

## Setup Wireguard on macOS

If you're not seeing the updated member area just yet, don't worry – it's coming soon. In the meantime, you can continue using our app to set up Wireguard. Click? [here](#) to download the PureVPN app.

We are excited to tell you that we have added Wireguard support to our manual configuration. Now users can connect Wireguard by setting up the VPN manually. As majority of users prefer setting up Wireguard because of its encryption and speed so that is why PureVPN decided to launch Wireguard support.

Wondering how you set it up? Follow the instructions below ?

Configure Wireguard on macOS

- Go to the **App Store** in your macOS device and then search and download the **Wireguard** VPN Client:

## PureVPN Support

Solution of Your Problems  
<https://support.purevpn.com>

- Launch the Wireguard app and click **+** button and then Import Tunnel from file... to upload the configuration file. (To get the configuration files follow the steps for Downloading Wireguard files below)

- To establish the Wireguard VPN connection just click on the **Activate** button.

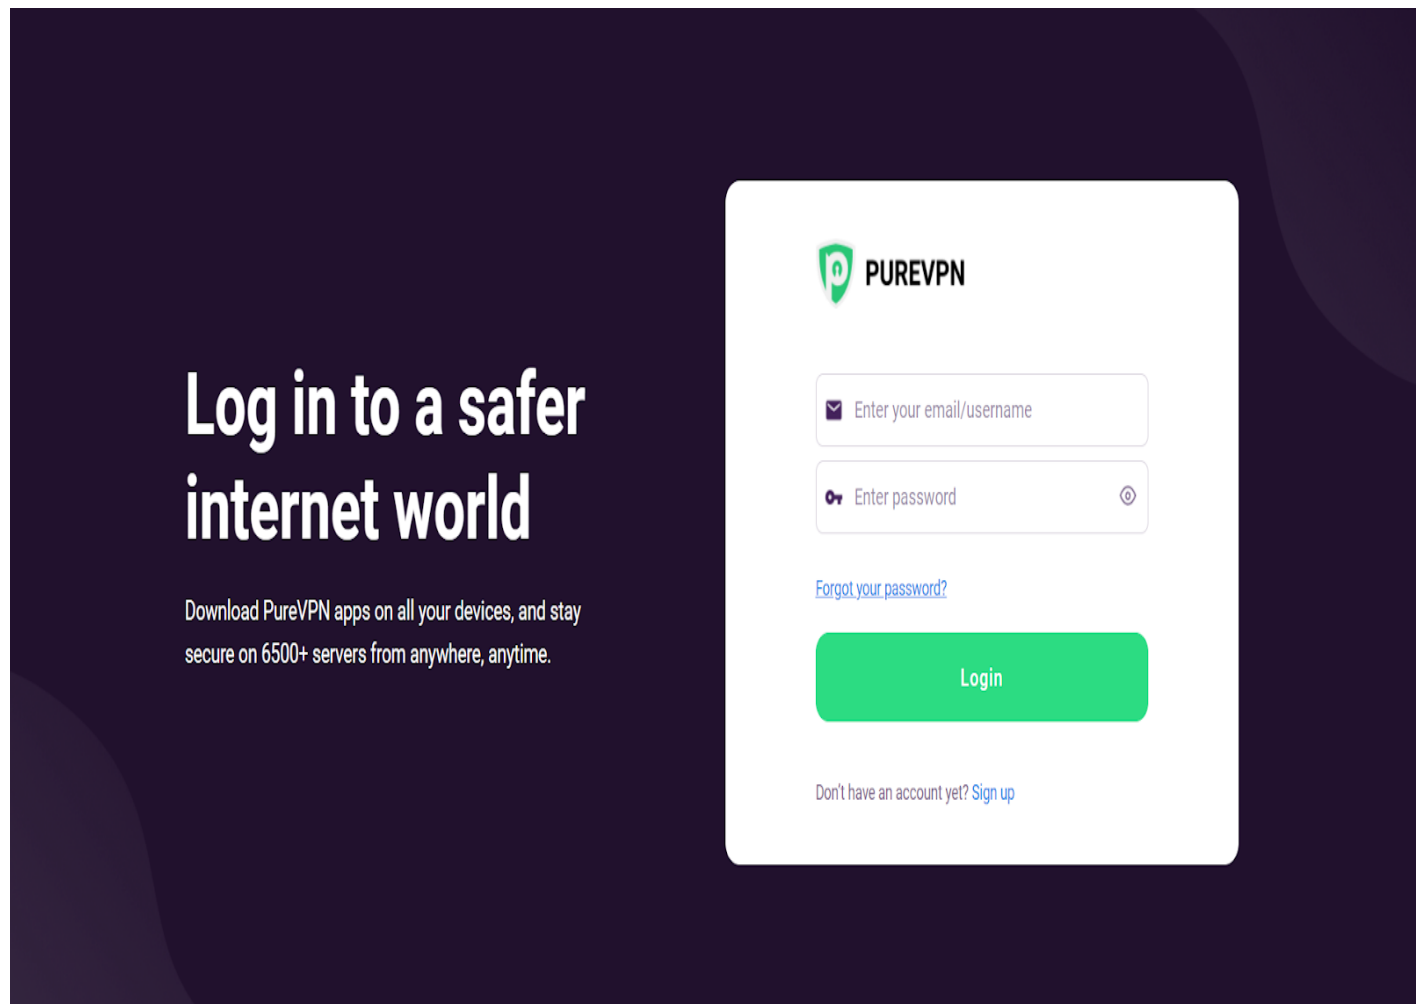

- Wireguard VPN is connected on your macOS.

### Download Wireguard Configuration File

- Login to the PureVPN **Member area** account

#### Note:

We recommend you to first download and install the Wireguard application and then get the Wireguard configuration file by following the below steps.

- Go to the **Subscription tab**.

The screenshot displays the PureVPN account management interface. On the left is a navigation sidebar with options: Get Started, PureVPN, PureKeep, Manage account, Subscriptions (highlighted), Upgrade Plan, Downloads, Help desk, Refer a friend, Affiliates, and Business. The main content area is titled 'Manage your payment details, plan upgrades, renewals, and VPN passwords to make PureVPN work for you smoothly.' It shows the following details: Billing cycle: 1 Month (with an 'Upgrade plan' link); Subscription type: PAID; Status: Active; Expiry: July 29, 2022 - 30 days remaining; Payment method: Paypal (with a 'Change payment method' link and a 'See payment history' button); and a list of add-ons: PureKeep (New, Locked, 'Get this Add-on' button), Port Forwarding (Locked, 'Get this Add-on' button), Dedicated IP (Locked, 'Get this Add-on' button), and Dedicated IP With Portforwarding (Locked, 'Get this Add-on' button'). On the right, there is a promotional banner for 'Earn Free Credit' with an 'Invite now' button and a chat icon at the bottom right.

- Scroll down to find **Get Wireguard Configuration**

- A pop-up window will appear asking you to select the required information. The information contains the following:  
Select Country: To which location you want to connect to?  
Select City: To which city you want to connect from that country?  
Select Device: On which device you want to connect?

- After entering the details you will be able to see the option to download or copy to clipboard the configuration file.

Note:

Please make sure to copy the file and activate the connection within 2 minutes once the profile is downloaded, otherwise the configuration will expire and you will have to redownload a fresh configuration file.
