

## **How to Use PureVPN on Smart TV, Western Digital Live TV, Panasonic TV, Google TV, Amazon Fire TV, Now TV Box, Samsung TV, Toshiba TV and LG Smart TV Upgrader Box?**

If you've ever bought a Smart TV only to find that you couldn't access certain apps, you know how frustrating that can be. Luckily, there's an easy solution which is to install PureVPN. PureVPN provide tons of benefits, and we'll show you how to set up on your Smart TV. Smart TVs now run on the Tizen operating system, which doesn't support VPN apps but there is no need to worry as there is another method through which you can have access to PureVPN on your Smart TV.

Users can setup PureVPN on their Smart TV by configuring the VPN on a router. Yes! PureVPN can be configured on a router but it needs to be a supported one. Checkout this ? [link](#) and find out the PureVPN supported routers.

There is an easy way of configuring PureVPN on a router which is to buy a flash router. Flash router is a pre-configured VPN router and it is a great plug-and-play solution for those who want to be up and running with a VPN quickly. These routers come with the VPN software already installed, so all you need to do is select a server to connect to. Click ? [here](#) to find get more information on PureVPN flash routers.
