

How to Use Split Tunneling in PureVPN Windows App

PureVPN offers users the ability to choose which traffic they want to send through the VPN, and which they want to send through their ISP. Just follow these simple steps to use Split Tunneling on PureVPN's Windows client.

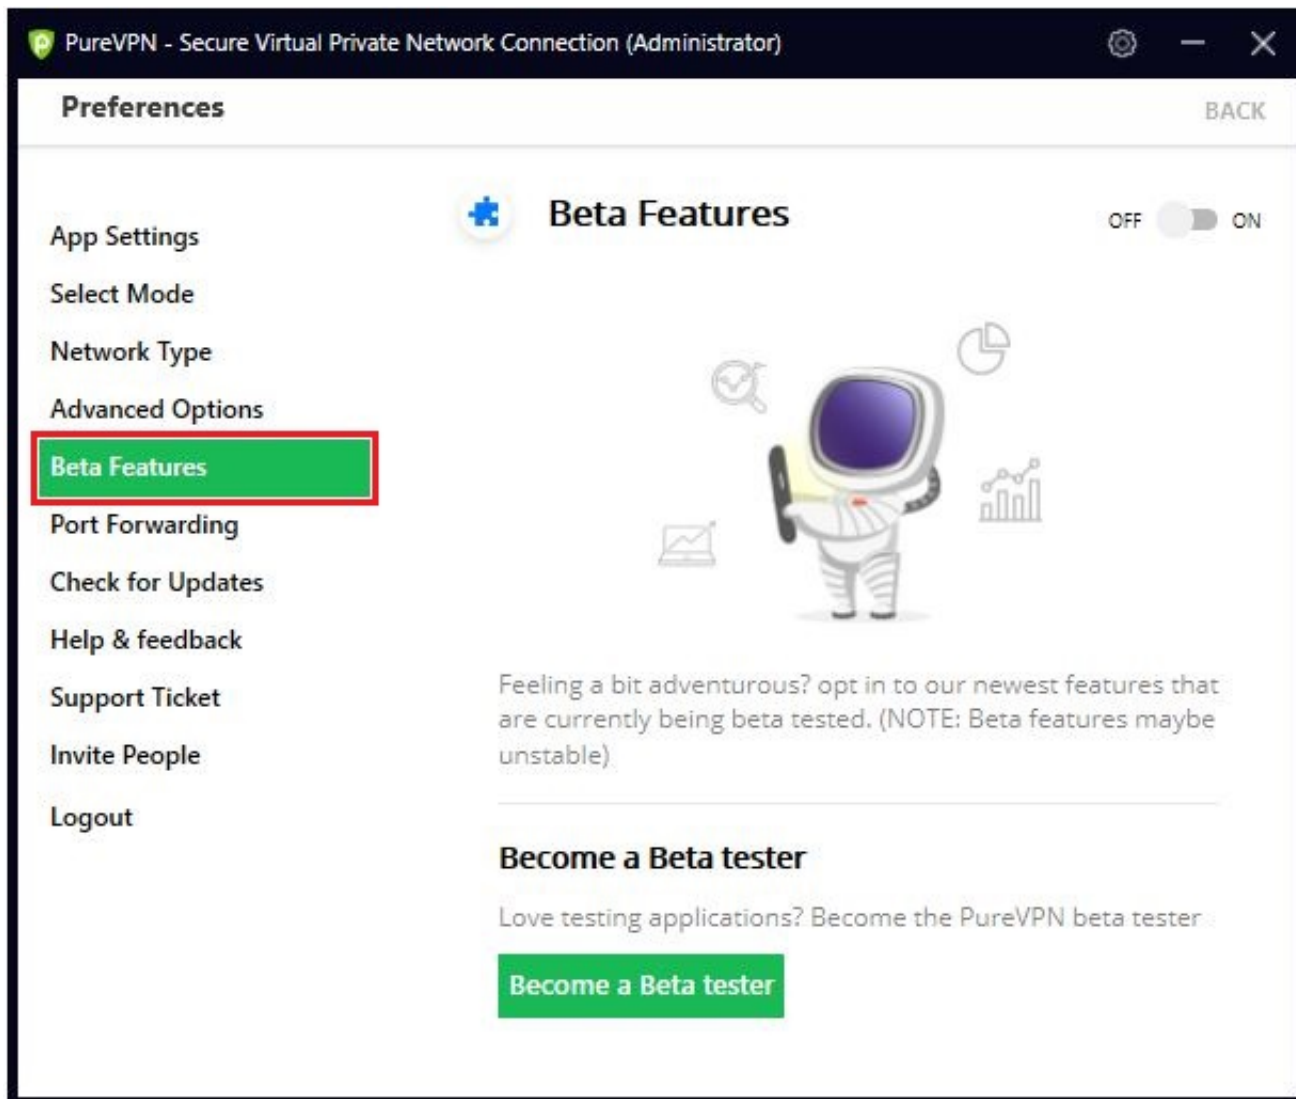

1 Right click the PureVPN icon on your desktop and select Run as administrator.

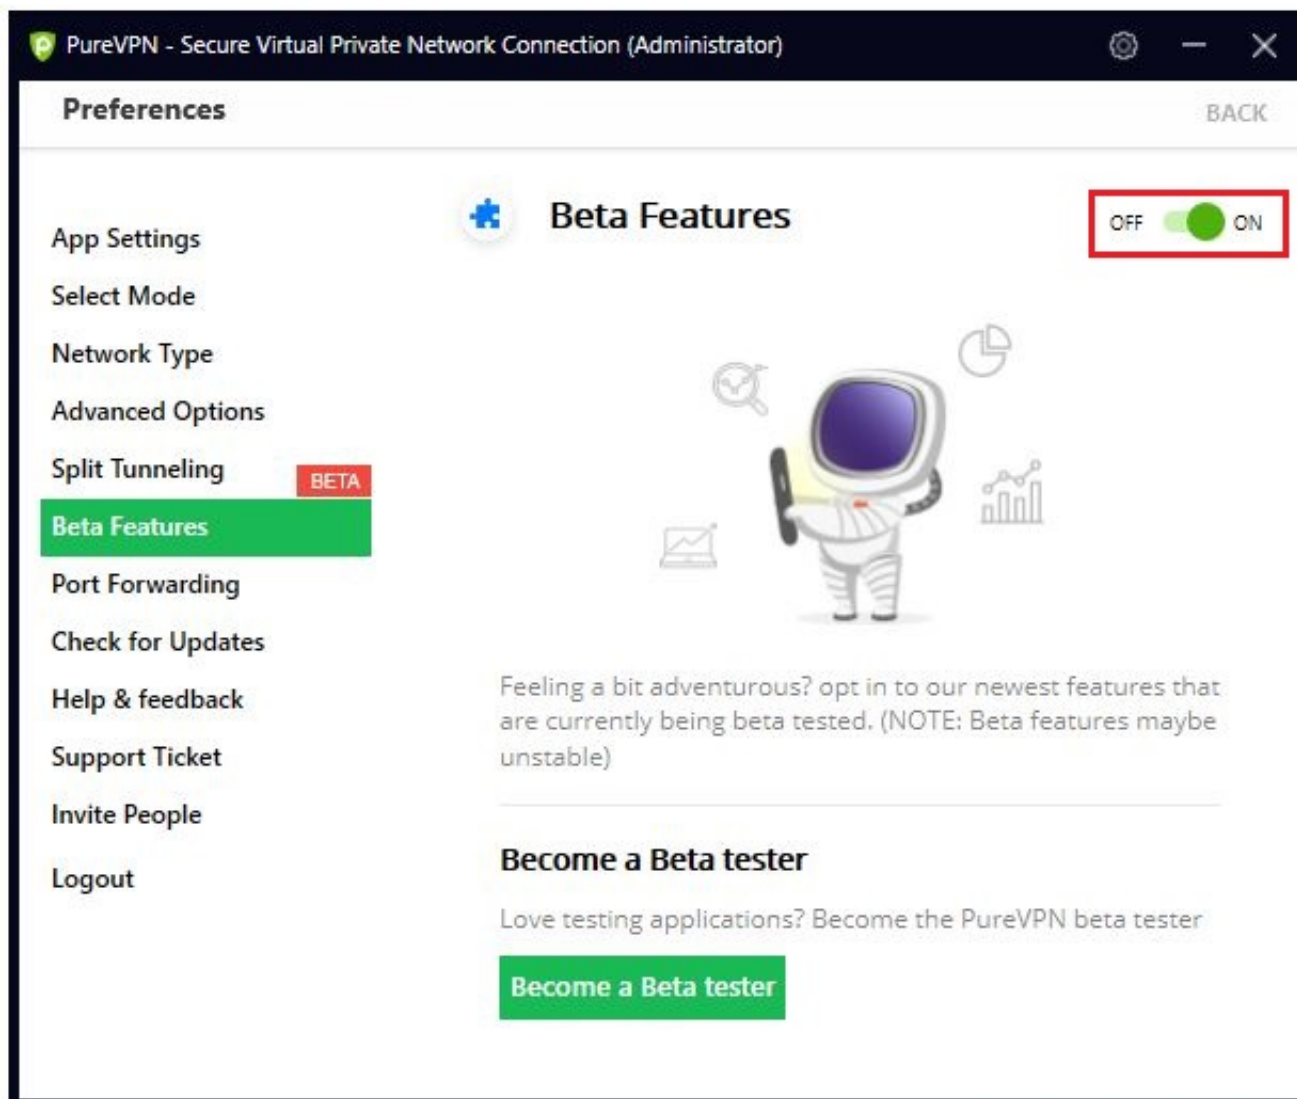

2 Click the Settings icon in the top right corner.

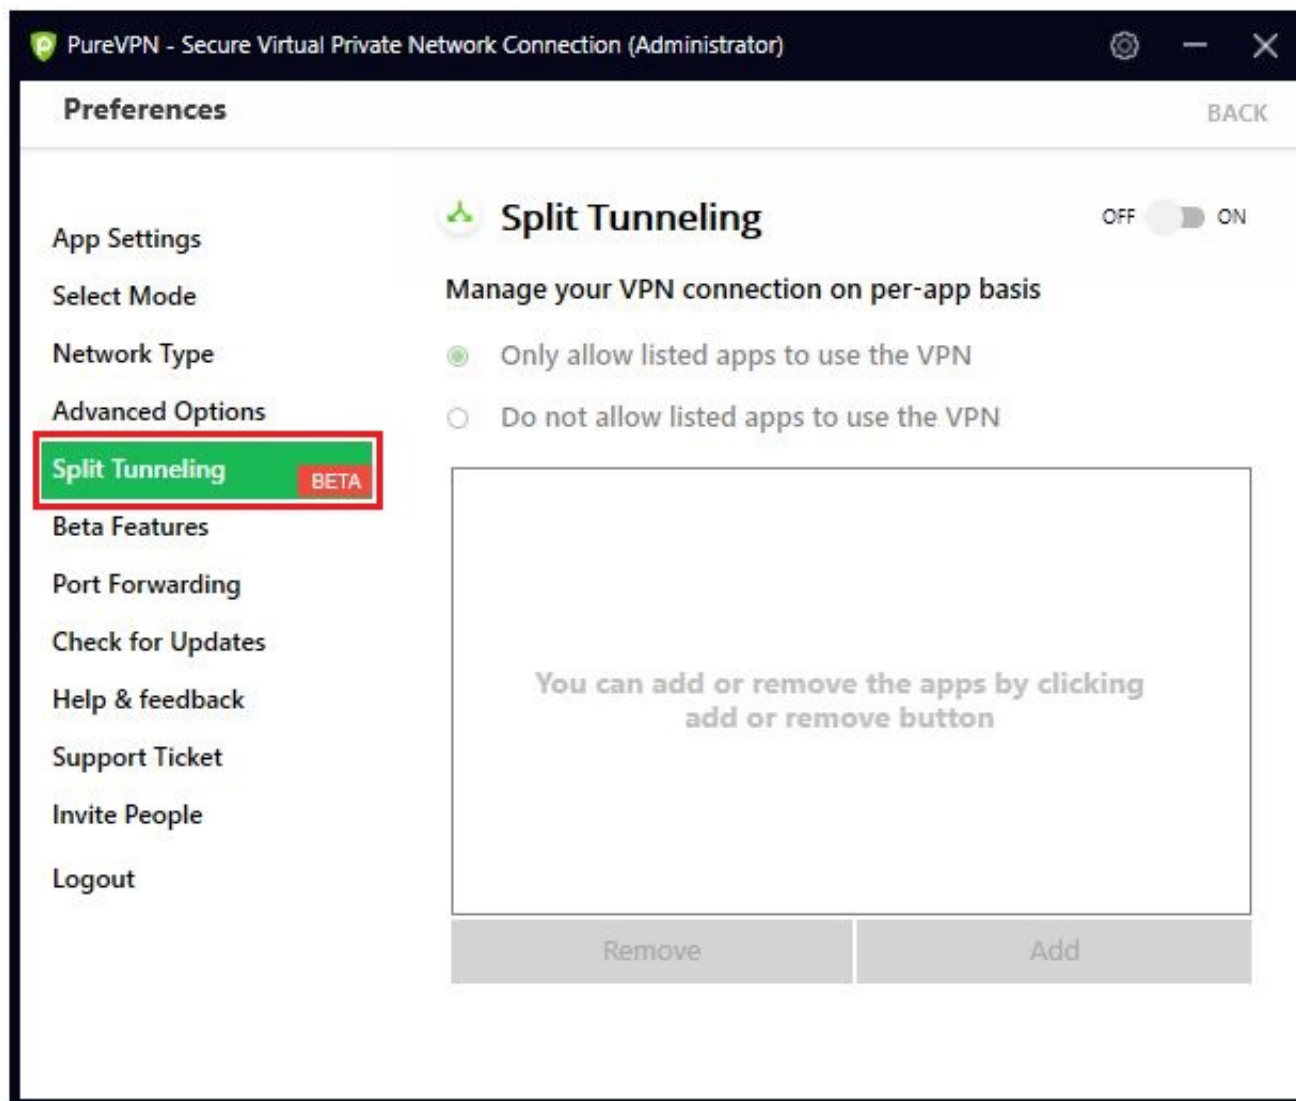

3 Click Beta Features.

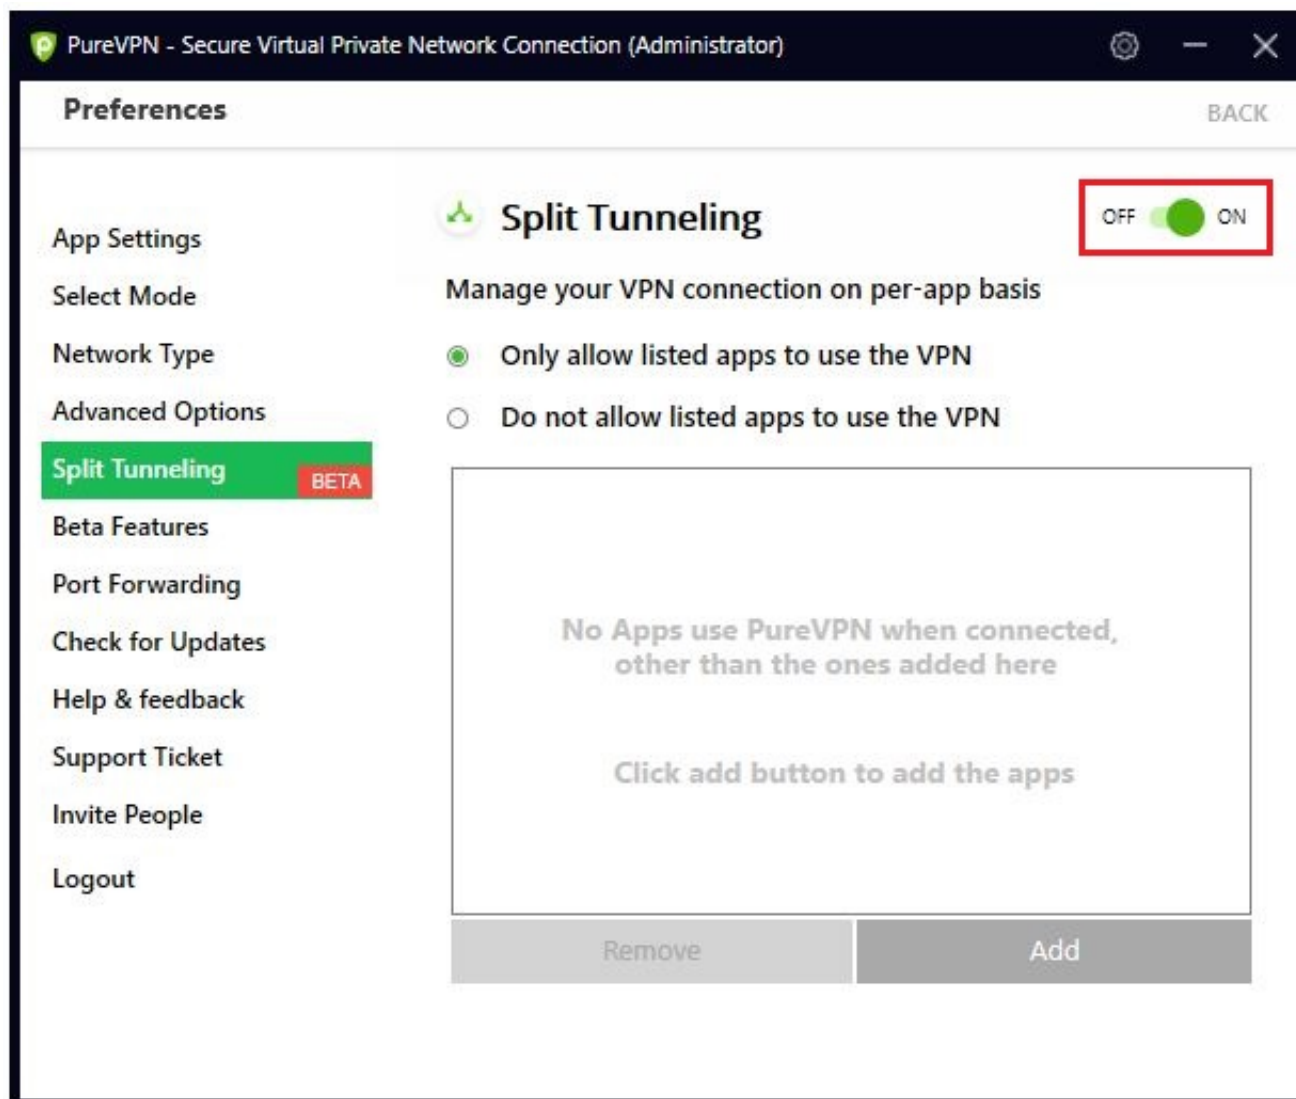

4 Toggle the switch ON.

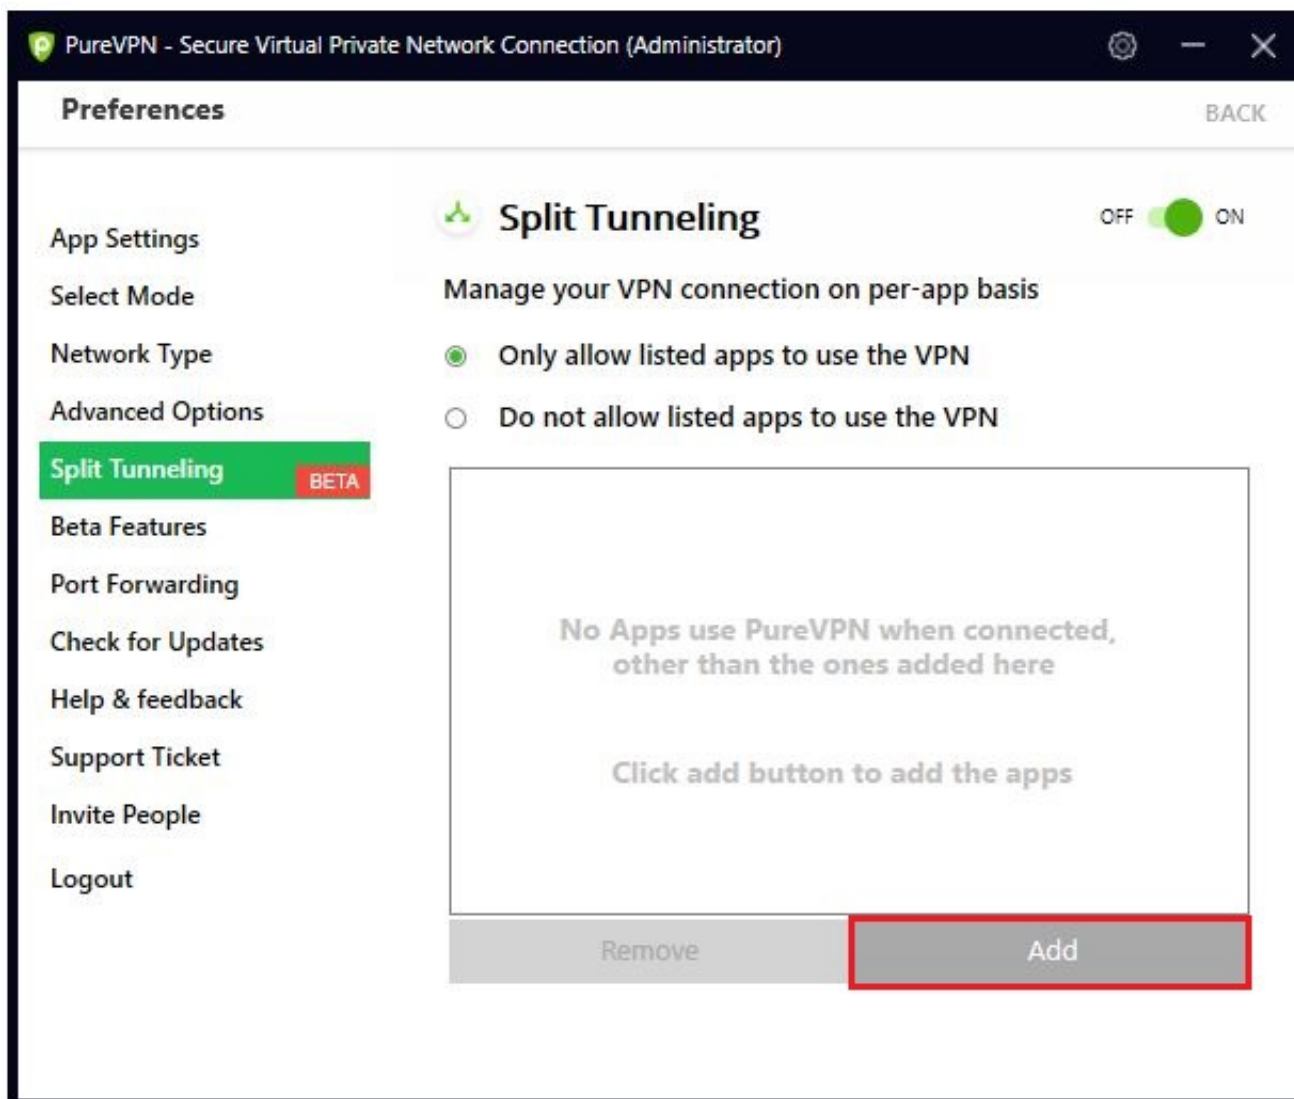

5 Click **Split Tunneling**.

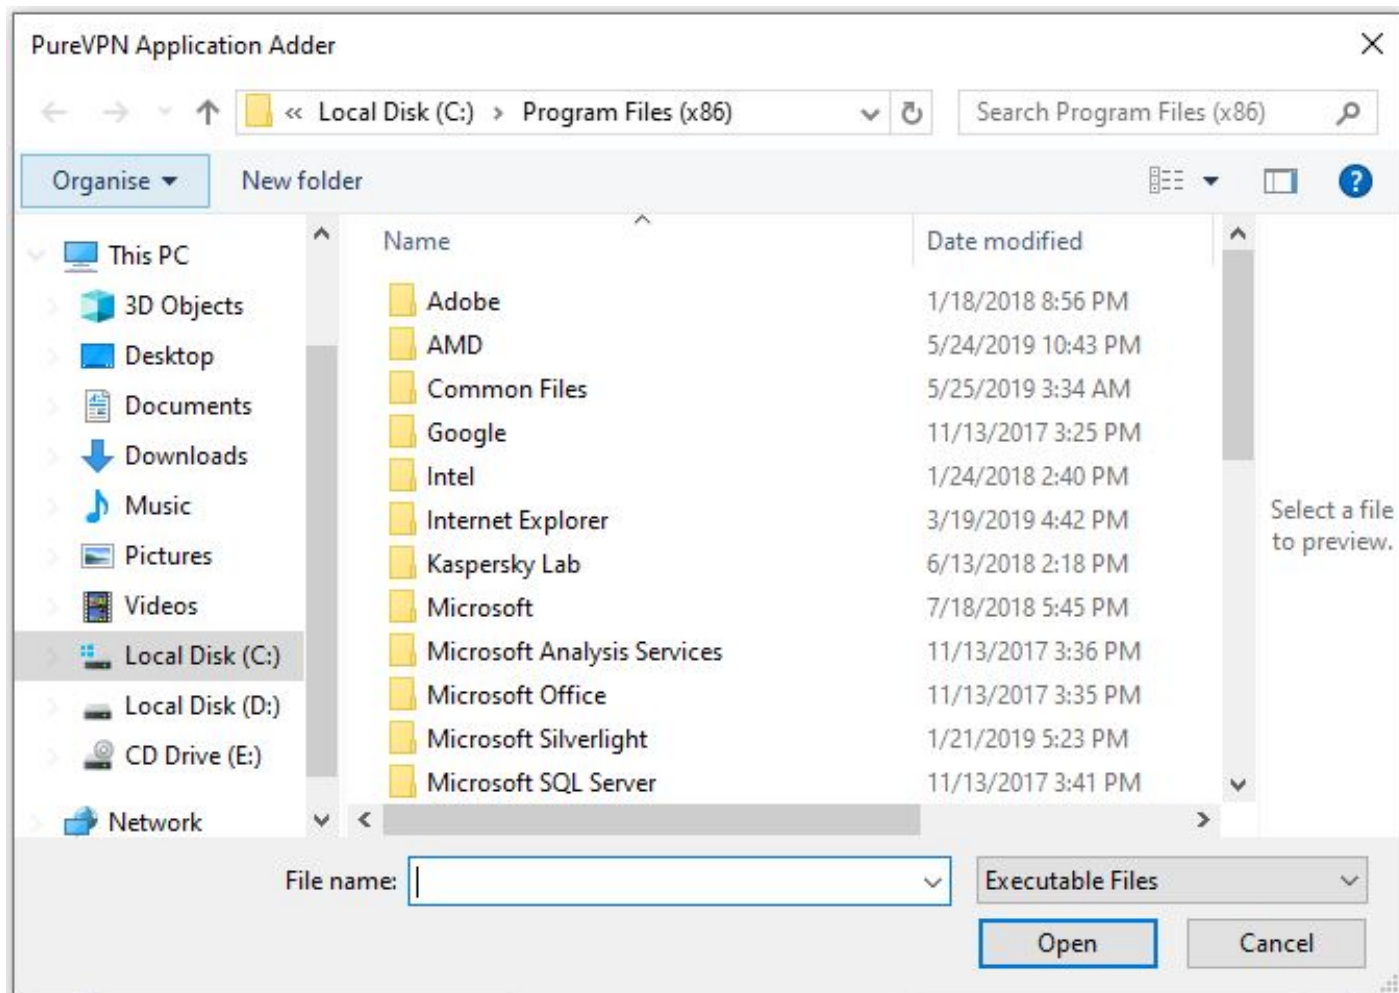

6 Toggle the switch to activate Split Tunneling.

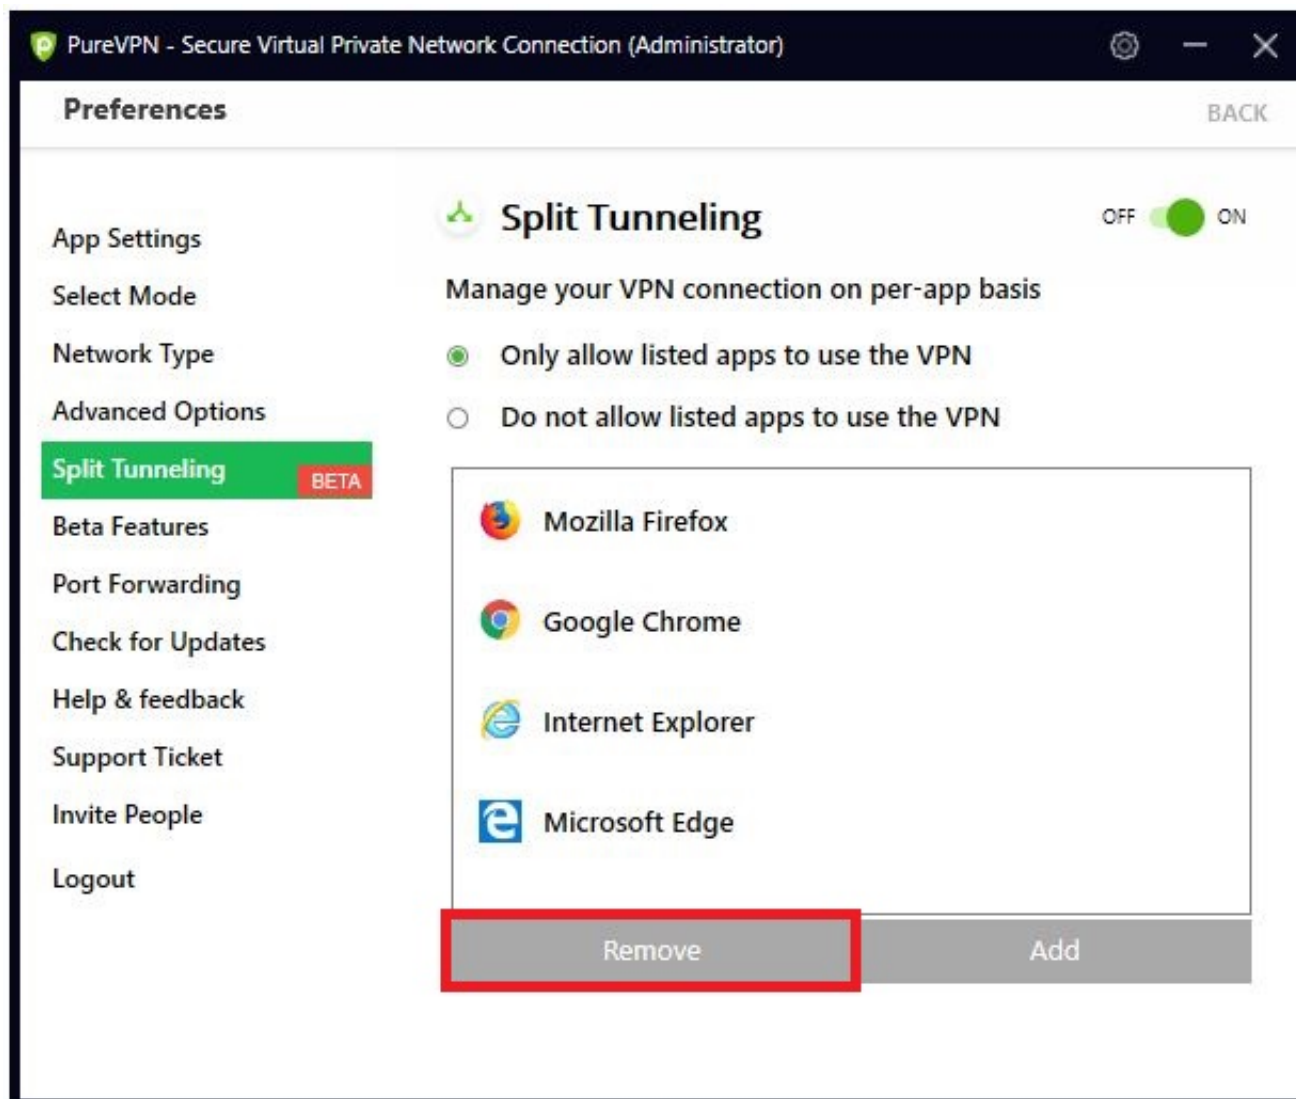

7 Select the **Only allow listed apps to use the VPN** option.

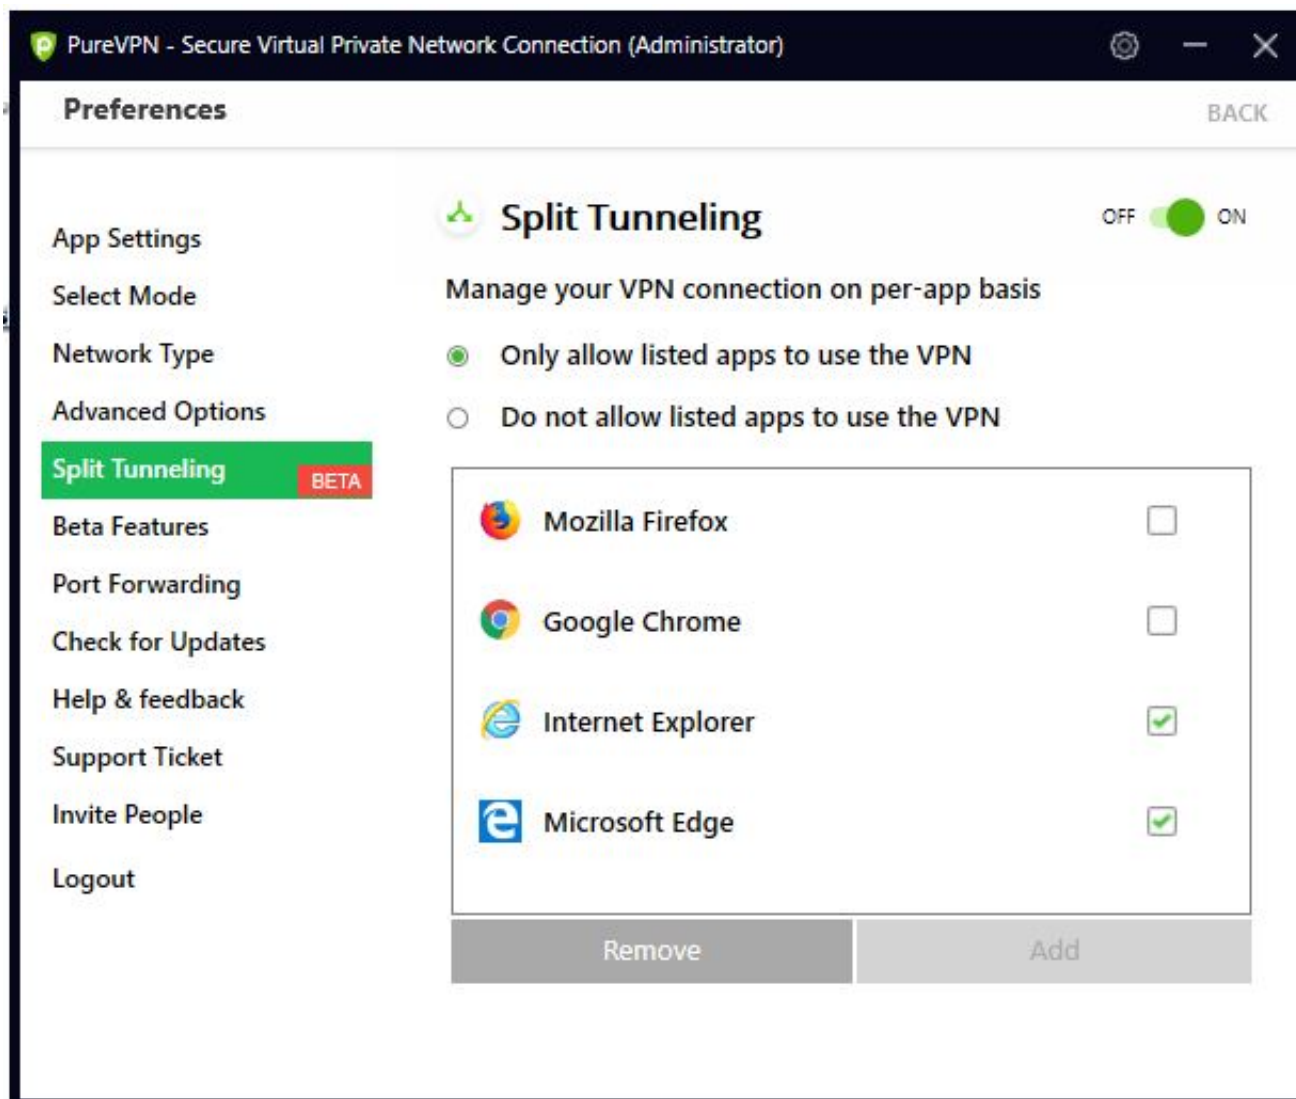

8 Click **Add** and choose the apps that you wish to run with PureVPN.

9 If you want to remove an app, just select the **Remove** option.

10 Pick the apps you that you wish to remove.

11 You can allow or disallow specific apps from using the VPN with the options highlighted below.
