

PureVPN for Students

Being a student isn't easy these days. There are non-stop projects and assignments due every week with exams and tests coming every couple of months. To make this worse, most students juggle their education with a job or two. And in this day and age, any tool that can help ease the suffering is most-welcome. And that's exactly what a VPN does for students who are constantly on-the-go.

ISP Throttling for High Speed:

When you're connected to a VPN, you'll no longer have to worry about ISP throttling your speed. (Be Proactive, Stay Safe! Use a VPN)

Access Desired Content:

Students can run into difficulties when trying to take online classes during summer break while their traveling. However, with a VPN, you can rest assured that you'll be able to view your desired content from any location in the world. (Be Proactive, Stay Safe! Use a VPN)

Online Streaming:

Students often take advantage of platforms like YouTube which contains a lot of educational videos. However, some of these videos can only be viewed from a certain region. With a VPN, students no longer have to worry about this problem. (Be Proactive, Stay Safe! Use a VPN)

WiFi Hotspot Security:

Any information that you send over an unknown network could be intercepted. That's why it's absolutely crucial to use a VPN when connected to an unsecured network to safeguard your digital data. (Be Proactive, Stay Safe! Use a VPN)

Unlimited Downloading:

Students are often on a strict budget, which means unlimited internet packages are often out of the picture. However, with a VPN, students no longer have to worry about exceeding their monthly data allowance. Download as much as you want! (Be Proactive, Stay Safe! Use a VPN)
