

How to watch Netflix US on any device via Router

Router Setup is not a complicated process anymore with our step by step guide.

Things to Consider

Before you begin, please make sure that:

- You have a working internet connection
- VPN Supported Router.

Note: Before configuring PureVPN on your router please make sure that your router is not working as modem and supports PPTP protocol.

To setup PureVPN manually on your router, just locate your brand of router in the list below and follow the instructions to install PureVPN on your router.
