

P2P / File Sharing

Peer-to-Peer (P2P) file-sharing is used most commonly for anonymous routing of the internet traffic and distributed storage, offering users complete control of different operational parameters. P2P/ File sharing is allowed with our service, but on the below mentioned shared servers/countries

Afghanistan, Algeria, Angola, The Bahamas, Bahrain, Bangladesh, Barbados, Belgium, Bermuda, Bolivia, British Virgin Islands, Brunei Darussalam, Bulgaria, Cayman Islands, Chile, Denmark, Estonia, Germany, Kenya, Latvia, Lithuania, Luxembourg, Moldova, Monaco, Netherlands, Nigeria, Norway, Oman, Panama, Portugal, Puerto Rico, Romania, Russia, Serbia, Sweden, Turkey, United Arab Emirates

Note

To use the service, it is not necessary to be physically present at the above-mentioned locations. You just need to connect to these servers

Furthermore, we have blocked P2P on some of our servers as per changing Global Web Policy. We don't allow p2p/filesharing where it's illegal by law named United Kingdom (UK) , United States (US), Canada, Australia etc.
