

## How to Setup Openvpn on Mac Tunnel Blick

### Things to Consider:

1. You have a working internet connection
2. Mac Supported Device.
3. A Premium PureVPN account (If you haven't bought yet click ?[here](#) to buy)

Note: Dedicated IP addon can be only be connected with Ras protocol i.e PPTP/L2TP/SSTP.

Find your VPN credentials for manual configuration.

To find your VPN credentials log into the PureVPN members area. Click ? [here](#) to visit member area.

- Login to the **Member area** using your PureVPN registered email address and password.

## PureVPN Support

Solution of Your Problems

• From manage account section, go to the **Subscriptions tab**.  
<https://support.purevpn.com>

- On Subscription tab scroll down to be able to view your **VPN credentials**

The screenshot shows the PureVPN account management interface. On the left is a sidebar with navigation options: Manage account, Subscriptions (highlighted), Upgrade Plan, Downloads, PureKeep, Help desk, Refer a friend, Affiliates, and Business. The main content area displays subscription details: Expiry: Aug 16, 2024 - 822 days remaining; Payment method: \*\*\*\* \* 3018; and a list of add-ons: Port Forwarding, Dedicated IP, Dedicated IP With Portforwarding, DDoS Protection, and PureKeep, each with a 'Get this Add-on' button. Below the add-ons, the VPN credentials are shown: VPN username: purevpn0s11308228 and VPN password: \*\*\*\*\*. There are links for 'Generate new password' and 'Get WireGuard Configuration'. On the right, there is a promotional banner for 'Earn Free Credit' with an 'Invite now' button.

- You will be able to see and copy your VPN credentials.
- Note down your PureVPN username and click the **Eye icon** to make your password visible and use it in the manual configuration.

How to connect PureVPN manually on Mac.

In order to configure **Tunnel Blick**, you need to download Tunnel Blick and OpenVPN Tunnel Blick files.

## PureVPN Support

Solution of Your Problems

<https://support.purevpn.com>

---
