

How to watch Winter Olympics on Kodi

Look no further because we have prepared for you the ultimate [guide](#) for watching Winter Olympics 2018 live on Kodi. This simple step-by-step guide will help in streaming right away!

How to Install Kodi Live Sports Add-ons?

Listed below are the steps you will have to follow when installing any of the Kodi live sports add-ons

- Download the Repository of the Kodi add-on.
- Launch Kodi and click the Gear Icon to access the Settings.
- Click File Manager, and then choose Add Source.
- Replace None with the repository URL of your choice.
- Once you have typed a name for the repository, click Ok.
- From the home screen, click Add-ons.
- Click the Package Symbol to continue with the installation.
- Click Install from Zip File, and then select the repository name you entered in step 4.
- Click on the repository zip file to install the add-on.
- Return to the Add-ons screen and click Install from Repository.
- Go to Video Add-ons and find the repository you installed.
- Select the Kodi add-on you want and click Install.
