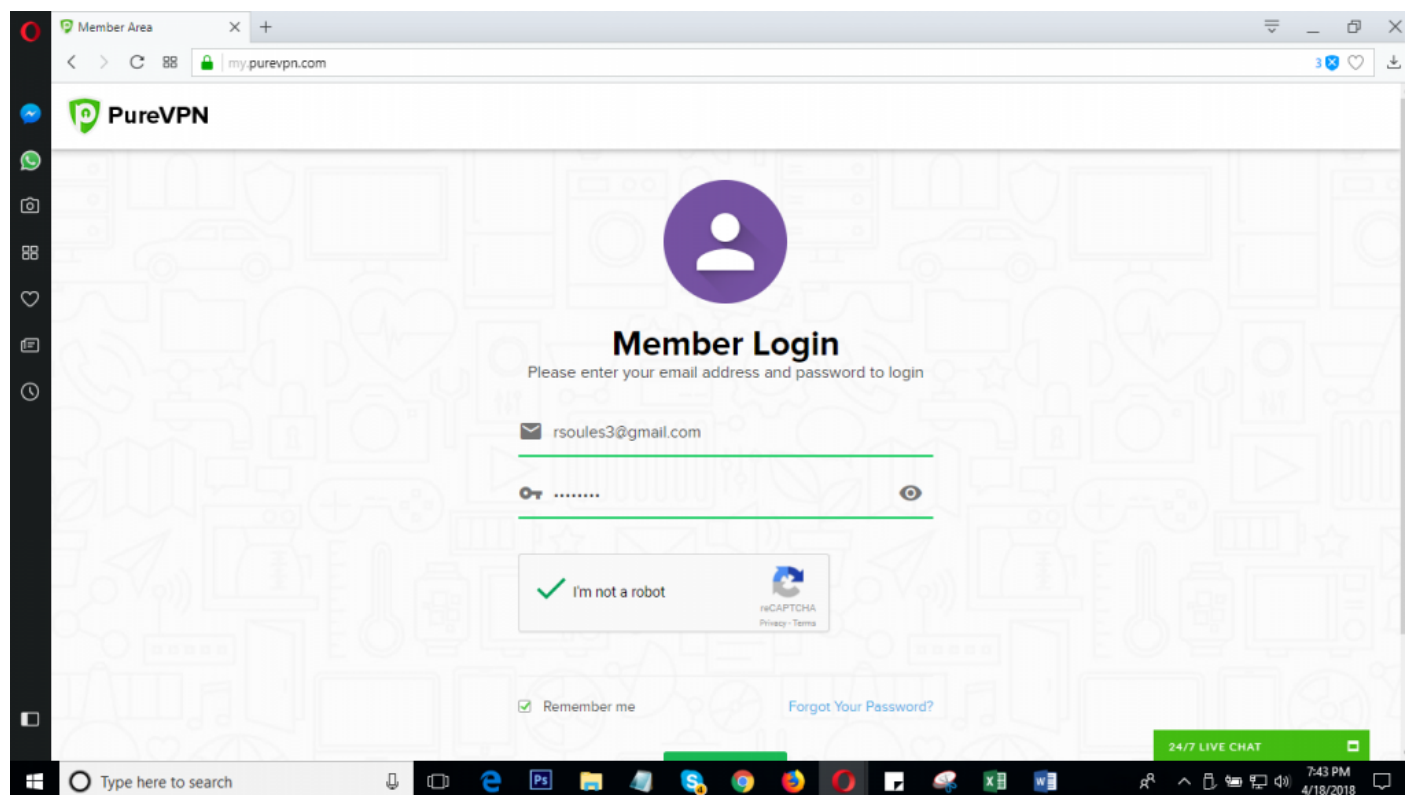

The wait is now over. PureVPN has finally launched its highly anticipated 'Account Upgrade' feature in the Member's Area. It allows you to upgrade your PureVPN account to a longer term, but at a far lesser price!

NOTE:

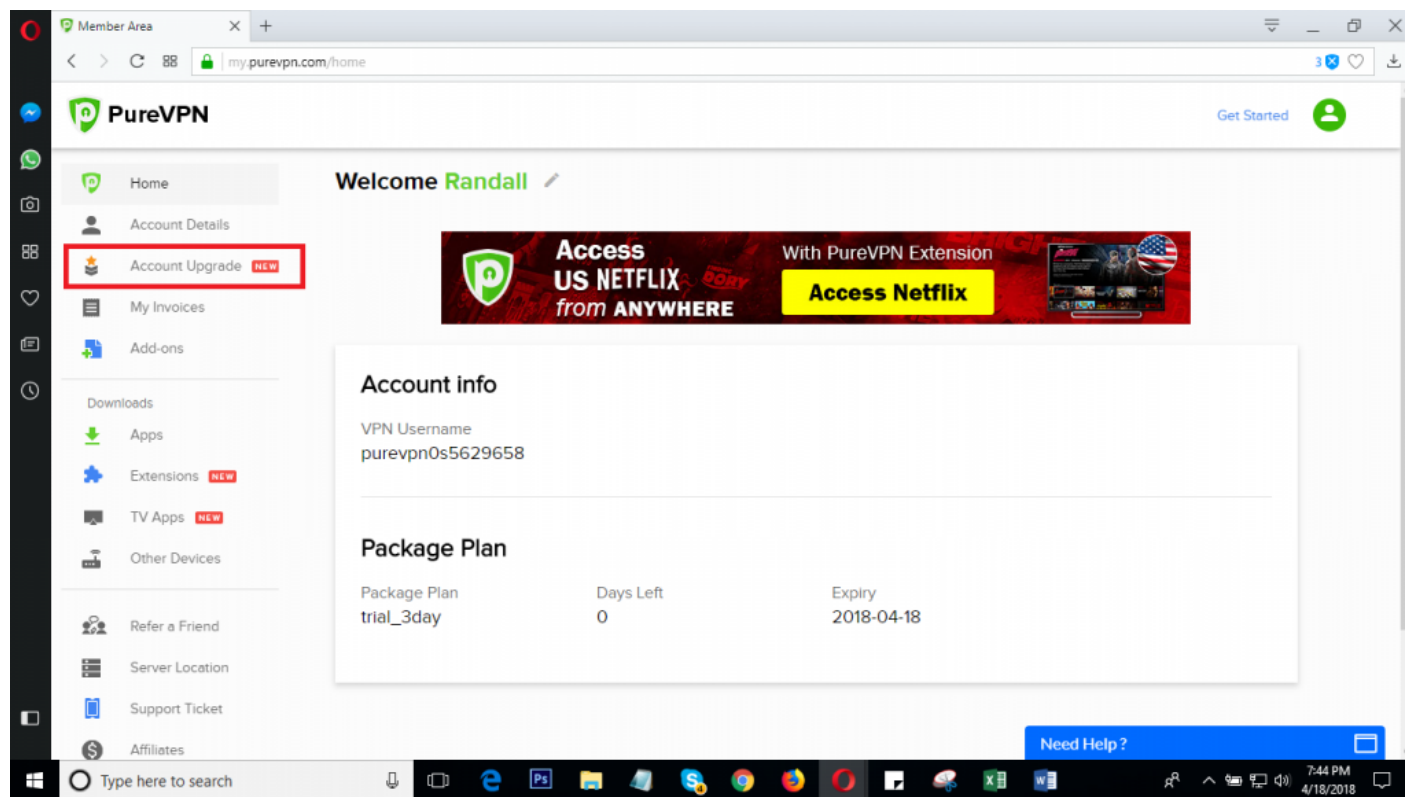

When you upgrade your plan, any remaining days of your current plan will simply be added to the new plan. To put it simply, remaining days from the current plan + the days of your upgraded plan = total days you now have.

Here's how you can upgrade your account and maximize your savings:

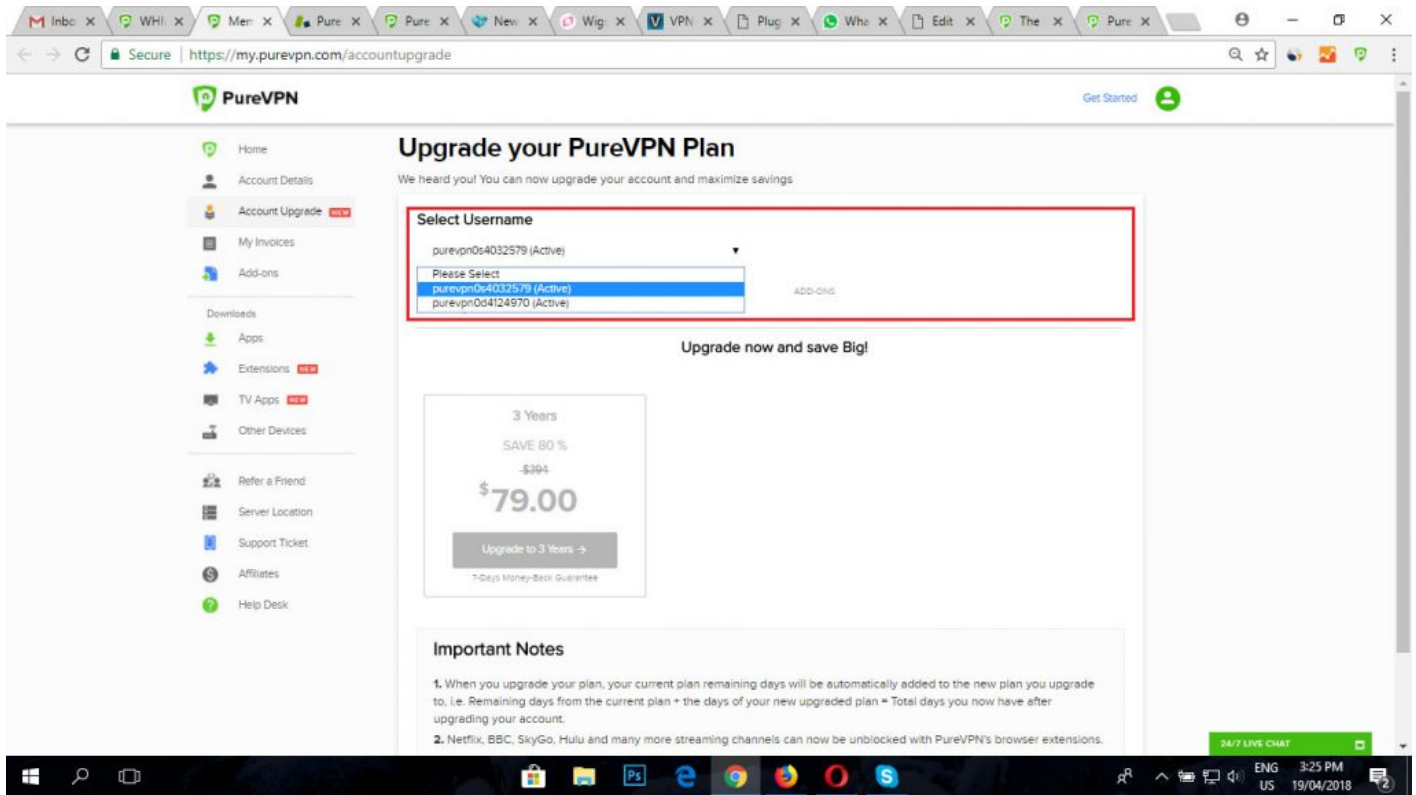

1 Login to Member's Area using this link: <https://my.purevpn.com>

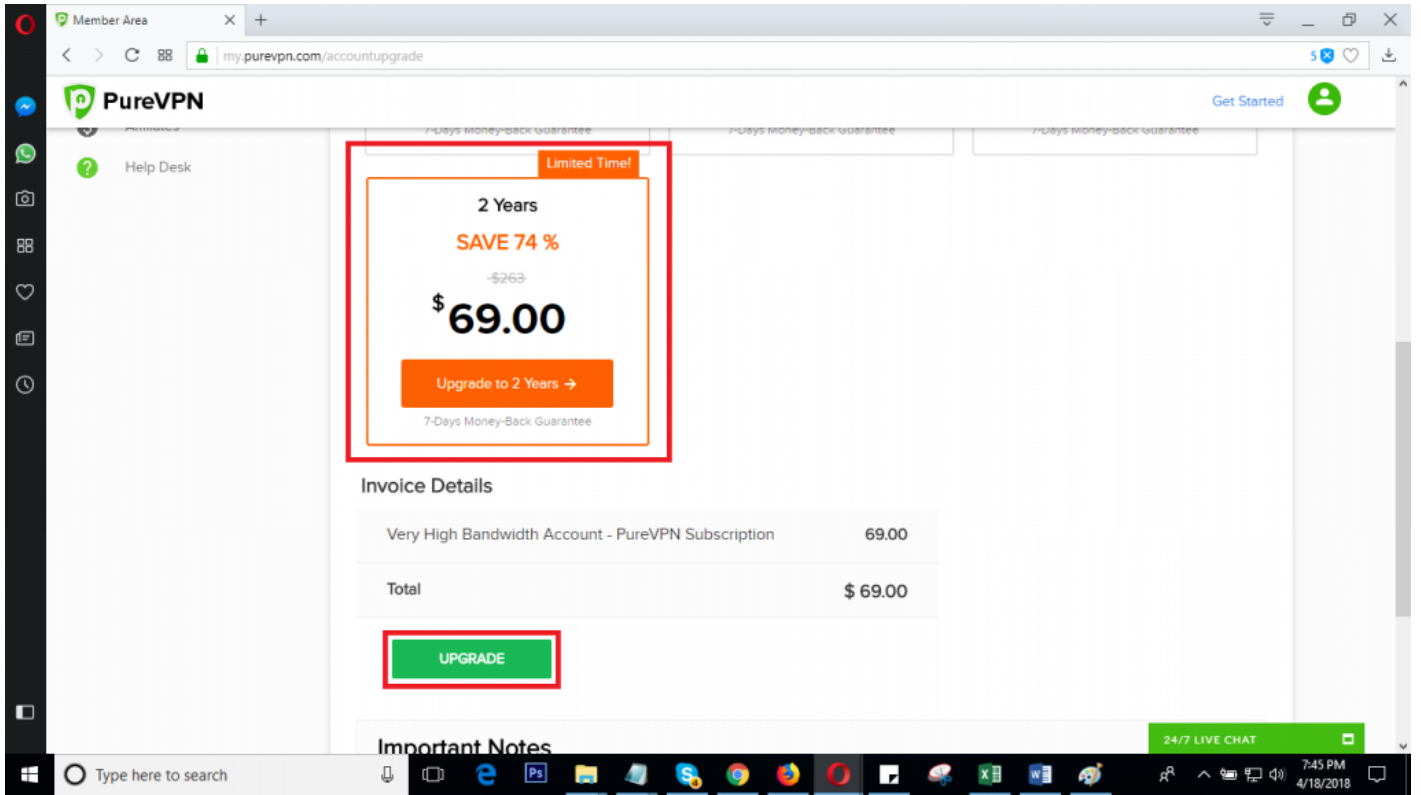

2 Select “Account Upgrade” from the menu on the left side of the screen.

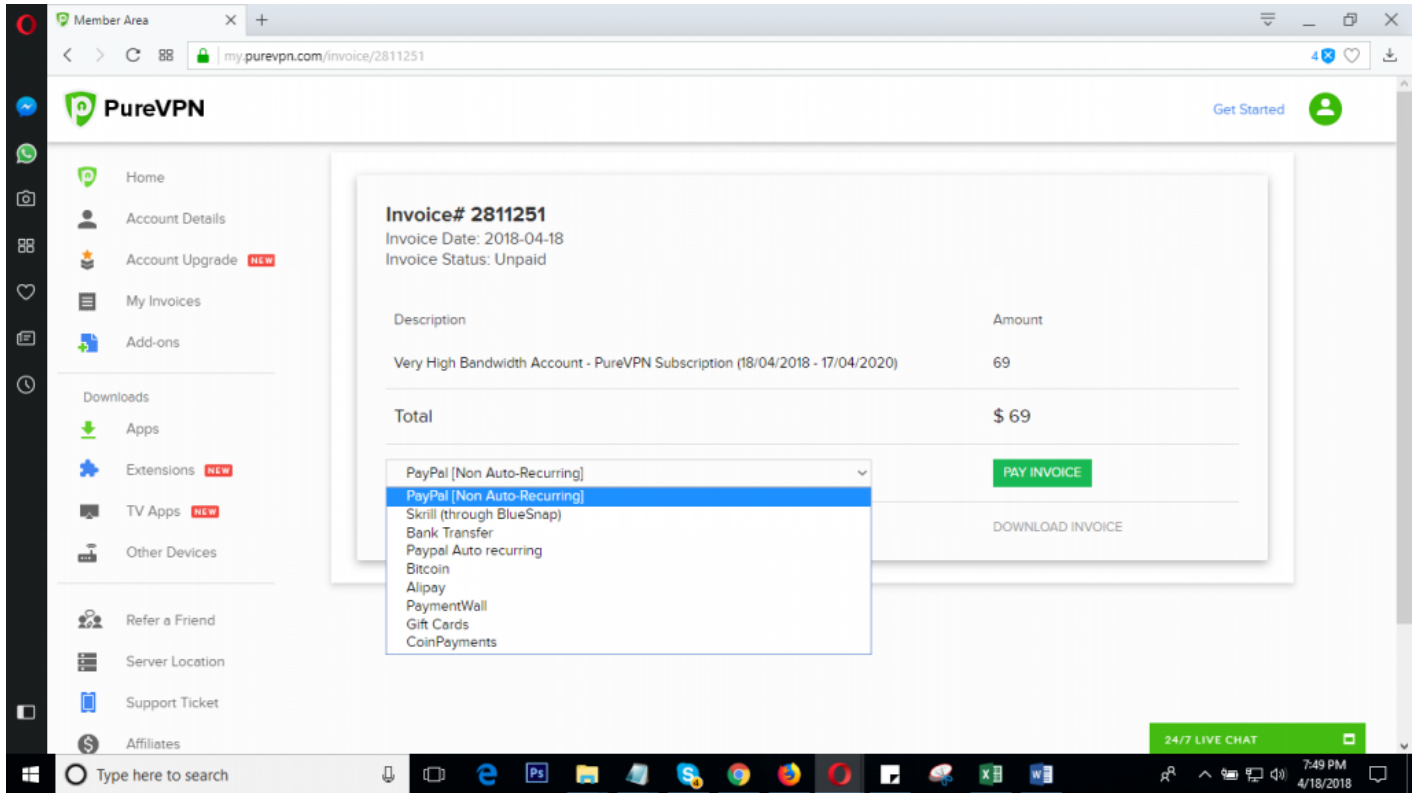

3 Please select your “Active username” as it is mandatory for upgrading your PureVPN account.

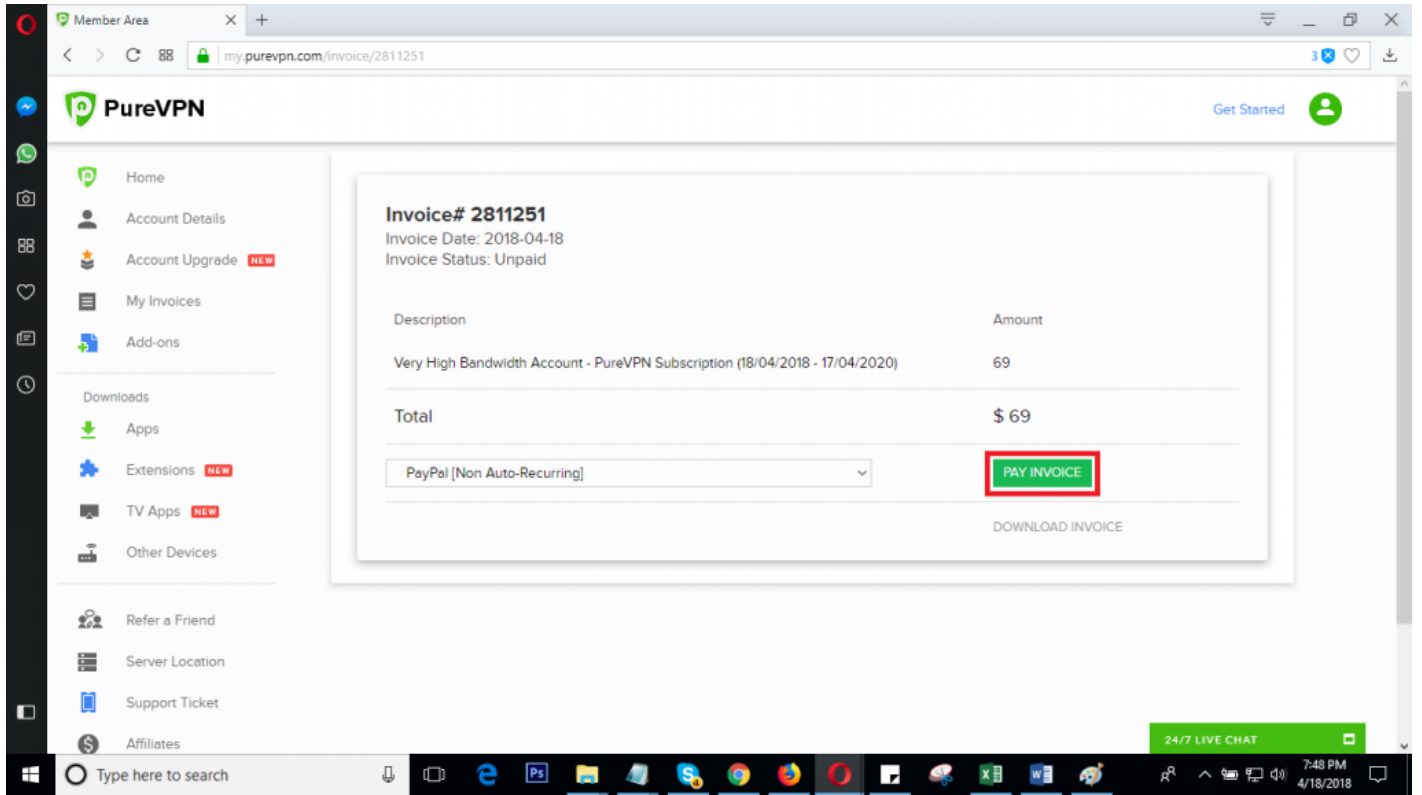

4 Select the plan you want to upgrade to and then click “Upgrade”.

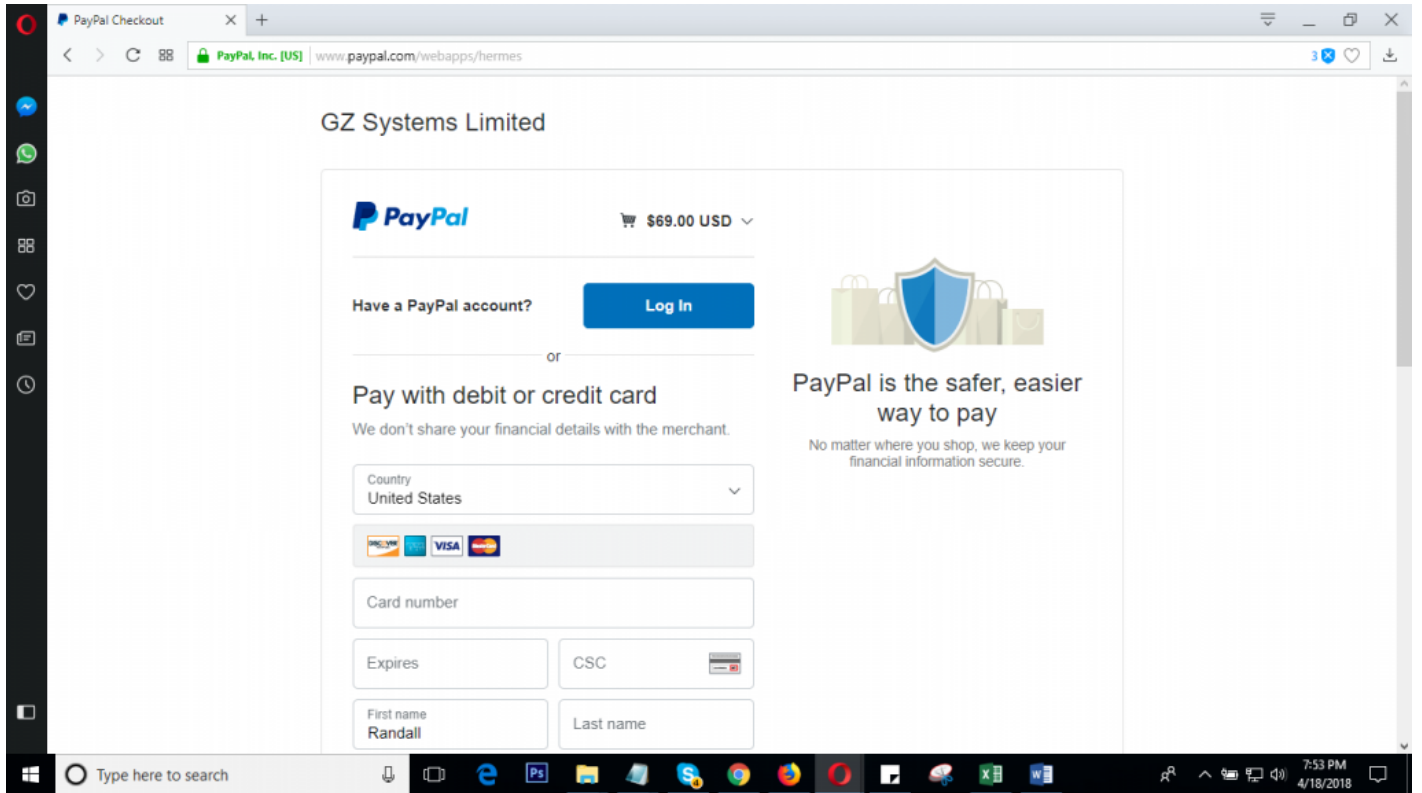

Note: You can choose your desired payment method as well for your ease and convenience.

5 Select “Pay Invoice” to proceed.

6 Enter your payment details.

7 Once entered, hit the “Pay Invoice” button and voila! Your account is now upgraded.
