

I Want to Change My Email Address, Is it Possible?

Do you wish to change your existing email id and use a new email ID for PureVPN? You can do that easily by following this tutorial:

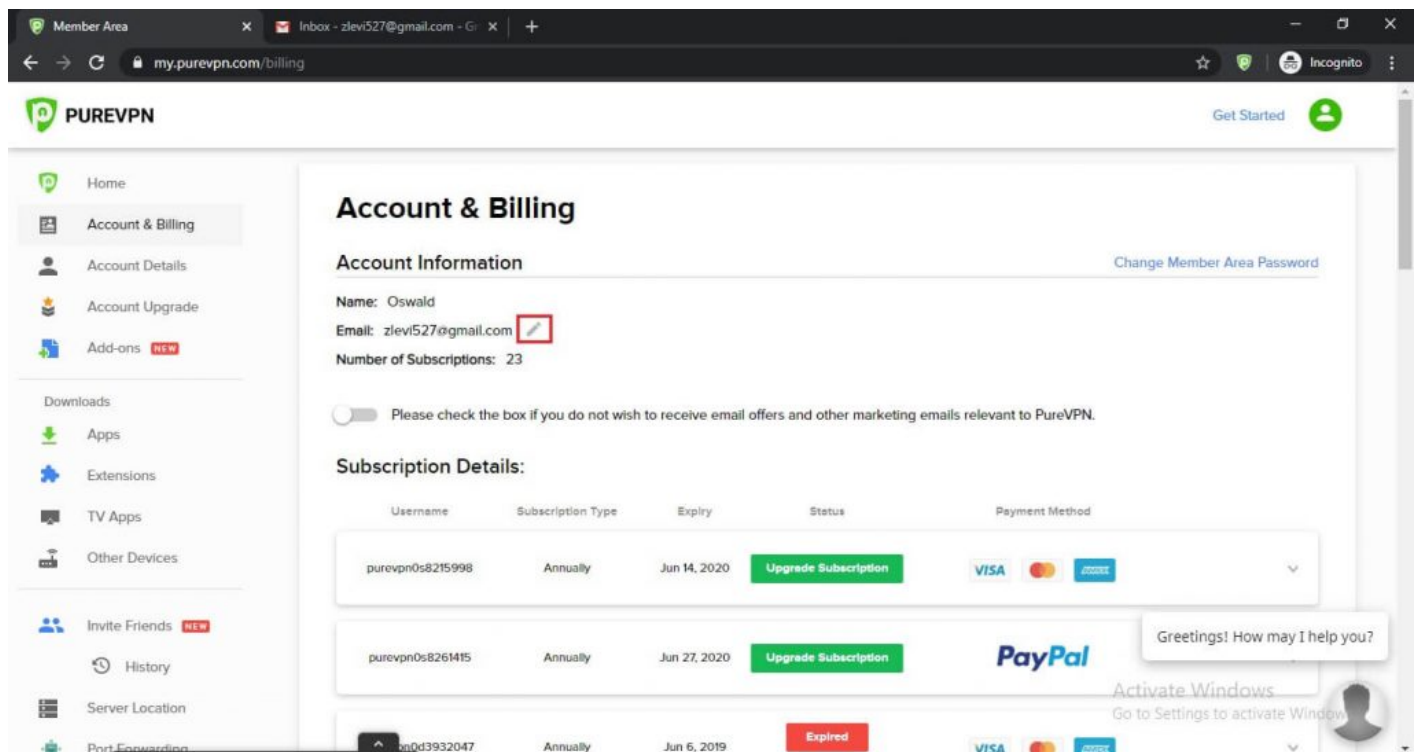

1 Log in to my.purevpn.com

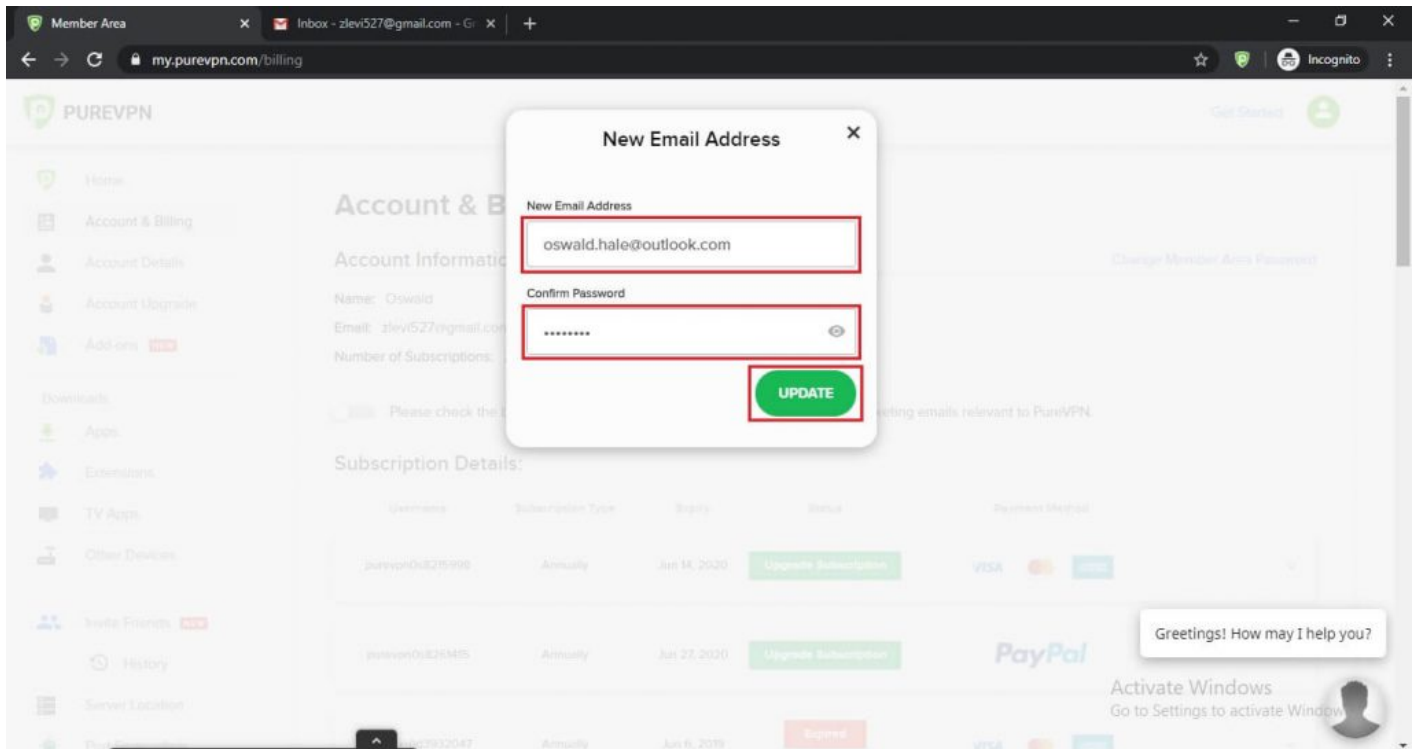

2 Select **Account & Billing** from the left panel.

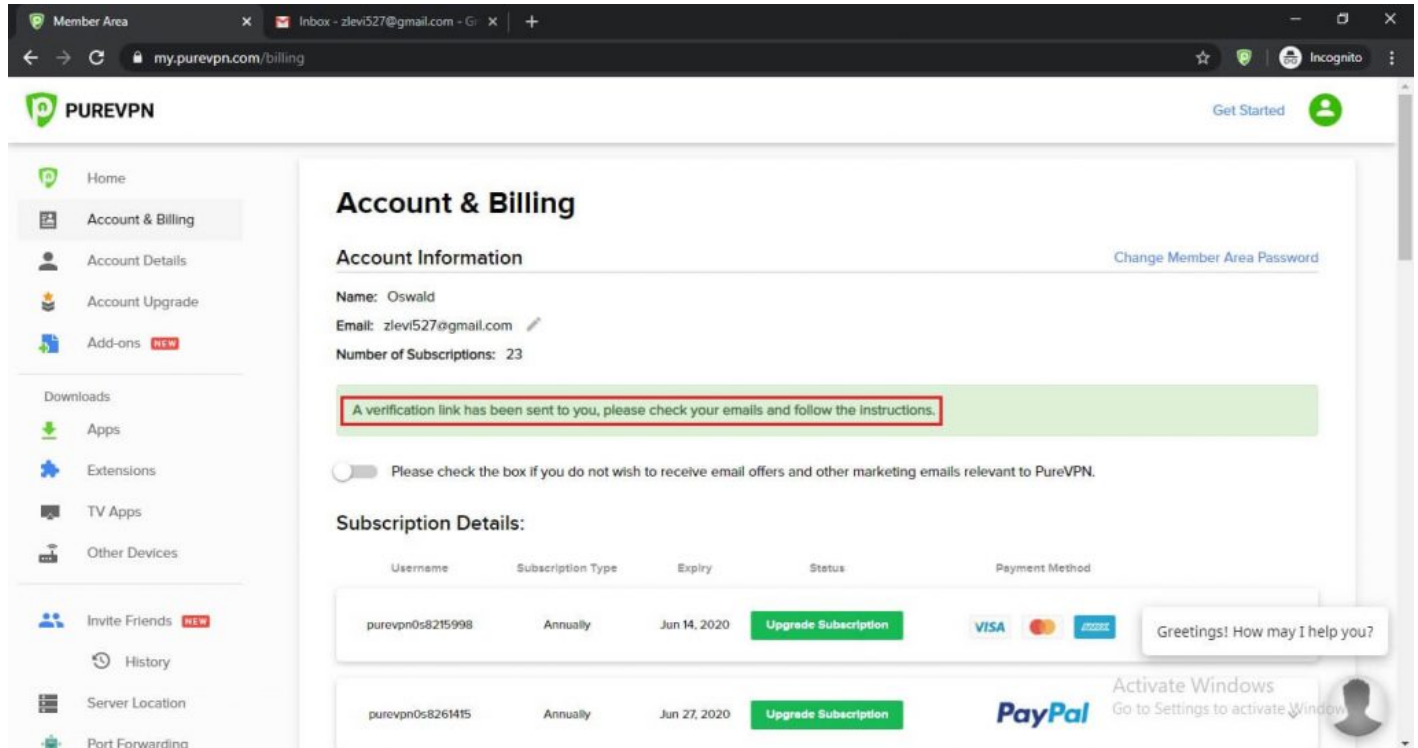

3 Click the **pen icon** to edit your email address.

4 Now, enter your **new email address** and **current Member's area password** to approve email change, then click **Update**.

5 Follow the email instructions to verify your new email address.

6 You're all set and your email address has been successfully updated.
